About *Research Connections*

These data are made available by the Child Care and Early Education *Research Connections* project. *Research Connections* promotes high quality research in child care and early education and the use of that research in policymaking.

Research Connections is operated by the National Center for Children in Poverty at the Mailman School of Public Health, Columbia University and the Inter-university Consortium for Political and Social Research at the Institute for Social Research, University of Michigan, through a cooperative agreement with the Child Care Bureau, Office of Family Assistance and the Office of Planning, Research, and Evaluation, Administration for Children and Families in the U.S. Department of Health and Human Services.

Multi-State Study of Pre-Kindergarten

Questionnaire for Pre-Kindergarten Administrators: Directors/Principals/Supervisors

A project of
University of North Carolina at Chapel Hill
University of Virginia
University of California at Los Angeles

Funded by
Office of Educational Research and Improvement
U.S. Department of Education

If you have questions,
please call toll free 1-866-828-0269 or
e-mail diane_early@unc.edu

Throughout this questionnaire, we use the term “pre-kindergarten” to refer to the early childhood program you supervise. We realize that this may be a public preschool, a Head Start, or a child care center. As you answer these questions, please think about the classroom named on the front of the questionnaire and the center or school in which it is housed.

Your Program/School

1. Is this prekindergarten class part of a (**Choose one**):
☐ a. public agency ☐ b. non-profit agency ☐ c. for profit agency
2. Is this class part of a Head Start program? ☐ Yes ☐ No
3. Is it located in a public school building? ☐ Yes ☐ No
4. What ages of children attend the center/school in which the class is located? (**Check all that apply**)
☐ a. Infants/Toddlers ☐ b. Two-year olds ☐ c. Preschoolers (3-4) ☐ d. Kindergartners
☐ e. 1st grade ☐ f. 2nd grade ☐ g. 3rd-5th grade ☐ h. 6th-8th grade
☐ i. 9th - 12th grade
5. Altogether how many children (of all ages) attend this center/school? ____
6. How many **full-day** pre-kindergarten classes (≥ 4 hrs. daily) does this school offer? ____
7. How many children in total attend these **full-day** pre-k classes? ____
8. How many **half-day** pre-kindergarten classes (< 4 hrs. daily) does this center/school offer? ____
9. How many children in total attend these **half-day** pre-k classes? ____
10. Of the total pre-kindergarten children reported in 7 and 9, how many are eligible for free or reduced priced lunch or qualify for the child care food program? ____ children
11. How many months per year are pre-kindergarten classes held at this center/school? ____
 If less than 12 months per year, is an optional summer program offered? ☐ Yes ☐ No
12. Which services does this center/school offer to pre-kindergarten children and their families, whether funded by state pre-k money or other funds or programs. (**Check yes or no for each item**)

☐ Yes	☐ No	a. Meals for children
☐ Yes	☐ No	b. Transportation
☐ Yes	☐ No	c. On-site family case workers
☐ Yes	☐ No	d. Parenting education or family literacy programs
☐ Yes	☐ No	e. Before school care
☐ Yes	☐ No	f. After school care
☐ Yes	☐ No	g. Extended year (summer and holiday) care
☐ Yes	☐ No	h. Healthcare or social services offered collaboratively by service agencies such as hospitals
☐ Yes	☐ No	i. Special services for children with special needs (e.g., speech, PT, service coordination)
☐ Yes	☐ No	j. Developmental assessments of children
☐ Yes	☐ No	k. Other (<i>Please specify</i>) _____

13. How much emphasis do the pre-kindergarten classes at this center/school place on the following goals? **(Circle your response)**

	No emphasis	Minor emphasis	Moderate emphasis	Strong emphasis	Major emphasis
a. Facilitating children's social skills	1	2	3	4	5
b. Facilitating children's pre-reading	1	2	3	4	5
c. Facilitating children's number concepts	1	2	3	4	5
d. Raising performance on standardized tests or readiness assessments	1	2	3	4	5
e. Facilitating children's fine and gross motor skills	1	2	3	4	5
f. Providing help to low-achieving children	1	2	3	4	5
g. Providing challenging tasks for higher-achieving children	1	2	3	4	5
h. Facilitating transition from pre-k to kindergarten	1	2	3	4	5

14. Which of the following is the **main** curriculum used by the pre-kindergarten class(es)? **(Check the one best box)**

☐ a. No curriculum (SKIP to question 18)	☐ g. Curiosity Corner
☐ b. High/Scope	☐ h. Scholastic curriculum
☐ c. Montessori	☐ i. High Reach
☐ d. Bank Street	☐ j. State-developed curriculum
☐ e. Creative Curriculum	☐ k. Locally-developed curriculum
☐ f. Creating Child Centered Classrooms – Step by Step	☐ l. Other <i>Specify</i> : _____

15. Who selected this curriculum?

- ☐ a. teachers
☐ b. center director or school principal
☐ c. school district or multisite program personnel
☐ d. state agency
☐ e. other: _____

16. Have the pre-k teachers received training specific to this curriculum?

- ☐ a. All teachers
 ☐ b. Some teachers
 ☐ c. None of the teachers

17. Do the teachers receive ongoing support in the use of this curriculum? ☐ Yes ☐ No

18. Who makes **most** of the decisions about day-to-day instructional plans? **(Check one)**

- ☐ a. teachers
☐ b. center director or school principal
☐ c. school district or multisite program personnel
☐ d. state agency
☐ e. other: _____

19. The following activities relate to transitioning children into pre-kindergarten. For each activity, please indicate if your staff participated in the activity **with current pre-kindergarten children**. (*Check yes or no.*)

Yes No

- | | | |
|--------------------------|--------------------------|---|
| ☐ | ☐ | a. Phone calls to children or families before school began |
| ☐ | ☐ | b. Visits by incoming pre-kindergartners to the class before school began |
| ☐ | ☐ | c. Visits to children or families at home by teacher or other pre-kindergarten staff |
| ☐ | ☐ | d. A spring orientation about pre-kindergarten for children |
| ☐ | ☐ | e. A spring orientation about pre-kindergarten for parents of pre-kindergartners |
| ☐ | ☐ | f. An open house for parents and children before the school year began |
| ☐ | ☐ | g. An open house for parents and children after the school year began |

20. The following activities relate to transitioning children from pre-k to kindergarten. For each activity, please indicate if your staff participated in the activity last year. (*Check yes or no.*)

Yes No

- | | | |
|--------------------------|--------------------------|---|
| ☐ | ☐ | a. Meeting between pre-k teachers and kindergarten teachers |
| ☐ | ☐ | b. Meeting between pre-k administrators and elementary principals |
| ☐ | ☐ | c. Kindergarten and pre-k staff plan and implement together kindergarten registration |
| ☐ | ☐ | d. Kindergarten and pre-k staff plan and implement communication to the public about school readiness or other early childhood issues |
| ☐ | ☐ | e. Kindergarten and pre-k staff cooperatively run open house/parent orientation |
| ☐ | ☐ | f. Kindergarten holds informational meeting for parents of pre-kindergartners about transition to kindergarten |
| ☐ | ☐ | g. Pre-k teachers provide children's pre-k records to the kindergarten teacher or school |
| ☐ | ☐ | h. Kindergarten and pre-k teachers participate in joint training on some topics |

21. a. How many **pre-k lead teachers** are currently employed in this center/school? _____
- b. How many **pre-k teachers** left and had to be replaced between January 1, 2001 and December 31, 2001? _____
- c. How many **pre-k assistant teachers or paid teacher aides** are currently employed in this center/school? _____
- d. How many **pre-k assistant teachers or paid teacher aides** left and had to be replaced between January 1, 2001 and December 31, 2001? _____

22. What is the **highest** level of education of these **pre-kindergarten lead teachers**? (*Count each teacher only once*)

Number of
Teachers

- | | |
|-------|---|
| _____ | a. High School diploma or GED |
| _____ | b. Some college, but no degree |
| _____ | c. Associate's Degree |
| _____ | d. Bachelor's degree |
| _____ | e. At least one year of coursework beyond a Bachelor's but not a graduate degree |
| _____ | f. Master's degree |
| _____ | g. Education specialist or professional diploma based on at least one year of coursework past a Master's degree |
| _____ | h. Doctorate degree |
| _____ | i. Other (<i>Please specify:</i> _____) |

Ideas About Children

23. Please circle the answer that indicates how strongly you agree with the following statements.

	Strongly Disagree	Mildly Disagree	Not Sure	Mildly Agree	Strongly Agree
a. Since parents lack special training in education, they should not question the teacher's teaching methods.	1	2	3	4	5
b. Children should be treated the same regardless of differences among them.	1	2	3	4	5
c. Children should always obey the teacher.	1	2	3	4	5
d. Preparing for the future is more important for a child than enjoying today.	1	2	3	4	5
e. Children will not do the right thing unless they must.	1	2	3	4	5
f. Children should be allowed to disagree with their parents if they feel their own ideas are better.	1	2	3	4	5
g. Children should be kept busy with work and study at home and at school.	1	2	3	4	5
h. The major goal of education is to put basic information into the minds of the children.	1	2	3	4	5
i. In order to be fair, a teacher must treat all children alike.	1	2	3	4	5
j. The most important thing to teach children is absolute obedience to whoever is in authority.	1	2	3	4	5
k. Children learn best by doing things themselves rather than listening to others.	1	2	3	4	5
l. Children must be carefully trained early in life or their natural impulses will make them unmanageable.	1	2	3	4	5
m. Children have a right to their own point of view and should be allowed to express it.	1	2	3	4	5
n. Children's learning results mainly from being presented basic information again and again.	1	2	3	4	5
o. Children like to teach other children.	1	2	3	4	5
p. The most important thing to teach children is absolute obedience to parents.	1	2	3	4	5

Schaefer & Edgerton (1985)

Finances

This section will help us better understand the sources of income and the expenses for the pre-K classes at this center/school. We are interested in the classroom in our study (see the front of the questionnaire for the specific class) and other classes funded the same way as this class.

24. What is the range of gross (pre-tax) salaries for full-time lead teachers in the pre-k classes?

- a. Lowest salary \$ _____ per year **or** lowest hourly wage \$ _____ per hour
b. Highest salary \$ _____ per year **or** highest hourly wage \$ _____ per hour

25. What benefits are offered to the pre-k lead teachers? (*Check yes or no for each option.*)

Yes No

- ☐ ☐ a. Paid vacation
☐ ☐ b. Paid sick leave
☐ ☐ c. Paid maternity/paternity leave
☐ ☐ d. Unpaid maternity leave
☐ ☐ e. Paid family leave

Yes No

- ☐ ☐ f. Fully or partially paid health insurance
☐ ☐ g. Fully or partially paid dental insurance
☐ ☐ h. Tuition reimbursement
☐ ☐ i. Retirement plan

26. Below are listed various possible sources of support for pre-k programs and facilities. Please tell us which funding sources cover pre-K classes at this center/school. (*Check yes or no for each item.*)

Yes No

State Funds

- ☐ ☐ a. State Pre-K
☐ ☐ b. State Head Start
☐ ☐ c. Other State Education Support (Specify:_____)

Federal Funds

- ☐ ☐ d. Federal Head Start
☐ ☐ e. Title 1
☐ ☐ f. Even Start
☐ ☐ g. Child Care Subsidy Funds
☐ ☐ h. USDA Child Care/School Food Service
☐ ☐ i. Other Federal Education Support (Specify:_____)

Local Funds

- ☐ ☐ j. Local Taxes
☐ ☐ k. Community Agency Grants
☐ ☐ l. Parent Fees
☐ ☐ m. Sponsoring Organization
☐ ☐ n. Fundraising Events
☐ ☐ o. DSS-Child Care
☐ ☐ p. Other Local Support (Specify:_____)

Program Eligibility and Recruitment

27. Which of the following criteria are part of the official policy for determining which children are eligible to enroll in the pre-kindergarten class that we are studying?

Yes No

- ☐ ☐ a. Location of residence
- ☐ ☐ b. Family income
- ☐ ☐ c. Child's age
- ☐ ☐ d. Referrals (e.g., by social welfare agencies)
- ☐ ☐ e. Limited English proficiency or English as a Second Language
- ☐ ☐ f. Eligibility for special education services
- ☐ ☐ g. Educational delay, not special ed.
- ☐ ☐ h. Other risk factor, such as low parental education, prenatal drug exposure, low birth weight, homelessness
- ☐ ☐ i. Other (specify: _____)

28. Are all the pre-k slots at this center/school currently filled?

☐ Yes ☐ No

29. Do you have a waiting list of eligible children for whom slots are not available?

☐ No ☐ Yes If yes, How many children are on the waiting list? _____

30. What methods are used to recruit families into the pre-k program? (**Respond Yes or No for each item**).

Yes No

- ☐ ☐ a. Informational meetings
- ☐ ☐ b. Direct contact - telephoning
- ☐ ☐ c. Direct contact - door to door visits
- ☐ ☐ d. Booths/displays at shopping mall stores in the community
- ☐ ☐ e. Fliers, brochures, posters, public service announcements
- ☐ ☐ f. Outreach into the community via churches or other organizations
- ☐ ☐ g. Referrals from agencies
- ☐ ☐ h. Other (specify: _____)

Parent Involvement

31. When are parents allowed in the pre-k classroom(s) once the school day has begun? (**Check one**)

☐ a. Not allowed ☐ b. At specific times ☐ c. At any time

32. Are parents required to give advance notice to visit the classroom? ☐ Yes ☐ No

33. How are parents of pre-k children involved? (**Respond Yes or No for each item**)

Yes No

- | | | |
|--------------------------|--------------------------|--|
| ☐ | ☐ | a. As volunteers in the classroom |
| ☐ | ☐ | b. As volunteers with home activities |
| ☐ | ☐ | c. As consultants or workshop teachers |
| ☐ | ☐ | d. As providers of guidance on ethnic customs, traditions and values |
| ☐ | ☐ | e. As home visitors |
| ☐ | ☐ | f. As substitute teachers |
| ☐ | ☐ | g. As interpreters for non-English speaking or limited English-speaking families |
| 0 | ☐ | h. As members of governing board or policy council |
| 0 | ☐ | i. As bus monitors or drivers |
| ☐ | ☐ | j. Attend parent workshops or meetings |
| ☐ | ☐ | k. Assist in recruiting families |
| ☐ | ☐ | l. Contact parents to notify them of meetings and other school activities. |
| ☐ | ☐ | m. Other (specify: _____) |

34. Are any programs of parent involvement targeted specifically toward fathers? ☐ Yes ☐ No

35. What is your estimate of the percent of parents of pre-k children who are involved in one or more of the above types of activities? a. _____% of mothers b. _____% of fathers

36. How would you describe the quality of relationships and interactions between teachers and parents at the pre-k center? (**Circle one**)

1	2	3	4
Very unsatisfying, it is difficult for them to work together	Somewhat unsatisfying, could definitely be improved	Somewhat satisfying, relationships are OK	Very satisfying, it is easy for them to work together

37. Which, if any, of the pre-kindergarten staff make home visits?

Yes No

- | | | |
|--------------------------|--------------------------|---|
| ☐ | ☐ | a. You |
| ☐ | ☐ | b. Lead Teachers |
| ☐ | ☐ | c. Assistant Teachers |
| ☐ | ☐ | d. Family Service Coordinator or Liaison Worker |
| ☐ | ☐ | e. Social Worker |
| ☐ | ☐ | f. Volunteer Parents |

38. On average, how many times per school year is each pre-k family visited by a member of the pre-k program staff? _____ visits per year

Professional/Demographics

39. What is your position title? (**Please check one**)

- ☐ a. School Principal ☐ b. Center Director ☐ c. Pre-K Supervisor ☐ d. Other: _____

40. What is the highest level of education you have completed? (**Check only one**)

☐ a. High school diploma or less	☐ e. Master's degree
☐ b. Some college but no degree	☐ f. Education specialist or professional diploma based on at least one year of course work beyond a Master's degree
☐ c. AA, AS, two-year degree	☐ g. Doctoral degree
☐ d. Bachelor's degree	☐ h. Other Specify: _____

41. What was your major when you received your highest degree? (**Please check one**)

☐ a. Early childhood education	☐ d. Special education
☐ b. Child development	☐ e. Educational administration/leadership
☐ c. Elementary education	☐ f. Other Specify: _____

42. Do you have state-level certification or licensure for administering programs for young children and their families?

- ☐ No ☐ Yes **Specify details:** _____

43. a. How many years of experience do you have teaching pre-kindergarten or kindergarten children?

(Enter 0 if no experience) _____ years

b. How many years of experience do you have teaching children older than kindergarten-age?

(Enter 0 if no experience) _____ years

c. How many years of experience do you have directing an early childhood program or school?

(Enter 0 if no experience) _____ years

44. How long have you been the administrator of this program? _____ years _____ months

45. In what year were you born? 19_____

46. What is your gender? ☐ Female ☐ Male

47. What is your race/ethnicity? **(Check all that apply)**

☐ a. Black/African-American	☐ i. Chinese
☐ b. Native American/Indian	☐ j. Filipino
☐ c. White/Caucasian	☐ k. Japanese
☐ d. Pacific Islander	☐ l. Korean
☐ e. Mexican American, Chicano	☐ m. Vietnamese
☐ f. Puerto Rican	☐ n. Asian Indian
☐ g. Cuban	☐ o. Other Asian
☐ h. Other Hispanic/Spanish/Latino	☐ p. Other <i>Specify</i> : _____

48. What is your total salary (before taxes) for the current year? **(Please complete one option below)**

\$_____, _____ per year or \$_____, _____ per month or \$_____, _____ biweekly

49. How many months of the year does this salary cover? _____ months

50. What is your best source of information about effective early childhood classroom practices and teaching strategies? **(Please check only one response)**

☐ a. Face-to-face interactions with other principals, consultants, supervisors	☐ e. Internet resources (e.g., listserves, websites)
☐ b. Professional print materials (e.g., journals, newsletters)	☐ f. Television or radio
☐ c. Print materials for the general public (e.g., newspapers, news magazines)	☐ g. University or college courses
☐ d. Workshops, conferences, or presentations	☐ h. Other: <i>Specify</i> : _____

51. What are effective ways for us to share the findings from this study with you? **(Please check all that apply and then select the MOST EFFECTIVE strategy by circling that response)**

☐ a. Website	☐ e. Electronic listserv using email
☐ b. Fact sheets	☐ f. Journal articles
☐ c. Workshops or conference presentations	☐ g. Other <i>Specify</i> : _____
☐ d. News magazine	

52. Today's date: ____ / ____ / ____

Thank you for your time!

This work is partially supported under the Educational Research and Development Center Program, PR/Award Number R307A60004, as administered by the Office of Educational Research and Improvement, U.S. Department of Education. However, the contents do not necessarily represent the positions or policies of the National Institute on Early Childhood Development and Education, the Office of Educational Research and Improvement, or the U.S. Department of Education, and endorsement by the Federal government should not be assumed.

Pre-Kindergarten Administrator Questionnaire Payment Form

Thanks for completing this questionnaire. Your completion of the questionnaire is considered your consent to participate. All the information you have provided will be kept confidential and when we receive this, we will remove this page so your name will not be connected to the data.

Please fill in the address information below so that we can send you a \$50 check as thanks for your help. Your social security number is needed for internal accounting purposes only. Mail the questionnaire to us in the enclosed pre-paid envelope. Please print clearly.

Multi-State Study of Pre-Kindergarten

Teacher Questionnaire Fall of Pre-Kindergarten

**A project of
University of North Carolina at Chapel Hill
University of Virginia
University of California at Los Angeles**

**Funded by
Office of Educational Research and Improvement
U.S. Department of Education**

**If you have questions,
please call toll free: (866) 828-0269 or
e-mail diane_early@unc.edu**

Throughout this questionnaire, we use the term “pre-kindergarten” to refer to the early childhood program in which you teach. We realize that this may be a preschool, a Head Start, or a child care center.

Professional/Demographics

1. What is the highest level of education you have completed? **Check only one.**

☐ a. Eighth grade or less	☐ g. Bachelor's degree
☐ b. Some high school but no diploma	☐ h. At least one year of course work beyond a BA
☐ c. High school diploma or equivalent	☐ i. Master's degree
☐ d. High school diploma or equivalent, plus technical training or certificate	☐ j. Education specialist or professional diploma based on at least one year of course work beyond a Master's degree
☐ e. Some college but no degree	☐ k. Doctoral degree (e.g., M.D., J.D., Ph.D.)
☐ f. AA, AS, two-year degree	☐ l. Other: Specify: _____

2. What was your major when you received your highest degree? **Please check one.**

☐ a. Early childhood education	☐ e. Child development
☐ b. Elementary education	☐ f. N/A (no degree)
☐ c. Special education	☐ g. Other: Specify: _____
☐ d. English as a second language (ESL)	_____

3. Do you have a Child Development Associate credential (CDA)? ☐ Yes ☐ No

4. Do you have a **certification from your state education agency** that qualifies you to teach....

a. ...children younger than 4 years old?	☐ Yes	☐ No
b. ...4-year old children?	☐ Yes	☐ No
c. ...Kindergarten?	☐ Yes	☐ No
d. ...other early elementary grades?	☐ Yes	☐ No
e. ...special education or work as an early interventionist?	☐ Yes	☐ No
f. ...children with Limited English Proficiency (LEP) or teach English as a Second Language (ESL)?	☐ Yes	☐ No
g. ...any other levels or special subjects? If yes, please specify: _____	☐ Yes	☐ No

5. Do you have state-level certification for working with young children, other than a teaching certificate?

- ☐ Yes: **Specify:** _____
- ☐ No

6. List your years of experience working professionally with children at each of the following levels.

Enter 0 if no experience.

- a. Prior to kindergarten entry _____ years
- b. Kindergarten _____ years
- c. Above kindergarten..... _____ years

7. In what year were you born? 19____ _

8. What is your gender? ☐ a. Female ☐ b. Male

9. Check **all** the categories that describe your race/ethnicity:

☐ a. Black/African-American	☐ i. Chinese
☐ b. Native American/Indian	☐ j. Filipino
☐ c. White/Caucasian	☐ k. Japanese
☐ d. Pacific Islander	☐ l. Korean
☐ e. Mexican American, Chicano	☐ m. Vietnamese
☐ f. Puerto Rican	☐ n. Asian Indian
☐ g. Cuban	☐ o. Other Asian
☐ h. Other Hispanic/Spanish/Latino	☐ p. Other: Specify: _____

10. What is your total annual salary (before taxes) as a teacher for the current year?

\$ _____ per year

(If you do not know your annual salary, what is your hourly wage? \$_____._____ per hour)

11. How many months of the year does this salary cover? _____ months

12. How many hours per week are you paid to work (not including overtime)? _____ hours per week

13. What is your best source of information about effective early childhood classroom practices and teaching strategies? **Please check only one response.**

☐ a. Face-to-face interactions with other teachers, consultants, supervisors	☐ e. Internet resources (e.g., listservs, websites)
☐ b. Professional print materials (e.g., newsletters)	☐ f. Television or radio
☐ c. Print materials for the general public (e.g., newspapers, news magazines)	☐ g. University or college courses
☐ d. Workshops, conferences, or presentations	☐ h. Other: Specify: _____

14. What are effective ways for us to share the findings from this study with you? **Please check all that apply and then select the MOST EFFECTIVE strategy by circling that response.**

☐ a. Website	☐ e. Electronic listserv using email
☐ b. Fact sheets	☐ f. Journal articles
☐ c. Workshops or conference presentations	☐ g. Other: Specify: _____
☐ d. News magazine	

Your Students

15. As of today, how many students are enrolled in your class(es)? **Write a number in each space. If you do not teach one or more of these sessions write N/A.**

- a. Morning half-day session children
- b. Afternoon half-day session..... children
- c. Full-day program children

For the remainder of the questions, please think only of the class in which the observations are being conducted. You might want to have your class roster handy for this section.

16. How many students are enrolled in the class in which the observations are being conducted?

..... children

17. As of today, how many girls and boys are enrolled in this class?

- a. Number of girls
- b. Number of boys.....

18. Who is this a class primarily for?

- ☐ a. 3 & 4 year olds
- ☐ b. 4 year olds (and 5 year olds who will go to K next year)
- ☐ c. 4 year olds & kindergartners
- ☐ d. Other: **Specify:**

19. How many children enrolled in this class are each of the following ages?

- a. Will be eligible (based on age) for kindergarten in two years.....
- b. Will be eligible (based on age) for kindergarten next year
- c. Currently eligible (based on age) for kindergarten.....
- d. Were eligible last year (based on age) for kindergarten.....
- e. Other: **Specify:**

20. As of today, how many students enrolled in this class belong to each of the following racial-ethnic groups? Count each student only once. **Please write a number on each line. Enter "0" if none.**

___ a. Black/African American	___ e. Asian
___ b. Native American/ Alaska Native	___ f. Pacific Islander
___ c. White/Caucasian	___ g. Multiracial
___ d. Hispanic/Latino	___ h. Other: Specify:
	

Hint: The numbers in 20 a-h should add up to the number of children enrolled in your class (question 16).

21. How many students in this class are considered **Limited English Proficient** (LEP)? (*children with LEP are children whose native language is other than English and whose skills in listening, speaking, reading, or writing English are such that they have difficulty understanding school instructions in English*).

_____ students with Limited English Proficiency

22. Which languages are spoken by students in this class? **Check all that apply.**

☐ a. English ☐ b. Spanish ☐ c. Other Language(s) _____
please specify

23. Which languages do you or your assistant teacher speak **in the classroom**? **Check all that apply.**

☐ a. English ☐ b. Spanish ☐ c. Other Language(s) _____
please specify

24. How many students with special needs (with an active IEP) are enrolled in this class?

_____ students with active IEP

Your Classroom

For the following questions, please think **only of the class in which the observations are being conducted.**

25. What time does class begin for the students (do not count before school care)?_____ start time

26. What time does class end for the students (do not count after school care)?_____ end time

27. How many days per week does this class meet?_____ days/week

28. Which of the following is the **main** curriculum you use? **Check the one best box.**

☐ a. No curriculum	☐ g. Curiosity Corner
☐ b. High/Scope	☐ h. Scholastic curriculum
☐ c. Montessori	☐ i. High Reach
☐ d. Bank Street	☐ j. State-developed curriculum
☐ e. Creative Curriculum	☐ k. Locally-developed curriculum
☐ f. Creating Child Centered Classrooms – Step by Step	☐ l. Other: Specify: _____

29. Have you received training specific to this curriculum? ☐ Yes ☐ No

30. Do you receive ongoing support in the use of your curriculum? ☐ Yes ☐ No

Ideas About Children

31. Please circle the answer that indicates how strongly you agree with the following statements.

Please circle the appropriate number.

	Strongly Disagree	Mildly Disagree	Not Sure	Mildly Agree	Strongly Agree
a. Since parents lack special training in education, they should not question the teacher's teaching methods.	1	2	3	4	5
b. Children should be treated the same regardless of differences among them.	1	2	3	4	5
c. Children should always obey the teacher.	1	2	3	4	5
d. Preparing for the future is more important for a child than enjoying today.	1	2	3	4	5
e. Children will not do the right thing unless they must.	1	2	3	4	5
f. Children should be allowed to disagree with their parents if they feel their own ideas are better.	1	2	3	4	5
g. Children should be kept busy with work and study at home and at school.	1	2	3	4	5
h. The major goal of education is to put basic information into the minds of the children.	1	2	3	4	5
i. In order to be fair, a teacher must treat all children alike.	1	2	3	4	5
j. The most important thing to teach children is absolute obedience to whoever is in authority.	1	2	3	4	5
k. Children learn best by doing things themselves rather than listening to others.	1	2	3	4	5
l. Children must be carefully trained early in life or their natural impulses will make them unmanageable.	1	2	3	4	5
m. Children have a right to their own point of view and should be allowed to express it.	1	2	3	4	5
n. Children's learning results mainly from being presented basic information again and again.	1	2	3	4	5
o. Children like to teach other children.	1	2	3	4	5
p. The most important thing to teach children is absolute obedience to parents.	1	2	3	4	5

Schaefer & Edgerton (1985)

Transition Activities

32. The following activities relate to transitioning children into pre-kindergarten. For each activity, please indicate if you participated in the activity **with current pre-kindergarten children**. ***Check yes or no.***

Transition Activity	Participated in activity?	
a. Phone calls to children or families before school began	☐ Yes	☐ No
b. Visits by incoming pre-kindergartners to my class before school began	☐ Yes	☐ No
c. Visits to children or families at home by me or other pre-kindergarten staff	☐ Yes	☐ No
d. A spring orientation about pre-kindergarten for children	☐ Yes	☐ No
e. A spring orientation about pre-kindergarten for parents of pre-kindergartners	☐ Yes	☐ No
f. An individual meeting with parent(s) of pre-kindergartners before school began	☐ Yes	☐ No
g. An open house for parents and children before the school year began	☐ Yes	☐ No
h. An open house for parents and children after the school year began	☐ Yes	☐ No

Your Beliefs

33. These questions are designed to help us gain a better understanding of the kinds of things that create difficulties for teachers in their school activities. Please indicate your opinions about each of the statements below by circling the appropriate number. ***Please circle the appropriate number.***

	Nothing	Very Little	Some Influence	Quite a Bit	A Great Deal
a. How much can you do to get through to the most difficult students?	1	2	3	4	5
b. How much can you do to promote learning when there is a lack of support from home?	1	2	3	4	5
c. How much can you do to keep students on task on difficult assignments?	1	2	3	4	5
d. How much can you do to increase students' memory of what they have been taught in previous lessons?	1	2	3	4	5
e. How much can you do to motivate students who show low interest in schoolwork?	1	2	3	4	5
f. How much can you do to get students to work together?	1	2	3	4	5
g. How much can you do to overcome the influence of adverse community conditions on students' learning?	1	2	3	4	5
h. How much can you do to get children to follow classroom rules?	1	2	3	4	5
i. How much can you do to control disruptive behavior in the classroom?	1	2	3	4	5
j. How much can you do to prevent problem behavior on the school grounds?	1	2	3	4	5

Adapted from the Teacher Self-Efficacy Scale, Bandura, Stanford University, NCEDL Kindergarten Transition Project

Your Feelings

34. Below are listed ways that describe how you might have felt or behaved **during the past week**.
Please circle one response for each question indicating the way you felt or behaved.

	Most of the Time	Occasionally	A Little of Time	None of the Time
a. I was bothered by things that usually don't bother me.	1	2	3	4
b. I did not feel like eating; my appetite was poor.	1	2	3	4
c. I felt that I could not shake off the blues even with help from my family and friends.	1	2	3	4
d. I felt that I was just as good as other people.	1	2	3	4
e. I had trouble keeping my mind on what I was doing.	1	2	3	4
f. I felt depressed.	1	2	3	4
g. I felt that everything I did was an effort.	1	2	3	4
h. I felt hopeful about the future.	1	2	3	4
i. I thought that my life had been a failure.	1	2	3	4
j. I was fearful.	1	2	3	4
k. My sleep was restless.	1	2	3	4
l. I was happy.	1	2	3	4
m. I talked less than usual.	1	2	3	4
n. I felt lonely.	1	2	3	4
o. I felt that people were unfriendly.	1	2	3	4
p. I enjoyed life.	1	2	3	4
q. I had crying spells.	1	2	3	4
r. I felt sad.	1	2	3	4
s. I felt that people disliked me.	1	2	3	4
t. I could not get along.	1	2	3	4

This work is partially supported under the Educational Research and Development Center Program, PR/Award Number R307A60004, as administered by the Office of Educational Research and Improvement, U.S. Department of Education. However, the contents do not necessarily represent the positions or policies of the National Institute on Early Childhood Development and Education, the Office of Educational Research and Improvement, or the U.S. Department of Education, and endorsement by the Federal government should not be assumed.

This questionnaire is specifically about one of the children in your classroom. Please look at the sticky on the front cover to know which child. Please think only of that one child when responding to these questions. Throughout this questionnaire, we use the term “pre-k” to refer to the early childhood program in which you teach. We realize that this may be a preschool, a Head Start, or a child care center.

1. Today's date: ___ ___/___ ___/ 2001
 Month Day Year
2. What is this child's date of birth? ___ ___/ ___ ___/ 19 ___ ___
 Month Day Year
3. Is this child a: ☐ a. girl ☐ b. boy
4. Did this child attend this pre-k program last year? ☐ Yes ☐ No
5. How would you rate this child's health in general? ***Check only one.***
☐ a. poor ☐ b. fair ☐ c. good ☐ d. very good ☐ e. excellent

Teacher-Child Rating Scale

6. Please rate the following items according to how well they describe the child. ***Circle one number for each statement.***

	Not at All	A Little	Moderately Well	Well	Very Well
a. Accepts things not going his/her way	1	2	3	4	5
b. Defends own views under group pressure	1	2	3	4	5
c. Completes work	1	2	3	4	5
d. Has many friends	1	2	3	4	5
e. Ignores teasing	1	2	3	4	5
f. Comfortable as a leader	1	2	3	4	5
g. Well organized	1	2	3	4	5
h. Is friendly towards peers	1	2	3	4	5
i. Accepts imposed limits	1	2	3	4	5
j. Participates in class discussions	1	2	3	4	5
k. Functions well even with distractions	1	2	3	4	5
l. Makes friends easily	1	2	3	4	5
m. Copes well with failure	1	2	3	4	5
n. Expresses ideas willingly	1	2	3	4	5
o. Works well without adult support	1	2	3	4	5
p. Classmates wish to sit near this child	1	2	3	4	5
q. Tolerates frustration	1	2	3	4	5
r. Questions rules that seem unfair/unclear	1	2	3	4	5
s. A self starter	1	2	3	4	5
t. Well liked by classmates	1	2	3	4	5

7. Please rate this child on the following items according to how well they describe the child. **Circle one number for each statement.**

	Not a Problem	Mild	Moderate	Serious	Very Serious Problem
a. Disruptive in class	1	2	3	4	5
b. Withdrawn	1	2	3	4	5
c. Underachieving (not working to ability)	1	2	3	4	5
d. Fidgety, difficulty sitting still	1	2	3	4	5
e. Shy, timid	1	2	3	4	5
f. Poor work habits	1	2	3	4	5
g. Disturbs other while they are working	1	2	3	4	5
h. Anxious, worried	1	2	3	4	5
i. Poor concentration, limited attention span	1	2	3	4	5
j. Constantly seeks attention	1	2	3	4	5
k. Nervous, frightened, tense	1	2	3	4	5
l. Difficulty following directions	1	2	3	4	5
m. Overly aggressive to peers (fights)	1	2	3	4	5
n. Does not express feelings	1	2	3	4	5
o. Poorly motivated to achieve	1	2	3	4	5
p. Defiant, obstinate, stubborn	1	2	3	4	5
q. Unhappy, sad	1	2	3	4	5
r. Learning academic subjects	1	2	3	4	5

© Hightower et al. (1986)

8. Did you rate any of the items above (question 7) a 4 or a 5?

☐ a. Yes. If yes, **write the letters of the problem(s) that most concern you and answer questions 9-13 in regard to those problems:** _____

☐ b. No. If no, **skip to the next page** → → → → → → →

9. How does the child compare to classmates on these problems? **Circle your answer.**

better than many (1) about the same as most classmates (2) a little worse than most (3) much worse than most (4) the worst in the class (5)

10. Is the problem bad enough to block the child's progress at school? **Circle your answer.**

not at all (1) very little (2) to some extent (3) to a great extent (4) to a very great extent (5)

11. Across how many different classroom activities or settings (e.g. show and tell, quiet time, reading, group activity, play, snack, field trips, nap) does this/these problem occur. **Check only one.**

☐ a. limited to a single class activity, person, situation or setting	☐ c. occurs in all settings and activities at school
☐ b. limited to 2-3 class activities, persons, situations or settings	☐ d. occurs anywhere and everywhere (at home, school and in community)

12. Is this problem serious enough to refer the child to a doctor, psychologist, or learning specialist? **Circle your answer.**

no, not serious (1) somewhat serious (2) yes, pretty serious (3) yes, extremely serious (4) do not know enough to judge (dk)

13. To the best of your knowledge has this child been referred to or received services for the problems? **Check one.**

☐ a. services not necessary	☐ d. yes, referred but not receiving services
☐ b. child may benefit from, but has not been referred for services	☐ e. yes, has received or is receiving services
☐ c. yes, referred	☐ f. I do not know

Language and Literacy

The following scale gauges the language and literacy skills of young children. It is meant to cover the broad range of skills that children in pre-kindergarten and early elementary school might show. **We realize that not all of the skills listed are appropriate for all ages of young children.** However, we want you to rate them now, so we can see how this child's skills grow over time. Each question includes examples that are meant to help you think of the range of situations in which the child may demonstrate similar skills and behaviors. **The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.** Use the following scale to rate each child compared to other children of the same age level.

Not yet:	Child <u>has not yet</u> demonstrated skill, knowledge, or behavior.
Beginning:	Child is <u>just beginning</u> to demonstrate skill, knowledge, or behavior but does so very inconsistently.
In Progress:	Child demonstrates skill, knowledge, or behavior <u>with some regularity</u> but varies in level of competence.
Intermediate:	Child demonstrates skill, knowledge, or behavior <u>with increasing regularity and average competence</u> , but is not completely proficient.
Proficient:	Child demonstrates skill, knowledge, or behavior <u>competently and consistently</u> .
N/A:	Not applicable: Skill, knowledge, or behavior has <u>not been introduced</u> in classroom setting.

Note: For children with Limited English Proficiency, please answer the questions based on your knowledge of this child's skills. If the child does not yet demonstrate skills in English but does demonstrate them in his/her native language, please answer the questions with the child's native language in mind.

14. Will you be thinking about this child's skills in English or another language?

☐ a. English

☐ b. Spanish

☐ c. Other language

_____ please specify

15.	Rate the student's achievement in comparison to other students of the same grade level. The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
This child:							
a.	Uses complex sentence structures –for example, says "If she had brought her umbrella, she wouldn't have gotten wet," or "Yesterday it was raining cats and dogs," or "Why can't we go on the field trip at the same time as the first grade?"	1	2	3	4	5	N/A
b.	Understands and interprets a story or other text read to him/her – for example, retelling a story just read to the group, or telling about why a story ended as it did, or connecting part of the story to his/her own life.	1	2	3	4	5	N/A
c.	Easily and quickly names all upper- and lower-case letters of the alphabet.	1	2	3	4	5	N/A
d.	Produces rhyming words – for example, says a word that rhymes with "chip," "shop," "drink," – or "light."	1	2	3	4	5	N/A
e.	Predicts what will happen next in stories by using the pictures and storyline for clues.	1	2	3	4	5	N/A
f.	Reads simple books independently – for example, reads books with a repetitive language pattern.	1	2	3	4	5	N/A
g.	Demonstrates early writing behaviors –for example, by using initial consonants to spell words ("d" for the word "dog"), or using letter names to represent sounds ("r" for the word "are"), or phonetic spelling ("hrt" for the word "heart"), to convey words and ideas.	1	2	3	4	5	N/A
h.	Demonstrates an understanding of some of the conventions of print – for example, by using both upper and lower case letters when writing, or putting spaces between words, or using a period at the end of a sentence.	1	2	3	4	5	N/A
i.	Uses the computer for a variety of purposes – for example, by drawing a picture, or counting objects, or typing numbers, letters, or words.	1	2	3	4	5	N/A

1. Today's date: ____/____/20____
Month Day Year

Professional/Demographics

2. What is the highest level of education you have completed? **Check only one.**

☐ a. High school diploma or equivalent	☐ e. Master's degree
☐ b. Some college or an Associate's (no Bachelor's)	☐ f. Education specialist or professional diploma based on at least one year of course work beyond a Master's degree
☐ c. Bachelor's degree	☐ g. Doctoral degree (e.g., M.D., J.D., Ph.D.)
☐ d. At least one year of course work beyond a BA	☐ h. Other: Specify: _____

3. What was your major when you received your highest degree? **Please check one.**

☐ a. Early childhood education	☐ e. Child development
☐ b. Elementary education	☐ f. N/A (no degree)
☐ c. Special education	☐ g. Other: Specify: _____
☐ d. English as a second language (ESL)	_____

4. Do you have a Child Development Associate credential (CDA)? ☐ Yes ☐ No

5. Do you have a **certification from your state education agency** that qualifies you to teach....

a. ...children younger than 4 years old?	☐ Yes	☐ Yes, emergency or temporary	☐ No
b. ...4-year old children?	☐ Yes	☐ Yes, emergency or temporary	☐ No
c. ...Kindergarten?	☐ Yes	☐ Yes, emergency or temporary	☐ No
d. ...other early elementary grades?	☐ Yes	☐ Yes, emergency or temporary	☐ No
e. ...special education or work as an early interventionist?	☐ Yes	☐ Yes, emergency or temporary	☐ No
f. ...children with Limited English Proficiency (LEP) or teach English as a Second Language (ESL)?	☐ Yes	☐ Yes, emergency or temporary	☐ No
g. ...any other levels or special subjects? If yes, please specify: _____	☐ Yes	☐ Yes, emergency or temporary	☐ No

6. Do you have state-level certification for working with young children, other than a teaching certificate?

☐ Yes: **Specify:** _____
☐ No

7. List your years of experience working professionally with children at each of the following levels.
Enter 0 if no experience.

a. Prior to kindergarten entry _____ years
b. Kindergarten..... _____ years
c. Above kindergarten..... _____ years

8. In what year were you born? 19____

9. What is your gender? ☐ a. Female ☐ b. Male

10. Check **all** the categories that describe your race/ethnicity:

☐ a. Black/African-American	☐ i. Chinese
☐ b. Native American/Indian	☐ j. Filipino
☐ c. White/Caucasian	☐ k. Japanese
☐ d. Pacific Islander	☐ l. Korean
☐ e. Mexican American, Chicano	☐ m. Vietnamese
☐ f. Puerto Rican	☐ n. Asian Indian
☐ g. Cuban	☐ o. Other Asian
☐ h. Other Hispanic/Spanish/Latino/a	☐ p. Other: <i>Specify</i> : _____

11. What is your total annual salary (before taxes) as a teacher for the current year?

\$ _____ per year

(If you do not know your annual salary, what is your hourly wage? \$ _____ per hour)

12. How many months of the year does this salary cover? _____ months

13. How many hours per week are you paid to work (not including overtime)? hours per week

Your Students

14. As of today, how many students are enrolled in your class(es)? **Write a number in each space. If you do not teach one or more of these sessions write N/A.**

a. Morning half-day session children

b. Afternoon half-day session children

c. Full-day program children

For the remainder of the questions, please think only of the class in which the observations are being conducted. You might want to have your class roster handy for this section.

15. How many students are enrolled in the class in which the observations are being conducted?

..... children

16. As of today, how many girls and boys are enrolled in this class?

a. Number of girls

b. Number of boys

17. How many students with special needs (with an active IEP) are enrolled in this class?

_____ students with active IEP

18. If you suspect a child in your class has a learning or behavior problem, are professional resources available to assist you? ☐ Yes ☐ No

19. **IF YES**, Have you ever used these resources?

☐ Yes

☐ No

20. Is this class a?

☐ a. pre-kindergarten class

☐ b. kindergarten class

☐ c. pre-k and kindergarten combined class

☐ d. kindergarten – 1st grade combined class

☐ e. transitional or junior kindergarten (school year between pre-k and K)

☐ f. other: *Specify*: _____

21. As of today, how many students enrolled in this class belong to each of the following racial-ethnic groups?
Count each student only once. **Please write a number on each line. Enter "0" if none.**

___ a. Black/African American	___ e. Asian
___ b. Native American/ Alaska Native	___ f. Pacific Islander
___ c. White/Caucasian	___ g. Multiracial
___ d. Hispanic/Latino/a	___ h. Other: Specify: _____

Hint: The numbers in 21 a-h should add up to the number of children enrolled in your class (question 15).

22. How many students in this class are considered **Limited English Proficient (LEP)**? (*children with LEP are children whose native language is other than English and whose skills in listening, speaking, reading, or writing English are such that they have difficulty understanding school instructions in English*).

_____ students with Limited English Proficiency

23. Which languages are spoken by students in this class? **Check all that apply.**

☐ a. English ☐ b. Spanish ☐ c. Other Language(s) _____
please specify

24. Which languages do you or your assistant teacher speak **in the classroom**? **Check all that apply.**

☐ a. English ☐ b. Spanish ☐ c. Other Language(s) _____
please specify

Your Class

Once again, for the following questions, please think **only of the class in which the observations are being conducted.**

25. When did school start (first day of class) for the current group of children this fall? ____ / ____ / 2002

26. Is this class located in a: o a. public school
 o b. private, religious school: **Religion/denomination:** _____
 o c. private, non-religious school
 o d. other: **Specify:** _____

27. What time does class begin for the students (do not count before-school care)? _____ start time

28. What time does class end for the students (do not count after-school care)? _____ end time

29. How many days per week does this class meet? _____ days/week

30. Which of the following **language arts/literacy** curricula you use? **Check all that apply.**

☐ a. No language arts literacy curriculum	☐ i. Road to the Code
☐ b. Open Court	☐ j. Phonemic Awareness in Young Children
☐ c. Houghton Mifflin-Reading	☐ k. High/Scope
☐ d. SRA Reading Mastery (DISTAR)	☐ l. Creative Curriculum
☐ e. Kinder Roots	☐ m. State-developed curriculum Name: _____
☐ f. Zoophonics	☐ n. Locally-developed curriculum Name: _____
☐ g. The Letter People	☐ o. Other: Specify: _____
☐ h. Ladders to Literacy	

31. Have you received training specific to this language arts curriculum? ☐ Yes ☐ No

32. Do you receive on-going support in the use of your curriculum? ☐ Yes ☐ No

33. Do you use a **mathematics** curriculum? ☐ Yes **Specify:** _____ ☐ No

34. Do you use a **social skills** curriculum? ☐ Yes *Specify:* _____ ☐ No
35. Do you use a published curriculum for any other subject? ☐ Yes ☐ No
36. **IF YES:** curriculum name: _____ which subject? _____
37. Is there a student-teacher in this class? ☐ Yes ☐ No
38. **IF YES,** how many hours per week is the student-teacher in the class? _____ hours
39. How many hours per week is a paid assistant teacher or co-teacher typically in your classroom? **Write '0' if there is no assistant or co-teacher.** _____ hour/week

Ideas About Children

40. Please circle the answer that indicates how strongly you agree with the following statements.
Please circle the appropriate number.

	Strongly Disagree	Mildly Disagree	Not Sure	Mildly Agree	Strongly Agree
a. Since parents lack special training in education, they should not question the teacher's teaching methods.	1	2	3	4	5
b. Children should be treated the same regardless of differences among them.	1	2	3	4	5
c. Children should always obey the teacher.	1	2	3	4	5
d. Preparing for the future is more important for a child than enjoying today.	1	2	3	4	5
e. Children will not do the right thing unless they must.	1	2	3	4	5
f. Children should be allowed to disagree with their parents if they feel their own ideas are better.	1	2	3	4	5
g. Children should be kept busy with work and study at home and at school.	1	2	3	4	5
h. The major goal of education is to put basic information into the minds of the children.	1	2	3	4	5
i. In order to be fair, a teacher must treat all children alike.	1	2	3	4	5
j. The most important thing to teach children is absolute obedience to whoever is in authority.	1	2	3	4	5
k. Children learn best by doing things themselves rather than listening to others.	1	2	3	4	5
l. Children must be carefully trained early in life or their natural impulses will make them unmanageable.	1	2	3	4	5
m. Children have a right to their own point of view and should be allowed to express it.	1	2	3	4	5
n. Children's learning results mainly from being presented basic information again and again.	1	2	3	4	5
o. Children like to teach other children.	1	2	3	4	5
p. The most important thing to teach children is absolute obedience to parents.	1	2	3	4	5

Schaefer & Edgerton (1985)

Transition Activities

41. The following activities relate to transitioning children into kindergarten. For each activity, please indicate if you participated in the activity **with the current children in your class**. *Check yes or no.*

Transition Activity	Participated in activity?	
a. Phone calls to children or families before school began	☐ Yes	☐ No
b. Visits by incoming kindergartners to my class before school began	☐ Yes	☐ No
c. Visits to children or families at home by me or other kindergarten staff	☐ Yes	☐ No
d. A spring orientation about kindergarten for children	☐ Yes	☐ No
e. A spring orientation about kindergarten for parents of kindergartners	☐ Yes	☐ No
f. An individual meeting with parent(s) of kindergartners before school began	☐ Yes	☐ No
g. An open house for parents and children before the school year began	☐ Yes	☐ No
h. An open house for parents and children after the school year began	☐ Yes	☐ No

Your Beliefs

42. These questions are designed to help us gain a better understanding of the kinds of things that create difficulties for teachers in their school activities. Please indicate your opinions about each of the statements below by circling the appropriate number. *Please circle the appropriate number.*

	Nothing	Very Little	Some Influence	Quite a Bit	A Great Deal
a. How much can you do to get through to the most difficult students?	1	2	3	4	5
b. How much can you do to promote learning when there is a lack of support from home?	1	2	3	4	5
c. How much can you do to keep students on task on difficult assignments?	1	2	3	4	5
d. How much can you do to increase students' memory of what they have been taught in previous lessons?	1	2	3	4	5
e. How much can you do to motivate students who show low interest in schoolwork?	1	2	3	4	5
f. How much can you do to get students to work together?	1	2	3	4	5
g. How much can you do to overcome the influence of adverse community conditions on students' learning?	1	2	3	4	5
h. How much can you do to get children to follow classroom rules?	1	2	3	4	5
i. How much can you do to control disruptive behavior in the classroom?	1	2	3	4	5
j. How much can you do to prevent problem behavior on the school grounds?	1	2	3	4	5

Adapted from Bandura, Stanford University, NCEDL Kindergarten Transition Project

In the following items, please indicate on a scale from 1 (very unlikely) to 7 (very likely) the likelihood that you would respond in the ways listed for each item. Please read each item carefully and respond as honestly and sincerely as you can. For each response, please circle a number from 1-7.		1. Very unlikely				4. Medium			7. Very likely
43.	If a student becomes angry because he/she is unable to participate in a classroom social activity (such as a field trip), I would:								
a.	send him/her to a different room to cool off	1	2	3	4	5	6	7	
b.	get angry at the student	1	2	3	4	5	6	7	
c.	help the student think about other ways that he/she can participate (e.g. participate in a different activity)	1	2	3	4	5	6	7	
d.	tell the student not to make a big deal out of missing the activity	1	2	3	4	5	6	7	
e.	encourage the student to express his/her feelings of anger and frustration	1	2	3	4	5	6	7	
f.	soothe the student and do something fun with him/her to make him/her feel better about missing the activity	1	2	3	4	5	6	7	
44.	If a student loses some prized possession and reacts with tears, I would:								
a.	get upset with him/her for being so careless and then crying about it	1	2	3	4	5	6	7	
b.	tell the student that he/she is over-reacting	1	2	3	4	5	6	7	
c.	help the student think of places he/she hasn't looked yet	1	2	3	4	5	6	7	
d.	distract the student by talking about happy things	1	2	3	4	5	6	7	
e.	tell him/her it's ok to cry when you feel unhappy	1	2	3	4	5	6	7	
f.	tell him/her that's what happens when you're not careful								
45.	If a student is panicky and can't concentrate after talking with another student about something that was frightening to him/her, I would:								
a.	encourage the student to talk about what was frightening	1	2	3	4	5	6	7	
b.	get upset with him/her for being silly	1	2	3	4	5	6	7	
c.	tell the student that he/she is over-reacting	1	2	3	4	5	6	7	
d.	help the student think of something to do so that he/she can get to work (e.g., not think about it, focus on working)	1	2	3	4	5	6	7	
e.	tell him/her to get to work or he/she won't be allowed to talk with that friend in school	1	2	3	4	5	6	7	
f.	do something fun with the student to help him/her forget about what scared him/her	1	2	3	4	5	6	7	
46.	If a student is at recess and appears on the verge of tears because the other children are mean to him/her and won't let him/her play with them, I would:								
a.	NOT get upset myself	1	2	3	4	5	6	7	
b.	tell the student that if he/she starts crying then he/she will have to sit out	1	2	3	4	5	6	7	
c.	tell the student it's ok to cry when he/she feels bad	1	2	3	4	5	6	7	
d.	comfort the student and try to get him/her to think about something happy	1	2	3	4	5	6	7	
e.	help the student to think of something else to do	1	2	3	4	5	6	7	
f.	tell the student that he/she will feel better soon	1	2	3	4	5	6	7	

In the following items, please indicate on a scale from 1 (very unlikely) to 7 (very likely) the likelihood that you would respond in the ways listed for each item. Please read each item carefully and respond as honestly and sincerely as you can. For each response, please circle a number from 1-7.							1. Very unlikely	4. Medium	7. Very likely
47. If a student is playing with other children and one of them calls him/her names, and the student then begins to tremble and become tearful, I would:									
a.	tell the student not to make a big deal out of it	1	2	3	4	5	6	7	
b.	feel upset myself	1	2	3	4	5	6	7	
c.	tell the student to behave or he/she will have to leave the game	1	2	3	4	5	6	7	
d.	help the student think of constructive things to do when other children tease him/her (e.g., find other things to do)	1	2	3	4	5	6	7	
e.	comfort him/her and play a game to take his/her mind off the upsetting event	1	2	3	4	5	6	7	
f.	encourage him/her to talk about how it hurts to be teased	1	2	3	4	5	6	7	

Adapted from the CCNES (Fabes, Eisenberg, Bernzweig; 1990)

Your Feelings

48. Below are listed ways that describe how you might have felt or behaved during the past week. *Please circle one response for each question indicating the way you felt or behaved.*

	Most of the Time	Occasionally	A Little of the Time	None of the Time
a. I was bothered by things that usually don't bother me.	1	2	3	4
b. I did not feel like eating; my appetite was poor.	1	2	3	4
c. I felt that I could not shake off the blues even with help from my family and friends.	1	2	3	4
d. I felt that I was just as good as other people.	1	2	3	4
e. I had trouble keeping my mind on what I was doing.	1	2	3	4
f. I felt depressed.	1	2	3	4
g. I felt that everything I did was an effort.	1	2	3	4
h. I felt hopeful about the future.	1	2	3	4
i. I thought that my life had been a failure.	1	2	3	4
j. I was fearful.	1	2	3	4
k. My sleep was restless.	1	2	3	4
l. I was happy.	1	2	3	4
m. I talked less than usual.	1	2	3	4
n. I felt lonely.	1	2	3	4
o. I felt that people were unfriendly.	1	2	3	4
p. I enjoyed life.	1	2	3	4
q. I had crying spells.	1	2	3	4
r. I felt sad.	1	2	3	4
s. I felt that people disliked me.	1	2	3	4
t. I could not get along.	1	2	3	4

Multi-State Study of Pre-Kindergarten Kindergarten Phase

Teacher Questionnaire about Study Child Fall of 2002

A project of
University of North Carolina at Chapel Hill
University of Virginia
University of California at Los Angeles

Funded by
Office of Educational Research and Improvement
U.S. Department of Education

If you have questions,
please call toll free: (866) 828-0269 or
e-mail diane_early@unc.edu

This work is partially supported under the Educational Research and Development Center Program, PR/Award Number R307A60004, as administered by the Office of Educational Research and Improvement, U.S. Department of Education. However, the contents do not necessarily represent the positions or policies of the National Institute on Early Childhood Development and Education, the Office of Educational Research and Improvement, or the U.S. Department of Education, and endorsement by the Federal government should not be assumed.

This questionnaire is specifically about one of the children in your classroom. Please look at the sticky on the front cover to know which child. Please think only of that one child when responding to these questions.

1. Today's date: _____ / _____ / 20____
Month Day Year
2. What is this child's date of birth? _____ / _____ / 19____
Month Day Year
3. Is this child a: ☐ a. girl ☐ b. boy
4. Is this child a: ☐ a. pre-kindergartner
☐ b. kindergartner
☐ c. Other: *Specify:* _____
5. ***If this child is in pre-kindergarten:*** why didn't she/he start kindergarten this year?
☐ a. not old enough (kindergarten cut-off date is after child's birthday)
☐ b. school/teacher suggested that the child be kept in pre-k, parents agreed
☐ c. school/teacher decided to keep child in pre-k, parents disagreed
☐ d. parents requested keeping child in pre-k
☐ e. other: *Specify:* _____
6. Did this child attend pre-kindergarten at this school/center last year? ☐ Yes ☐ No
7. How would you rate this child's health in general? ***Check only one.***
☐ a. poor ☐ b. fair ☐ c. good ☐ d. very good ☐ e. excellent

Teacher-Child Rating Scale

8. Please rate the following items according to how well they describe the child.

Circle one number for each statement.

	Not at All	A Little	Moderately Well	Well	Very Well
a. Accepts things not going his/her way	1	2	3	4	5
b. Defends own views under group pressure	1	2	3	4	5
c. Completes work	1	2	3	4	5
d. Has many friends	1	2	3	4	5
e. Ignores teasing	1	2	3	4	5
f. Comfortable as a leader	1	2	3	4	5
g. Well organized	1	2	3	4	5
h. Is friendly towards peers	1	2	3	4	5
i. Accepts imposed limits	1	2	3	4	5
j. Participates in class discussions	1	2	3	4	5
k. Functions well even with distractions	1	2	3	4	5
l. Makes friends easily	1	2	3	4	5
m. Copes well with failure	1	2	3	4	5
n. Expresses ideas willingly	1	2	3	4	5
o. Works well without adult support	1	2	3	4	5
p. Classmates wish to sit near this child	1	2	3	4	5
q. Tolerates frustration	1	2	3	4	5
r. Questions rules that seem unfair/unclear	1	2	3	4	5
s. A self starter	1	2	3	4	5
t. Well liked by classmates	1	2	3	4	5

© Hightower et al. (1986)

9. Please rate this child on the following items according to how well they describe the child.
Circle one number for each statement.

	Not a Problem	Mild	Moderate	Serious	Very Serious Problem
a. Disruptive in class	1	2	3	4	5
b. Withdrawn	1	2	3	4	5
c. Underachieving (not working to ability)	1	2	3	4	5
d. Fidgety, difficulty sitting still	1	2	3	4	5
e. Shy, timid	1	2	3	4	5
f. Poor work habits	1	2	3	4	5
g. Disturbs others while they are working	1	2	3	4	5
h. Anxious, worried	1	2	3	4	5
i. Poor concentration, limited attention span	1	2	3	4	5
j. Constantly seeks attention	1	2	3	4	5
k. Nervous, frightened, tense	1	2	3	4	5
l. Difficulty following directions	1	2	3	4	5
m. Overly aggressive to peers (fights)	1	2	3	4	5
n. Does not express feelings	1	2	3	4	5
o. Poorly motivated to achieve	1	2	3	4	5
p. Defiant, obstinate, stubborn	1	2	3	4	5
q. Unhappy, sad	1	2	3	4	5
r. Learning academic subjects	1	2	3	4	5

© Hightower et al. (1986)

10. Did you rate any of the items on the previous page (question 9) a 4 or a 5?

☐ a. Yes. If yes, **write the letters of the problem(s) that most concern you and answer questions 11-15 in regard to those problems:** _____

☐ b. No. If no, **skip to the next page** ➔ ➔ ➔ ➔ ➔ ➔

11. How does the child compare to classmates on this/these problem(s)? **Circle your answer.**

better than many 1	about the same as most classmates 2	a little worse than most 3	much worse than most 4	the worst in the class 5
--------------------------	---	----------------------------------	------------------------------	--------------------------------

12. Is/are the problem(s) bad enough to block the child's progress at school? **Circle your answer.**

not at all 1	very little 2	to some extent 3	to a great extent 4	to a very great extent 5
-----------------	------------------	------------------------	---------------------------	--------------------------------

13. Across how many different classroom activities or settings (e.g., show and tell, quiet time, reading, group activity, play, snack, field trips, nap) does this/these problem(s) occur?

Check only one.

☐ a. limited to a single class activity, person, situation or setting	☐ c. occurs in all settings and activities at school
☐ b. limited to 2-3 class activities, persons, situations or settings	☐ d. occurs anywhere and everywhere (at home, school and in community)

14. Is/are this problem(s) serious enough to refer the child to a doctor, psychologist, or learning specialist? **Circle your answer.**

no, not serious 1	somewhat serious 2	yes, pretty serious 3	yes, extremely serious 4	do not know enough to judge 5
-------------------------	--------------------------	-----------------------------	--------------------------------	-------------------------------------

15. To the best of your knowledge has this child been referred to or received services for the problem(s)? **Check one.**

☐ a. services not necessary	☐ d. yes, referred but not receiving services
☐ b. child may benefit from, but has not been referred for services	☐ e. yes, has received or is receiving services
☐ c. yes, referred	☐ f. I do not know

Special Services

16. Has this child ever been referred for evaluation for an Individualized Education Plan (IEP)?
☐ yes ☐ no

17. Does this child have an Individualized Education Plan (IEP) to receive special services for a disability?
☐ yes ☐ no
go to 18 **go to 20**

IF YES on question 17 (child has an IEP):

18. When did this child first receive this IEP ____ / ____
Month Year

19. What type of disability is described on this child's IEP? ***Check all that apply.***

☐ a. speech	☐ d. social/emotional
☐ b. physical/sensory	☐ e. other: <i>Specify:</i> _____
☐ c. cognitive/language	_____

IF NO on question 17 (child does not have an IEP):

20. By the end of the year do you think you will recommend this child be evaluated for an Individualized Education Plan (IEP)?
☐ yes ☐ no ☐ too early to judge

Academic Rating Scale

The scales on the next pages gauge the academic skills of young children. They are meant to cover the broad range of skills that children in kindergarten and early elementary school might show. **We realize that not all of the skills listed are appropriate for all ages of young children.** However, we want you to rate them now, so we can see how this child's skills grow over time. Each question includes examples that are meant to help you think of the range of situations in which the child may demonstrate similar skills and behaviors. **The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.** Use the following scale to rate each child compared to other children of the same age level.

Not yet:	Child <u>has not yet</u> demonstrated skill, knowledge, or behavior.
Beginning:	Child is <u>just beginning</u> to demonstrate skill, knowledge, or behavior but does so very inconsistently.
In Progress:	Child demonstrates skill, knowledge, or behavior <u>with some regularity</u> but varies in level of competence.
Intermediate:	Child demonstrates skill, knowledge, or behavior <u>with increasing regularity and average competence</u> , but is not completely proficient.
Proficient:	Child demonstrates skill, knowledge, or behavior <u>competently and consistently</u> .
N/A:	Not applicable: Skill, knowledge, or behavior has <u>not been introduced</u> in classroom setting.

Note: For children with Limited English Proficiency, please answer the questions based on your knowledge of this child's skills. If the child does not yet demonstrate skills in English but does demonstrate them in his/her native language, please answer the questions with the child's native language in mind.

21. Will you be thinking about this child's skills in English or another language?

☐ a. English

☐ b. Spanish

☐ c. Other language

_____ please specify

Language and Literacy

22. Rate the student's achievement in comparison to other students of the same grade level. The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
a. Uses complex sentence structures – for example, says "If she had brought her umbrella, she wouldn't have gotten wet," or "Yesterday it was raining cats and dogs," or "Why can't we go on the field trip at the same time as the first grade?"	1	2	3	4	5	N/A
b. Understands and interprets a story or other text read to him/her – for example, retelling a story just read to the group, or telling about why a story ended as it did, or connecting part of the story to his/her own life.	1	2	3	4	5	N/A
c. Easily and quickly names all upper- and lower-case letters of the alphabet.	1	2	3	4	5	N/A
d. Produces rhyming words – for example, says a word that rhymes with "chip," "shop," "drink," – or "light."	1	2	3	4	5	N/A
e. Predicts what will happen next in stories by using the pictures and storyline for clues.	1	2	3	4	5	N/A
f. Reads simple books independently – for example, reads books with a repetitive language pattern.	1	2	3	4	5	N/A

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
g. Demonstrates early writing behaviors –for example, by using initial consonants to spell words ("d" for the word "dog"), or using letter names to represent sounds ("r" for the word "are"), or phonetic spelling ("hrt" for the word "heart"), to convey words and ideas.	1	2	3	4	5	N/A
h. Demonstrates an understanding of some of the conventions of print – for example, by using both upper and lower case letters when writing, or putting spaces between words, or using a period at the end of a sentence.	1	2	3	4	5	N/A
i. Uses the computer for a variety of purposes – for example, by drawing a picture, or counting objects, or typing numbers, letters, or words.	1	2	3	4	5	N/A

Mathematical Thinking

23. **Rate the student's achievement in comparison to other students of the same grade level.** The examples do not exhaust all the ways that a child may demonstrate what s/he knows or can do.

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
a. Sorts, classifies, and compares math materials by various rules and attributes – for example creating a rule for sorting keys, such as "keys with numbers" in one pile and "keys without numbers" in another pile, or sorting shapes by several attributes such as "large plastic shapes" and "small wooden shapes."	1	2	3	4	5	N/A
b. Orders a group of objects – for example, by ordering rods or sticks by length, or arranging paints from lightest to darkest, or musical instruments from softest to loudest.	1	2	3	4	5	N/A
c. Shows an understanding of the relationship between quantities – for example, knowing that a group of ten small stones is the same quantity as a group of ten larger blocks.	1	2	3	4	5	N/A
d. Solves problems involving numbers using concrete objects – for example "Vera has six blocks, George has three, how many blocks are there in all?" or "How many do I need to give George so he will have the same number of blocks as Vera?"	1	2	3	4	5	N/A
e. Demonstrates an understanding of graphing activities – for example, by adding a cube or coloring on a graph of "How we get to school" using yellow for "riding the bus," white for "riding in a car," and blue for "walking."	1	2	3	4	5	N/A
f. Uses instruments accurately for measuring – for example, by using a balance scale to compare the weight of two objects, or using tablespoons and teaspoons during a cooking project, or using a measuring tape to measure the length of different objects.	1	2	3	4	5	N/A
g. Uses a variety of strategies to solve math problems – for example, using manipulative materials, looking for a pattern, or acting out a problem.	1	2	3	4	5	N/A

Multi-State Study of Pre-Kindergarten

Teacher Questionnaire
Spring of Pre-Kindergarten

A project of
University of North Carolina at Chapel Hill
University of Virginia
University of California at Los Angeles

Funded by
Office of Educational Research and Improvement
U.S. Department of Education

If you have questions,
please call toll free: (866) 828-0269 or
e-mail: diane_early@unc.edu

Throughout this questionnaire, we use the term “pre-kindergarten” to refer to the early childhood program in which you teach. We realize that this may be a preschool, a Head Start, or a child care center.

Your Class

Please think only of the class in which the observations are being conducted.

1. How many students are currently enrolled in this class? _____ children currently enrolled
2. During this school year, approximately how many children were **transferred into or joined** this class **AFTER** the first two weeks of school? _____ children joined this class
3. During this school year, approximately how many children **left** this class **AFTER** the first two weeks of school? _____ children left this class
4. How many students with special needs (with an active IEP) are enrolled in this class? _____ students w/active IEP
5. If you suspect a child in your class has a learning or behavior problem, are professional resources available to assist you? ☐ Yes ☐ No
6. **IF YES:** Have you ever used these resources? ☐ Yes ☐ No
7. When did school start (first day of class) for the current group of children, last fall? ____/____/2001
Month Day Year
8. What is the last day of school for this group of children, this spring? ____/____/2002
Month Day Year
9. Is your classroom located in a public school building? ☐ Yes ☐ No
10. Is your class part of a Head Start program? ☐ Yes ☐ No
11. Of the hours you are **paid to work**, how many hours per week of **paid planning time** do you have?
Circle the one best response
a. 0 b. 2 or less c. 3 - 4 d. 5 - 6 e. 7 - 9 f. 10 or more
12. How many **unpaid** hours **per week** do you spend planning for your class? **Circle only one response.**
a. 0 b. 2 or less c. 3 - 4 d. 5 - 6 e. 7 - 9 f. 10 or more
13. What assessments do you use with pre-kindergartners to help guide instruction?

a. Work Sampling System (Meisel's)	☐ Yes	☐ No
b. High/Scope Child Observation System (COR)	☐ Yes	☐ No
c. State-developed assessment	☐ Yes	☐ No
d. District-developed assessment	☐ Yes	☐ No
e. School-developed assessment	☐ Yes	☐ No
f. Teacher-developed assessment	☐ Yes	☐ No
g. Other: Specify: _____	☐ Yes	☐ No

14. Which of these statements best describes what you do in your class about assessing individual children's skill or progress? **Check one.**
 - ☐ a. Each child is assessed according to a written system that records each child's progress on a chart, grid, or series of scales.
 - ☐ b. There is no written charting system but each child is observed during regular classroom activities and notes are kept.
 - ☐ c. No systematic assessments are done.

15. Where did you receive your specialized training in early childhood education? **Check all that apply.**

☐ a. No training	☐ e. Courses in high school
☐ b. In-service workshops in my center	☐ f. Courses at community college or vocational school
☐ c. Workshops in the community	☐ g. Courses for credit at a four year college or university
☐ d. Workshops at professional meetings	☐ h. Other: Specify: _____

Working with Parents

16. Are **parents allowed in the classroom** during the day, after they have dropped off their children?

Circle one.

not allowed during
the day
1

only at specific
times
2

only with advance
notice
3

at any time
4

17. During this past school year, **how often** did you generally have **parent volunteers** in your classroom activities?

Circle one.

every day
1

once or several
times a week
2

once or twice
a month
3

a few
times a year
4

never
5

18. What is the **minimum number of individual meetings** you schedule with **parents of each child** during the school year to discuss their child's individual needs and progress? **Write 0 if none.**

_____ meetings/year

19. **How many times** during the year do you **send reports** to parents? **Write 0 if none.** _____ reports/year

Assistant or Co-Teacher

20. How many hours per week is a paid assistant teacher or co-teacher typically in your classroom? **Write '0' if there is no assistant or co-teacher.** _____ hour/week

21. What is the highest level of education your assistant or co-teacher has completed? **Check only one. If you have multiple assistants or co-teachers, please answer for the person who spends the largest number of hours in your classroom.**

☐ a. Eighth grade or less	☐ g. Bachelor's degree
☐ b. Some high school but no diploma	☐ h. At least one year of course work beyond a BA
☐ c. High school diploma or equivalent	☐ i. Master's degree
☐ d. High school diploma or equivalent, plus technical training or certificate	☐ j. Education specialist or professional diploma based on at least one year of course work beyond a Master's degree
☐ e. Some college but no degree	☐ k. Doctoral degree (e.g., M.D., J.D., Ph.D.)
☐ f. AA, AS, two-year degree	☐ l. Other: Specify: _____

22. Does your assistant or co-teacher have a Child Development Associate credential (CDA)? ☐ Yes ☐ No

Transition Activities

23. The following activities relate to preparing children for the transition to kindergarten. For each activity, please indicate if you plan to participate in the activity this school year with current pre-kindergarten children.

Transition Activity	Will participate in activity?	
a. Pre-kindergarten children in my class will visit a kindergarten classroom.	☐ Yes	☐ No
b. I will visit a kindergarten classroom.	☐ Yes	☐ No
c. A kindergarten teacher will visit my pre-kindergarten classroom.	☐ Yes	☐ No
d. There will be a spring orientation about kindergarten for pre-kindergarten children.	☐ Yes	☐ No
e. There will be a spring orientation about kindergarten for parents of pre-kindergarten children.	☐ Yes	☐ No
f. There will be a school/center-wide activity in which pre-kindergarten children are involved (assemblies, spring programs...)	☐ Yes	☐ No
g. We will hold individual meetings with parent(s) of pre-kindergarten children about kindergarten issues.	☐ Yes	☐ No
h. We will share written records of children's pre-kindergarten experience and status with elementary school personnel.	☐ Yes	☐ No
i. We will have contact with kindergarten teacher(s) about curriculum or specific children	☐ Yes	☐ No

Your Feelings

24. Below are listed ways that describe how you might have felt or behaved during the past week. *Please circle one response for each question indicating the way you felt or behaved.*

	Most of the Time	Occasionally	A Little of Time	None of the Time
a. I was bothered by things that usually don't bother me.	1	2	3	4
b. I did not feel like eating; my appetite was poor.	1	2	3	4
c. I felt that I could not shake off the blues even with help from my family and friends.	1	2	3	4
d. I felt that I was just as good as other people.	1	2	3	4
e. I had trouble keeping my mind on what I was doing.	1	2	3	4
f. I felt depressed.	1	2	3	4
g. I felt that everything I did was an effort.	1	2	3	4
h. I felt hopeful about the future.	1	2	3	4
i. I thought that my life had been a failure.	1	2	3	4
j. I was fearful.	1	2	3	4
k. My sleep was restless.	1	2	3	4
l. I was happy.	1	2	3	4
m. I talked less than usual.	1	2	3	4
n. I felt lonely.	1	2	3	4
o. I felt that people were unfriendly.	1	2	3	4
p. I enjoyed life.	1	2	3	4
q. I had crying spells.	1	2	3	4
r. I felt sad.	1	2	3	4
s. I felt that people disliked me.	1	2	3	4
t. I could not get along.	1	2	3	4

Radloff, L.S. (1977).

25. What ages of children attend this **school/center** (think of all the children at this school/center, not just your classroom). **Check all that apply.**

- ☐ a. Infants/Toddlers
 ☐ b. Two-year olds
 ☐ c. Preschoolers (3-4)
 ☐ d. Kindergartners
☐ e. 1st graders
 ☐ f. 2nd graders
 ☐ g. 3rd-5th graders
 ☐ h. 6th-8th graders
☐ i. 9th-12th graders

26. Today's date: ____/____/2002
 Month Day Year

Thank you for your time!

Teacher Questionnaire about
Study Child
Spring of Pre-Kindergarten

A project of
University of North Carolina at Chapel Hill
University of Virginia
University of California at Los Angeles

Funded by
Office of Educational Research and Improvement
U.S. Department of Education

If you have questions,
please call toll free: (866) 828-0269 or
e-mail: diane_early@unc.edu

This questionnaire is specifically about one of the children in your classroom. Please look at the sticky on the front cover to know which child. Please think only of that one child when responding to these questions.

Throughout this questionnaire, we use the term “pre-k” to refer to the early childhood program in which you teach. We realize that this may be a preschool, a Head Start, or a child care center.

1. What is this child’s date of birth? _____ / _____ / 19_____
Month Day Year
2. Is this child a: ☐ a. girl ☐ b. boy
3. How would you rate this child’s health in general? **Check only one.**
☐ a. poor ☐ b. fair ☐ c. good ☐ d. very good ☐ e. excellent

Teacher-Child Rating Scale

4. Please rate the following items according to how well they describe the child. **Circle one number for each statement.**

	Not at All	A Little	Moderately Well	Well	Very Well
a. Accepts things not going his/her way	1	2	3	4	5
b. Defends own views under group pressure	1	2	3	4	5
c. Completes work	1	2	3	4	5
d. Has many friends	1	2	3	4	5
e. Ignores teasing	1	2	3	4	5
f. Comfortable as a leader	1	2	3	4	5
g. Well organized	1	2	3	4	5
h. Is friendly towards peers	1	2	3	4	5
i. Accepts imposed limits	1	2	3	4	5
j. Participates in class discussions	1	2	3	4	5
k. Functions well even with distractions	1	2	3	4	5
l. Makes friends easily	1	2	3	4	5
m. Copes well with failure	1	2	3	4	5
n. Expresses ideas willingly	1	2	3	4	5
o. Works well without adult support	1	2	3	4	5
p. Classmates wish to sit near this child	1	2	3	4	5
q. Tolerates frustration	1	2	3	4	5
r. Questions rules that seem unfair/unclear	1	2	3	4	5
s. A self starter	1	2	3	4	5
t. Well liked by classmates	1	2	3	4	5

© Hightower et al. (1986)

5. Please rate this child on the following items according to how well they describe the child. **Circle one number for each statement.**

	Not a Problem	Mild	Moderate	Serious	Very Serious Problem
a. Disruptive in class	1	2	3	4	5
b. Withdrawn	1	2	3	4	5
c. Underachieving (not working to ability)	1	2	3	4	5
d. Fidgety, difficulty sitting still	1	2	3	4	5
e. Shy, timid	1	2	3	4	5
f. Poor work habits	1	2	3	4	5
g. Disturbs other while they are working	1	2	3	4	5
h. Anxious, worried	1	2	3	4	5
i. Poor concentration, limited attention span	1	2	3	4	5
j. Constantly seeks attention	1	2	3	4	5
k. Nervous, frightened, tense	1	2	3	4	5
l. Difficulty following directions	1	2	3	4	5
m. Overly aggressive to peers (fights)	1	2	3	4	5
n. Does not express feelings	1	2	3	4	5
o. Poorly motivated to achieve	1	2	3	4	5
p. Defiant, obstinate, stubborn	1	2	3	4	5
q. Unhappy, sad	1	2	3	4	5
r. Learning academic subjects	1	2	3	4	5

© Hightower et al. (1986)

6. Did you rate any of the items above (question 5) a 4 or a 5?

☐ a. Yes. If yes, **write the letters of the problem(s) that most concern you and answer questions 7-12 in regard to those problems:** _____

☐ b. No. If no, **skip to the next page** → → → → → → →

7. How long ago did you notice this/these problem(s)? _____ months ago

8. How does the child compare to classmates on this/these problem(s)? **Circle your answer.**

better than many (1) about the same as most classmates (2) a little worse than most (3) much worse than most (4) the worst in the class (5)

9. Is the problem(s) bad enough to block the child's progress at school? **Circle your answer.**

not at all (1) very little (2) to some extent (3) to a great extent (4) to a very great extent (5)

10. Across how many different classroom activities or settings (e.g. show and tell, quiet time, reading, group activity, play, snack, field trips, nap) does this/these problem(s) occur. **Check only one.**

☐ a. limited to a single class activity, person, situation or setting	☐ c. occurs in all settings and activities at school
☐ b. limited to 2-3 class activities, persons, situations or settings	☐ d. occurs anywhere and everywhere (at home, school and in community)

11. Is this problem serious enough to refer the child to a doctor, psychologist, or learning specialist? **Circle your answer.**

no, not serious (1) somewhat serious (2) yes, pretty serious (3) yes, extremely serious (4) do not know enough to judge (dk)

12. To the best of your knowledge has this child been referred to or received services for the problems? **Check one.**

☐ a. services not necessary	☐ d. yes, referred but not receiving services
☐ b. child may benefit from, but has not been referred for services	☐ e. yes, has received or is receiving services
☐ c. yes, referred	☐ f. I do not know

Special Services

13. Has this child ever been referred for evaluation for an Individualized Education Plan (IEP)? ☐ yes ☐ no

14. Does this child have an Individualized Education Plan (IEP) to receive special services for a disability? ☐ yes ☐ no

IF YES on question 14:

15. When did this child first receive this IEP _____ / _____
Month Year

16. What type of disability is described on this child's IEP? **Check all that apply.**

☐ a. speech	☐ d. social/emotional
☐ b. physical/sensory	☐ e. other: <i>Specify:</i> _____
☐ c. cognitive/language	_____

IF NO on question 14 (child does not have an IEP):

17. By the end of the year do you think you will recommend this child be evaluated for an Individualized Education Plan (IEP)? ☐ yes ☐ no

18. Do you think you will recommend this child be evaluated for an IEP when s/he begins kindergarten? ☐ yes ☐ no

Academic Rating Scale

The following scales on the next pages gauge the academic skills of young children. They are meant to cover the broad range of skills that children in pre-kindergarten and early elementary school might show. **We realize that not all of the skills listed are appropriate for all ages of young children.** However, we want you to rate them now, so we can see how this child's skills grow over time. Each question includes examples that are meant to help you think of the range of situations in which the child may demonstrate similar skills and behaviors. **The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.** Use the following scale to rate each child compared to other children of the same age level.

Not yet:	Child <u>has not yet</u> demonstrated skill, knowledge, or behavior.
Beginning:	Child is <u>just beginning</u> to demonstrate skill, knowledge, or behavior but does so very inconsistently.
In Progress:	Child demonstrates skill, knowledge, or behavior <u>with some regularity</u> but varies in level of competence.
Intermediate:	Child demonstrates skill, knowledge, or behavior <u>with increasing regularity and average competence</u> , but is not completely proficient.
Proficient:	Child demonstrates skill, knowledge, or behavior <u>competently and consistently</u> .
N/A:	Not applicable: Skill, knowledge, or behavior has <u>not been introduced</u> in classroom setting.

Note: For children with Limited English Proficiency, please answer the questions based on your knowledge of this child's skills. If the child does not yet demonstrate skills in English but does demonstrate them in his/her native language, please answer the questions with the child's native language in mind.

19. Will you be thinking about this child's skills in English or another language?

☐ a. English ☐ b. Spanish ☐ c. Other language _____
please specify

Language and Literacy

20. **Rate the student's achievement in comparison to other students of the same grade level.** The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
a. Uses complex sentence structures – for example, says "If she had brought her umbrella, she wouldn't have gotten wet," or "Yesterday it was raining cats and dogs," or "Why can't we go on the field trip at the same time as the first grade?"	1	2	3	4	5	N/A
b. Understands and interprets a story or other text read to him/her – for example, retelling a story just read to the group, or telling about why a story ended as it did, or connecting part of the story to his/her own life.	1	2	3	4	5	N/A
c. Easily and quickly names all upper- and lower-case letters of the alphabet.	1	2	3	4	5	N/A
d. Produces rhyming words – for example, says a word that rhymes with "chip," "shop," "drink," – or "light."	1	2	3	4	5	N/A
e. Predicts what will happen next in stories by using the pictures and storyline for clues.	1	2	3	4	5	N/A
f. Reads simple books independently – for example, reads books with a repetitive language pattern.	1	2	3	4	5	N/A
g. Demonstrates early writing behaviors –for example, by using initial consonants to spell words ("d" for the word "dog"), or using letter names to represent sounds ("r" for the word "are"), or phonetic spelling ("hrt" for the word "heart"), to convey words and ideas.	1	2	3	4	5	N/A
h. Demonstrates an understanding of some of the conventions of print – for example, by using both upper and lower case letters when writing, or putting spaces between words, or using a period at the end of a sentence.	1	2	3	4	5	N/A
i. Uses the computer for a variety of purposes – for example, by drawing a picture, or counting objects, or typing numbers, letters, or words.	1	2	3	4	5	N/A

Source: U. S. Department of Education, National Center for Education Statistics, Early Childhood Longitudinal Study - Kindergarten (1999).

Mathematical Thinking

21. **Rate the student's achievement in comparison to other students of the same grade level. The examples do not exhaust all the ways that a child may demonstrate what s/he knows or can do.**

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
a. Sorts, classifies, and compares math materials by various rules and attributes – for example creating a rule for sorting keys, such as "keys with numbers" in one pile and "keys without numbers" in another pile, or sorting shapes by several attributes such as "large plastic shapes" and "small wooden shapes."	1	2	3	4	5	N/A
b. Orders a group of objects – for example, by ordering rods or sticks by length, or arranging paints from lightest to darkest, or musical instruments from softest to loudest.	1	2	3	4	5	N/A
c. Shows an understanding of the relationship between quantities – for example, knowing that a group of ten small stones is the same quantity as a group of ten larger blocks.	1	2	3	4	5	N/A

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
d. Solves problems involving numbers using concrete objects – for example "Vera has six blocks, George has three, how many blocks are there in all?" or "How many do I need to give George so he will have the same number of blocks as Vera?"	1	2	3	4	5	N/A
e. Demonstrates an understanding of graphing activities – for example, by adding a cube or coloring on a graph of "How we get to school" using yellow for "riding the bus," white for "riding in a car," and blue for "walking."	1	2	3	4	5	N/A
f. Uses instruments accurately for measuring – for example, by using a balance scale to compare the weight of two objects, or using tablespoons and teaspoons during a cooking project, or using a measuring tape to measure the length of different objects.	1	2	3	4	5	N/A
g. Uses a variety of strategies to solve math problems – for example, using manipulative materials, looking for a pattern, or acting out a problem.	1	2	3	4	5	N/A

Source: U. S. Department of Education, National Center for Education Statistics, Early Childhood Longitudinal Study - Kindergarten (1999).

Student-Teacher Relationships

22. Please reflect on the degree to which each of the following statements currently applies to your relationship with this student. **Circle the appropriate number for each item.**

	Definitely does not apply	Not really	Neutral, not sure	Applies somewhat	Definitely applies
a. I share an affectionate, warm relationship with this child.	1	2	3	4	5
b. This child and I always seem to be struggling with each other.	1	2	3	4	5
c. If upset, this child will seek comfort from me.	1	2	3	4	5
d. This child is uncomfortable with physical affection or touch from me.	1	2	3	4	5
e. This child values his/her relationship with me.	1	2	3	4	5
f. When I praise this child, he/she beams with pride.	1	2	3	4	5
g. This child spontaneously shares information about himself/herself.	1	2	3	4	5
h. This child easily becomes angry at me.	1	2	3	4	5
i. It is easy to be in tune with what this student is feeling.	1	2	3	4	5
j. This child remains angry or is resistant after being disciplined.	1	2	3	4	5
k. Dealing with this child drains my energy.	1	2	3	4	5
l. When this child arrives in a bad mood, I know we're in for a long and difficult day.	1	2	3	4	5
m. This child's feelings toward me can be unpredictable or can change suddenly.	1	2	3	4	5
n. This child is sneaky or manipulative with me.	1	2	3	4	5
o. This child openly shares his/her feelings and experience with me.	1	2	3	4	5

©Pianta, 1992

Home-School Relationships

23. How would you describe your relationship and interactions with this child's parents:

Very satisfying,
it is easy for me to
work with them
1

Somewhat
satisfying,
it's okay
2

Somewhat unsatisfying,
could definitely
be improved
3

Very unsatisfying,
it is difficult for me
to work with them
4

24. How would you describe the emotional tone of the relationship with this child's parents:

Very warm
and friendly
1

Somewhat
warm and friendly
2

Somewhat cold
and unfriendly
3

Very cold
and unfriendly
4

25. How would you describe the degree of trust between you and this child's parents:

A great
deal of trust
between us
1

A little
trust,
it's okay
2

A little
suspicion and
mistrust
3

Much suspicion,
no trust
between us
4

26. How would you describe the clarity of communication between you and this child's parents:

Very clear,
it is easy for us to
talk together
1

Somewhat
clear,
it's okay
2

Somewhat confused,
difficult to understand
one another
3

Very confused,
frequent
misunderstandings
4

27. How would you describe the degree of agreement between you and this child's parents:

We agree on
just about every issue
related to child
1

We agree more
often than not
on most issues
2

We sometimes disagree
and have conflict
between us
3

We always disagree
and are in conflict
with one another
4

28. How much do you feel appreciated by this child's parents:

A great deal,
always feel
appreciated
1

Often,
seem appreciative
and express it
2

Rarely
have expressed
appreciation
3

Not at all,
never express
thanks for work
4

29. How would you describe the degree of support and cooperation between you and this child's parents:

A great deal
of cooperation and
support between us
1

A fair amount of
cooperation
and support
2

We have some
cooperation
between us
3

We never
support or cooperate
with one another
4

Family Involvement

30. Please answer the following questions about this child's parent(s)' or guardian(s)' involvement with the school. Questions refer to the child's primary caregiver(s). If both parents are involved, then answer the questions concerning both parents.

In the past year, how often (circle one):	Never	Once or twice a year	Almost every month	Almost every week	More than once per week
a. Has this child's parent called you or written a note to you?	1	2	3	4	5
b. Have you called or written a note to this child's parent?	1	2	3	4	5
c. Has this child's parent stopped by to talk to you? (e.g., at drop off or pick up)	1	2	3	4	5
d. Have you made a home visit?	1	2	3	4	5
e. Has this child's parent been invited to a group function exclusively for parents? (e.g., parent lunch, parent education program, PTA meeting)	1	2	3	4	5
f. Has this child's parent attended a group function exclusively for parents? (e.g., parent lunch, parent education program, PTA meeting)	1	2	3	4	5
g. Has this child's parent been invited to visit school for a special event? (e.g., field trip, party)	1	2	3	4	5
h. Has this child's parent attended a special event? (e.g., field trip, party)	1	2	3	4	5
i. Has this child's parent been invited to parent-teacher conferences?	1	2	3	4	5
j. Has this child's parent attended parent-teacher conferences?	1	2	3	4	5
k. Has this child's parent sent materials to classroom?	1	2	3	4	5
l. Has this child's parent volunteered at school/center?	1	2	3	4	5

Your Class

Please think only of the class in which the observations are being conducted.

1. How many students are currently enrolled in this class? _____ children currently enrolled
2. During this school year, approximately how many children were **transferred into or joined** this class **AFTER** the first two weeks of school? _____ children joined this class
3. During this school year, approximately how many children **left** this class **AFTER** the first two weeks of school? _____ children left this class
4. How many students with special needs (with an active IEP) are enrolled in this class? _____ students w/active IEP
5. If you suspect a child in your class has a learning or behavior problem, are professional resources available to assist you? ☐ Yes ☐ No
6. **IF YES:** Have you ever used these resources? ☐ Yes ☐ No
7. What is the last day of school for this group of children, this spring? ____/____/2003
Month Day Year
8. Is this class located in a: **Check one**
 - ☐ a. regular public elementary school
 - ☐ b. public magnet school: **School's special emphasis:** _____
 - ☐ c. public charter school: **School's special emphasis:** _____
 - ☐ d. private, religious school: **Religion/denomination:** _____
 - ☐ e. private, non-religious school
 - ☐ f. pre-k, preschool, or child care center
 - ☐ g. Head Start program
 - ☐ h. other: **Specify:** _____
9. Is this class targeted at a special population of children? **Check one.**
 - ☐ a. no
 - ☐ b. yes, this is class is for children with below average academic skills (for example, self-contained EIP in Georgia)
 - ☐ c. yes, this is a self-contained special education class: **Grades:** _____
 - ☐ d. yes, this is a class for English Language Learners (for example, ESL)
 - ☐ e. yes, this is a Spanish language immersion class
 - ☐ f. yes, other: **Specify:** _____
10. Of the hours you are **paid to work**, how many hours per week of **paid planning time** do you have?
Circle the one best response
 - a. 0 b. 2 or less c. 3 - 4 d. 5 - 6 e. 7 - 9 f. 10 or more
11. How many **unpaid** hours **per week** do you spend planning for your class?
Circle only one response.
 - a. 0 b. 2 or less c. 3 - 4 d. 5 - 6 e. 7 - 9 f. 10 or more

12. Do you use a prescribed reading program? ☐ Yes ☐ No
13. Is your reading program/instruction: ☐ a. phonics-based
☐ b. whole language based
☐ c. a combination of phonics and whole language
14. Do you use an assessment with kindergartners to help guide instruction?
☐ No
☐ Yes: **Which assessment?** _____
15. Which of these statements best describes what you do in your class about assessing individual children's skill or progress? **Check one.**
☐ a. Each child is assessed according to a written system that records each child's progress on a chart, grid, or series of scales.
☐ b. There is no written charting system but each child is observed during regular classroom activities and notes are kept.
☐ c. No systematic assessments are done.
16. How has the national emphasis on accountability and standardized-testing affected your teaching?
- _____
- _____
- _____
- _____
- _____

Working with Parents

17. Are **parents allowed in the classroom** during the day, after they have dropped off their children? **Circle one.**
- | | | | |
|-------------------------------|---------------------------|-----------------------------|-------------|
| not allowed during
the day | only at specific
times | only with advance
notice | at any time |
| 1 | 2 | 3 | 4 |
18. During this past school year, **how often** did you generally have **parent volunteers** in your classroom activities? **Circle one.**
- | | | | | |
|-----------|---------------------------------|--------------------------|-----------------------|-------|
| every day | once or several
times a week | once or twice
a month | a few
times a year | never |
| 1 | 2 | 3 | 4 | 5 |
19. What is the **minimum number of individual meetings** you schedule with **parents of each child** during the school year to discuss their child's individual needs and progress? **Write 0 if none.**
_____ meetings/year
20. **How many times** during the year do you **send reports** to parents? **Write 0 if none.**
_____ reports/year

Assistant or Co-Teacher

21. Do you have a paid assistant teacher or co-teacher? ☐ Yes ☐ No

22. **IF YES:** How many hours per week is a paid assistant teacher or co-teacher typically in your classroom? _____ hours per week

23. **IF YES TO 21,** What is the highest level of education your assistant or co-teacher has completed? **Check only one. If you have multiple assistants or co-teachers, please answer for the person who spends the largest number of hours in your classroom.**

☐ a. Eighth grade or less	☐ g. Bachelor's degree
☐ b. Some high school but no diploma	☐ h. At least one year of course work beyond a BA
☐ c. High school diploma or equivalent	☐ i. Master's degree
☐ d. High school diploma or equivalent, plus technical training or certificate	☐ j. Education specialist or professional diploma based on at least one year of course work beyond a Master's degree
☐ e. Some college but no degree	☐ k. Doctoral degree (e.g., M.D., J.D., Ph.D.)
☐ f. AA, AS, two-year degree	☐ l. Other: Specify: _____

24. Does your assistant or co-teacher have a Child Development Associate credential (CDA)? ☐ Yes ☐ No

25. What ages of children attend this **school/center**. Think of all the children at this school/center, not just your classroom. **Check all that apply.**

☐ a. Infants/Toddlers	☐ d. Kindergartners	☐ g. 3 rd -5 th graders
☐ b. Two-year olds	☐ e. 1 st graders	☐ h. 6 th -8 th graders
☐ c. Preschoolers (3-4)	☐ f. 2 nd graders	☐ i. 9 th -12 th graders

26. Today's date: ____/____/2003

If you have questions,
please call toll free: (877) 204-5991 or
e-mail: diane_early@unc.edu

This questionnaire is specifically about one of the children in your classroom. Please look at the sticky on the front cover to know which child. Please think only of that one child when responding to these questions.

1. What is this child's date of birth? _____ / _____ / 19_____
Month Day Year
2. Is this child a: ☐ a. girl ☐ b. boy
3. How would you rate this child's health in general? **Check only one.**
☐ a. poor ☐ b. fair ☐ c. good ☐ d. very good ☐ e. excellent

Teacher-Child Rating Scale

4. Please rate the following items according to how well they describe the child.
Circle one number for each statement.

	Not at All	A Little	Moderately Well	Well	Very Well
a. Accepts things not going his/her way	1	2	3	4	5
b. Defends own views under group pressure	1	2	3	4	5
c. Completes work	1	2	3	4	5
d. Has many friends	1	2	3	4	5
e. Ignores teasing	1	2	3	4	5
f. Comfortable as a leader	1	2	3	4	5
g. Well organized	1	2	3	4	5
h. Is friendly towards peers	1	2	3	4	5
i. Accepts imposed limits	1	2	3	4	5
j. Participates in class discussions	1	2	3	4	5
k. Functions well even with distractions	1	2	3	4	5
l. Makes friends easily	1	2	3	4	5
m. Copes well with failure	1	2	3	4	5
n. Expresses ideas willingly	1	2	3	4	5
o. Works well without adult support	1	2	3	4	5
p. Classmates wish to sit near this child	1	2	3	4	5
q. Tolerates frustration	1	2	3	4	5
r. Questions rules that seem unfair/unclear	1	2	3	4	5
s. A self starter	1	2	3	4	5
t. Well liked by classmates	1	2	3	4	5

© Hightower et al. (1986)

5. Please rate this child on the following items according to how well they describe the child. **Circle one number for each statement.**

	Not a Problem	Mild	Moderate	Serious	Very Serious Problem
a. Disruptive in class	1	2	3	4	5
b. Withdrawn	1	2	3	4	5
c. Underachieving (not working to ability)	1	2	3	4	5
d. Fidgety, difficulty sitting still	1	2	3	4	5
e. Shy, timid	1	2	3	4	5
f. Poor work habits	1	2	3	4	5
g. Disturbs others while they are working	1	2	3	4	5
h. Anxious, worried	1	2	3	4	5
i. Poor concentration, limited attention span	1	2	3	4	5
j. Constantly seeks attention	1	2	3	4	5
k. Nervous, frightened, tense	1	2	3	4	5
l. Difficulty following directions	1	2	3	4	5
m. Overly aggressive to peers (fights)	1	2	3	4	5
n. Does not express feelings	1	2	3	4	5
o. Poorly motivated to achieve	1	2	3	4	5
p. Defiant, obstinate, stubborn	1	2	3	4	5
q. Unhappy, sad	1	2	3	4	5
r. Learning academic subjects	1	2	3	4	5

© Hightower et al. (1986)

6. Did you rate any of the items above (question 5) a 4 or a 5?

☐ a. Yes. If yes, **write the letters of the problem(s) that most concern you and answer questions 7-12 in regard to those problems:** _____

☐ b. No. If no, **skip to the next page** → → → → → → →

7. How long ago did you notice this/these problem(s)? _____ months ago

8. How does the child compare to classmates on this/these problem(s)? **Circle your answer.**

better than many (1) about the same as most classmates (2) a little worse than most (3) much worse than most (4) the worst in the class (5)

9. Is the problem(s) bad enough to block the child's progress at school? **Circle your answer.**

not at all (1) very little (2) to some extent (3) to a great extent (4) to a very great extent (5)

10. Across how many different classroom activities or settings (e.g. show and tell, quiet time, reading, group activity, play, snack, field trips, nap) does this/these problem(s) occur. **Check only one.**

☐ a. limited to a single class activity, person, situation or setting	☐ c. occurs in all settings and activities at school
☐ b. limited to 2-3 class activities, persons, situations or settings	☐ d. occurs anywhere and everywhere (at home, school and in community)

11. Is this problem serious enough to refer the child to a doctor, psychologist, or learning specialist? Circle your answer.

no, not serious (1) somewhat serious (2) yes, pretty serious (3) yes, extremely serious (4) do not know enough to judge (dk)

12. To the best of your knowledge has this child been referred to or received services for the problems? Check one.

☐ a. services not necessary	☐ d. yes, referred but not receiving services
☐ b. child may benefit from, but has not been referred for services	☐ e. yes, has received or is receiving services
☐ c. yes, referred	☐ f. I do not know

Special Services/Classes

13. Has this child ever been referred for evaluation for an Individualized Education Plan (IEP)?

☐ yes ☐ no

14. Does this child have an Individualized Education Plan (IEP) to receive special services for a disability?

☐ yes ☐ no

IF YES on question 14:

15. When did this child first receive this IEP

____ / ____
Month Year

16. What type of disability is described on this child's IEP? **Check all that apply.**

☐ a. speech	☐ d. social/emotional
☐ b. physical/sensory	☐ e. other: <i>Specify:</i> _____
☐ c. cognitive/language	_____

IF NO on question 14 (child does not have an IEP):

17. By the end of the year do you think you will recommend this child be evaluated for an Individualized Education Plan (IEP)?

☐ yes ☐ no

18. Do you think you will recommend this child be evaluated for an IEP when s/he begins 1st grade?

☐ yes ☐ no

Pre-K

19. Did this child's experiences last year in pre-k help prepare him/her for kindergarten? **Circle one.**

No, did not help
1

Helped only a little
2

Helped a lot
3

Academic Rating Scale

The scales on the next pages gauge the academic skills of young children. They are meant to cover the broad range of skills that children in kindergarten and early elementary school might show. **We realize that not all of the skills listed are appropriate for all ages of young children.** However, we want you to rate them now, so we can see how this child's skills grow over time. Each question includes examples that are meant to help you think of the range of situations in which the child may demonstrate similar skills and behaviors. **The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.** Use the following scale to rate each child compared to other children of the same age level.

Not yet:	Child <u>has not yet</u> demonstrated skill, knowledge, or behavior.
Beginning:	Child is <u>just beginning</u> to demonstrate skill, knowledge, or behavior but does so very inconsistently.
In Progress:	Child demonstrates skill, knowledge, or behavior <u>with some regularity</u> but varies in level of competence.
Intermediate:	Child demonstrates skill, knowledge, or behavior <u>with increasing regularity and average competence</u> , but is not completely proficient.
Proficient:	Child demonstrates skill, knowledge, or behavior <u>competently and consistently</u> .
N/A:	Not applicable: Skill, knowledge, or behavior has <u>not been introduced</u> in classroom setting.

Note: For children with Limited English Proficiency, please answer the questions based on your knowledge of this child's skills. If the child does not yet demonstrate skills in English but does demonstrate them in his/her native language, please answer the questions with the child's native language in mind.

20. Will you be thinking about this child's skills in English or another language?

☐ a. English

☐ b. Spanish

☐ c. Other language

_____ *please specify*

Language and Literacy

21. **Rate the student's achievement in comparison to other students of the same grade level.** The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
a. Uses complex sentence structures – for example, says "If she had brought her umbrella, she wouldn't have gotten wet," or "Yesterday it was raining cats and dogs," or "Why can't we go on the field trip at the same time as the first grade?"	1	2	3	4	5	N/A
b. Understands and interprets a story or other text read to him/her – for example, retelling a story just read to the group, or telling about why a story ended as it did, or connecting part of the story to his/her own life.	1	2	3	4	5	N/A
c. Easily and quickly names all upper- and lower-case letters of the alphabet.	1	2	3	4	5	N/A
d. Produces rhyming words – for example, says a word that rhymes with "chip," "shop," "drink," – or "light."	1	2	3	4	5	N/A
e. Predicts what will happen next in stories by using the pictures and storyline for clues.	1	2	3	4	5	N/A
f. Reads simple books independently – for example, reads books with a repetitive language pattern.	1	2	3	4	5	N/A
g. Demonstrates early writing behaviors –for example, by using initial consonants to spell words ("d" for the word "dog"), or using letter names to represent sounds ("r" for the word "are"), or phonetic spelling ("hrt" for the word "heart"), to convey words and ideas.	1	2	3	4	5	N/A
h. Demonstrates an understanding of some of the conventions of print – for example, by using both upper and lower case letters when writing, or putting spaces between words, or using a period at the end of a sentence.	1	2	3	4	5	N/A
i. Uses the computer for a variety of purposes – for example, by drawing a picture, or counting objects, or typing numbers, letters, or words.	1	2	3	4	5	N/A

Source: U. S. Department of Education, National Center for Education Statistics, Early Childhood Longitudinal Study - Kindergarten (1999).

Mathematical Thinking

22. **Rate the student's achievement in comparison to other students of the same grade level.** The examples do not exhaust all the ways that a child may demonstrate what s/he knows or can do.

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
a. Sorts, classifies, and compares math materials by various rules and attributes – for example creating a rule for sorting keys, such as "keys with numbers" in one pile and "keys without numbers" in another pile, or sorting shapes by several attributes such as "large plastic shapes" and "small wooden shapes."	1	2	3	4	5	N/A
b. Orders a group of objects – for example, by ordering rods or sticks by length, or arranging paints from lightest to darkest, or musical instruments from softest to loudest.	1	2	3	4	5	N/A
c. Shows an understanding of the relationship between quantities – for example, knowing that a group of ten small stones is the same quantity as a group of ten larger blocks.	1	2	3	4	5	N/A

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
d. Solves problems involving numbers using concrete objects – for example "Vera has six blocks, George has three, how many blocks are there in all?" or "How many do I need to give George so he will have the same number of blocks as Vera?"	1	2	3	4	5	N/A
e. Demonstrates an understanding of graphing activities – for example, by adding a cube or coloring on a graph of "How we get to school" using yellow for "riding the bus," white for "riding in a car," and blue for "walking."	1	2	3	4	5	N/A
f. Uses instruments accurately for measuring – for example, by using a balance scale to compare the weight of two objects, or using tablespoons and teaspoons during a cooking project, or using a measuring tape to measure the length of different objects.	1	2	3	4	5	N/A
g. Uses a variety of strategies to solve math problems – for example, using manipulative materials, looking for a pattern, or acting out a problem.	1	2	3	4	5	N/A

Source: U. S. Department of Education, National Center for Education Statistics, Early Childhood Longitudinal Study - Kindergarten (1999).

Student-Teacher Relationships

23. Please reflect on the degree to which each of the following statements currently applies to your relationship with this student. **Circle the appropriate number for each item.**

	Definitely does not apply	Not really	Neutral, not sure	Applies somewhat	Definitely applies
a. I share an affectionate, warm relationship with this child.	1	2	3	4	5
b. This child and I always seem to be struggling with each other.	1	2	3	4	5
c. If upset, this child will seek comfort from me.	1	2	3	4	5
d. This child is uncomfortable with physical affection or touch from me.	1	2	3	4	5
e. This child values his/her relationship with me.	1	2	3	4	5
f. When I praise this child, he/she beams with pride.	1	2	3	4	5
g. This child spontaneously shares information about himself/herself.	1	2	3	4	5
h. This child easily becomes angry at me.	1	2	3	4	5
i. It is easy to be in tune with what this student is feeling.	1	2	3	4	5
j. This child remains angry or is resistant after being disciplined.	1	2	3	4	5
k. Dealing with this child drains my energy.	1	2	3	4	5
l. When this child arrives in a bad mood, I know we're in for a long and difficult day.	1	2	3	4	5
m. This child's feelings toward me can be unpredictable or can change suddenly.	1	2	3	4	5
n. This child is sneaky or manipulative with me.	1	2	3	4	5
o. This child openly shares his/her feelings and experiences with me.	1	2	3	4	5

Home-School Relationships

24. How would you describe your relationship and interactions with this child's parents:

Very satisfying,
it is easy for me to
work with them

1

Somewhat
satisfying,
it's okay

2

Somewhat unsatisfying,
could definitely
be improved

3

Very unsatisfying,
it is difficult for me
to work with them

4

25. How would you describe the emotional tone of the relationship with this child's parents:

Very warm
and friendly

1

Somewhat
warm and friendly

2

Somewhat cold
and unfriendly

3

Very cold
and unfriendly

4

26. How would you describe the degree of trust between you and this child's parents:

A great
deal of trust
between us

1

A little
trust,
it's okay

2

A little
suspicion and
mistrust

3

Much suspicion,
no trust
between us

4

27. How would you describe the clarity of communication between you and this child's parents:

Very clear,
it is easy for us to
talk together

1

Somewhat
clear,
it's okay

2

Somewhat confused,
difficult to understand
one another

3

Very confused,
frequent
misunderstandings

4

28. How would you describe the degree of agreement between you and this child's parents:

We agree on
just about every issue
related to child

1

We agree more
often than not
on most issues

2

We sometimes disagree
and have conflict
between us

3

We always disagree
and are in conflict
with one another

4

29. How much do you feel appreciated by this child's parents:

A great deal,
always feel
appreciated

1

Often,
seem appreciative
and express it

2

Rarely
have expressed
appreciation

3

Not at all,
never express
thanks for work

4

30. How would you describe the degree of support and cooperation between you and this child's parents:

A great deal
of cooperation and
support between us

1

A fair amount of
cooperation
and support

2

We have some
cooperation
between us

3

We never
support or cooperate
with one another

4

Family Involvement

31. Please answer the following questions about this child's parent(s)' or guardian(s)' involvement with the school. Questions refer to the child's primary caregiver(s). If both parents are involved, then answer the questions concerning both parents.

In the past year, how often (circle one):	Never	Once or twice a year	Almost every month	Almost every week	More than once per week
a. Has this child's parent called you or written a note to you?	1	2	3	4	5
b. Have you called or written a note to this child's parent?	1	2	3	4	5
c. Has this child's parent stopped by to talk to you? (e.g., at drop off or pick up)	1	2	3	4	5
d. Have you made a home visit?	1	2	3	4	5
e. Has this child's parent been invited to a group function exclusively for parents? (e.g., parent lunch, parent education program, PTA meeting)	1	2	3	4	5
f. Has this child's parent attended a group function exclusively for parents? (e.g., parent lunch, parent education program, PTA meeting)	1	2	3	4	5
g. Has this child's parent been invited to visit school for a special event? (e.g., field trip, party)	1	2	3	4	5
h. Has this child's parent attended a special event? (e.g., field trip, party)	1	2	3	4	5
i. Has this child's parent been invited to parent-teacher conferences?	1	2	3	4	5
j. Has this child's parent attended parent-teacher conferences?	1	2	3	4	5
k. Has this child's parent sent materials to classroom?	1	2	3	4	5
l. Has this child's parent volunteered at school/center?	1	2	3	4	5

32. Today's date: ____/____/2003
Month Day Year

Professional/Demographics

1. What is the highest level of education you have completed? **Check only one.**

☐ a. High school diploma or equivalent	☐ e. Master's degree
☐ b. Some college or an Associate's (no Bachelor's)	☐ f. Education specialist or professional diploma based on at least one year of course work beyond a Master's degree
☐ c. Bachelor's degree	☐ g. Doctoral degree (e.g., M.D., J.D., Ph.D.)
☐ d. At least one year of course work beyond a BA	☐ h. Other: Specify: _____

2. What was your major when you received your highest degree? **Please check one.**

☐ a. Early childhood education	☐ e. Child development
☐ b. Elementary education	☐ f. N/A (no degree)
☐ c. Special education	☐ g. Other: Specify: _____
☐ d. English as a second language (ESL)	_____

3. Do you have a **certification from your state education agency** that qualifies you to teach....

a. ...children younger than 4 years old?	☐ Yes	☐ Yes, emergency or temporary	☐ No
b. ...4-year old children?	☐ Yes	☐ Yes, emergency or temporary	☐ No
c. ...Kindergarten?	☐ Yes	☐ Yes, emergency or temporary	☐ No
d. ...other early elementary grades?	☐ Yes	☐ Yes, emergency or temporary	☐ No
e. ...special education or work as an early interventionist?	☐ Yes	☐ Yes, emergency or temporary	☐ No
f. ...children with Limited English Proficiency (LEP) or teach English as a Second Language (ESL)?	☐ Yes	☐ Yes, emergency or temporary	☐ No
g. ...any other levels or special subjects? Please specify: _____	☐ Yes	☐ Yes, emergency or temporary	☐ No

4. Where did you receive your specialized training in early childhood education?
Check all that apply.

☐ a. No training	☐ f. Workshops at professional meetings
☐ b. Teaching methods courses in elementary education teacher preparation program	☐ g. Courses in high school
☐ c. In-service workshops in my school or school system about early childhood education	☐ h. Courses at community college or vocational school
☐ d. In-service workshops in my school or school system particular to the curriculum I use.	☐ i. Other: Specify: _____
☐ e. Workshops in the community	_____

5. List your years of experience working professionally with children at each of the following levels.
Enter 0 if no experience.

- a. Prior to kindergarten entry _____ years
- b. Kindergarten _____ years
- c. 1st grade _____ years
- d. Above 1st grade _____ years

6. In what year were you born? 19____ _

7. What is your gender? ☐ a. Female ☐ b. Male

8. Check **all** the categories that describe your race/ethnicity:

☐ a. Black/African-American	☐ i. Chinese
☐ b. Native American/Indian	☐ j. Filipino
☐ c. White/Caucasian	☐ k. Japanese
☐ d. Pacific Islander	☐ l. Korean
☐ e. Mexican American, Chicano	☐ m. Vietnamese
☐ f. Puerto Rican	☐ n. Asian Indian
☐ g. Cuban	☐ o. Other Asian
☐ h. Other Hispanic/Spanish/Latino/a	☐ p. Other: Specify: _____

9. What is your total annual salary (before taxes) as a teacher for the current year?

\$_____, _____ per year

(If you do not know your annual salary, what is your hourly wage? \$_____._____ per hour)

10. How many months of the year does this salary cover? _____ months

11. How many hours per week are you paid to work (not including overtime)?

..... _____ hours per week

12. Of the hours you are **paid to work**, how many hours per week of **paid planning time** do you have?

Circle the one best response.

- a. 0
- b. 2 or less
- c. 3 - 4
- d. 5 - 6
- e. 7 - 9
- f. 10 or more

13. How many **unpaid** hours **per week** do you spend planning for your class?

Circle only one response.

- a. 0
- b. 2 or less
- c. 3 - 4
- d. 5 - 6
- e. 7 - 9
- f. 10 or more

Your Class

If you teach more than one class, please think of the class in which the study child(ren) is/are enrolled

14. As of today, how many students are enrolled in your class? _____ children enrolled

15. As of today, how many girls and boys are enrolled in this class?

a. Number of girls _____

b. Number of boys _____

16. How many students with special needs (with an active IEP) are enrolled in this class?

_____ students with active IEP

17. If you suspect a child in your class has a learning or behavior problem, are professional resources available to assist you?

☐ Yes

☐ No

18. **IF YES**, Have you ever used these resources?

☐ Yes

☐ No

19. As of today, how many students enrolled in this class belong to each of the following racial-ethnic groups? Count each student only once. **Please write a number on each line. Enter "0" if none.**

____ a. Black/African American	____ e. Asian
____ b. Native American/ Alaska Native	____ f. Pacific Islander
____ c. White/Caucasian	____ g. Multiracial
____ d. Hispanic/Latino/a	____ h. Other: Specify: _____

Hint: The numbers in 19 a-h should add up to the number of children enrolled in your class (question 14).

20. How many students in this class are considered Limited English Proficient (LEP)? (*children with LEP are children whose native language is other than English and whose skills in listening, speaking, reading, or writing English are such that they have difficulty understanding school instructions in English*).

_____ students with Limited English Proficiency

21. Which languages are spoken by students in this class? **Check all that apply.**

☐ a. English

☐ b. Spanish

☐ c. Other Language(s) _____

please specify

22. Which languages do you or your assistant teacher speak in the classroom?

Check all that apply.

☐ a. English

☐ b. Spanish

☐ c. Other Language(s) _____

please specify

23. Is this class a: **Check one.**

☐ a. kindergarten class

☐ b. 1st grade class

☐ c. kindergarten and 1st grade combined class

☐ d. 1st and 2nd grade combined class

☐ e. transitional 1st or junior 1st (school year between K and 1st)

☐ f. other: **Specify:** _____

24. Is this class targeted at a special population of children? **Check one.**

☐ a. no

☐ b. yes, this class is for children with below average academic skills

☐ c. yes, this is a regular education class with fully included special education students

☐ d. yes, this is a self-contained special education class: **Grades:** _____

☐ e. yes, this is a class for English Language Learners (for example, ESL)

☐ f. yes, this is a Spanish language immersion class

☐ g. yes, other: **Specify:** _____

25. Is this class located in a: **Check one**

- ☐ a. regular public elementary school
- ☐ b. public magnet school: **School's special emphasis:** _____
- ☐ c. public charter school: **School's special emphasis:** _____
- ☐ d. private, religious school: **Religion/denomination:** _____
- ☐ e. private, non-religious school
- ☐ f. other: **Specify:** _____

26. Which of the following language arts/literacy curricula do you use? **Check all that apply.**

☐ a. No language arts/literacy curriculum	☐ l. Saxon Phonics
☐ b. 4 Blocks/Building Blocks	☐ m. Scholastic
☐ c. Harcourt Brace	☐ n. Scott Foresman
☐ d. Houghton Mifflin-Reading	☐ o. Sing, Spell, Read & Write
☐ e. Kinder Roots	☐ p. SRA Reading Mastery (DISTAR)
☐ f. The Letter People	☐ q. Voyager
☐ g. Literacy collaboration	☐ r. Zoophonics
☐ h. Macmillan/McGraw-Hill	☐ s. State-developed curriculum Name: _____
☐ i. Open Court	☐ t. Locally-developed curriculum Name: _____
☐ j. Phonemic Awareness in Young Children	☐ u. Other: Specify: _____
☐ k. Rigby	_____

27. Have you received training specific to this language arts curriculum? ☐ Yes ☐ No

28. Do you receive on-going support in the use of this language arts curriculum? ☐ Yes ☐ No

29. Do you use a mathematics curriculum?

☐ Yes **Specify:** _____ ☐ No

30. Do you use a social skills curriculum?

☐ Yes **Specify:** _____ ☐ No

31. Do you use a published curriculum for any other subject(s)? ☐ Yes ☐ No

32. **IF YES:** Which one(s)?

curriculum name: _____ which subject? _____

curriculum name: _____ which subject? _____

curriculum name: _____ which subject? _____

Working with Parents

33. Are parents allowed in the classroom during the day, after they have dropped off their children?

Circle one.

not allowed during
the day
1

only at specific
times
2

only with advance
notice
3

at any time
4

34. During this past school year, how often did you generally have parent volunteers in your classroom activities? **Circle one.**

every day
1

once or several
times a week
2

once or twice
a month
3

a few
times a year
4

never
5

35. What is the **minimum number of individual meetings** you schedule with **parents of each child** during the school year to discuss their child's individual needs and progress?

Write 0 if none.

_____ meetings/year

36. **How many times** during the year do you **send reports** to parents? **Write 0 if none.**

_____ reports/year

Assistant or Co-Teacher

37. Do you have a paid assistant teacher or co-teacher?

☐ Yes

☐ No

38. **IF YES:** How many hours per week is a paid assistant teacher or co-teacher typically in your classroom?

_____ hours per week

39. **IF YES TO 37,** What is the highest level of education your assistant or co-teacher has completed? **Check only one. If you have multiple assistants or co-teachers, please answer for the person who spends the largest number of hours in your classroom.**

☐ a. Eighth grade or less	☐ g. Bachelor's degree
☐ b. Some high school but no diploma	☐ h. At least one year of course work beyond a BA
☐ c. High school diploma or equivalent	☐ i. Master's degree
☐ d. High school diploma or equivalent, plus technical training or certificate	☐ j. Education specialist or professional diploma based on at least one year of course work beyond a Master's degree
☐ e. Some college but no degree	☐ k. Doctoral degree (e.g., M.D., J.D., Ph.D.)
☐ f. AA, AS, two-year degree	☐ l. Other: Specify: _____

40. Today's date: ____/____/____
Month Day Year

National Center for Early Development & Learning

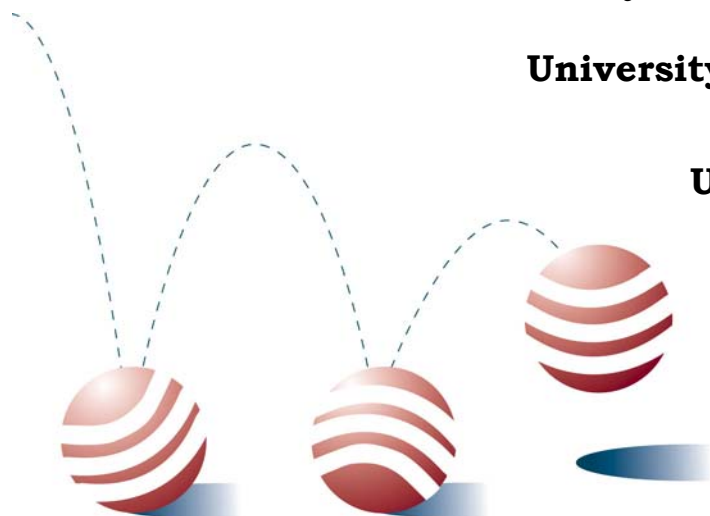

Multi-State Study of Pre-Kindergarten Elementary Phase

Teacher Questionnaire about
Study Child
Spring of 2004

A project of
**University of North Carolina at Chapel Hill
University of Virginia
University of California at Los Angeles**

Funded by
U.S. Department of Education

If you have questions,
please call toll free: (866) 828-0269 or
e-mail: diane_early@unc.edu

This questionnaire is specifically about one of the children in your classroom. Please look at the sticky note on the front cover to know which child. Please think only of that one child when responding to these questions.

1. What is this child's date of birth? _____ / _____ / 19_____
Month Day Year
2. Is this child a: ☐ a. girl ☐ b. boy
3. How would you rate this child's health in general? **Check only one.**
☐ a. poor ☐ b. fair ☐ c. good ☐ d. very good ☐ e. excellent
4. Is this child a: ☐ a. kindergartener ☐ b. 1st grader ☐ c. Other: **Specify:** _____
5. **If this child is not in 1st grade:** why didn't she/he start 1st grade this year?
☐ a. was not in kindergarten last year
☐ b. school/teacher suggested that the child be kept in kindergarten, parents agreed
☐ c. school/teacher decided to keep child in kindergarten, parents disagreed
☐ d. parents requested keeping child in kindergarten
☐ e. other: **Specify:** _____

Teacher-Child Rating Scale

6. Please rate the following items according to how well they describe the child. **Circle one number for each statement.**

	Not at All	A Little	Moderately Well	Well	Very Well
a. Accepts things not going his/her way	1	2	3	4	5
b. Defends own views under group pressure	1	2	3	4	5
c. Completes work	1	2	3	4	5
d. Has many friends	1	2	3	4	5
e. Ignores teasing	1	2	3	4	5
f. Comfortable as a leader	1	2	3	4	5
g. Well organized	1	2	3	4	5
h. Is friendly towards peers	1	2	3	4	5
i. Accepts imposed limits	1	2	3	4	5
j. Participates in class discussions	1	2	3	4	5
k. Functions well even with distractions	1	2	3	4	5
l. Makes friends easily	1	2	3	4	5
m. Copes well with failure	1	2	3	4	5
n. Expresses ideas willingly	1	2	3	4	5
o. Works well without adult support	1	2	3	4	5
p. Classmates wish to sit near this child	1	2	3	4	5
q. Tolerates frustration	1	2	3	4	5
r. Questions rules that seem unfair/unclear	1	2	3	4	5
s. A self starter	1	2	3	4	5
t. Well liked by classmates	1	2	3	4	5

© Hightower et al. (1986)

7. Please rate this child on the following items according to how well they describe the child.

Circle one number for each statement.

	Not a Problem	Mild	Moderate	Serious	Very Serious Problem
a. Disruptive in class	1	2	3	4	5
b. Withdrawn	1	2	3	4	5
c. Underachieving (not working to ability)	1	2	3	4	5
d. Fidgety, difficulty sitting still	1	2	3	4	5
e. Shy, timid	1	2	3	4	5
f. Poor work habits	1	2	3	4	5
g. Disturbs others while they are working	1	2	3	4	5
h. Anxious, worried	1	2	3	4	5
i. Poor concentration, limited attention span	1	2	3	4	5
j. Constantly seeks attention	1	2	3	4	5
k. Nervous, frightened, tense	1	2	3	4	5
l. Difficulty following directions	1	2	3	4	5
m. Overly aggressive to peers (fights)	1	2	3	4	5
n. Does not express feelings	1	2	3	4	5
o. Poorly motivated to achieve	1	2	3	4	5
p. Defiant, obstinate, stubborn	1	2	3	4	5
q. Unhappy, sad	1	2	3	4	5
r. Learning academic subjects	1	2	3	4	5

© Hightower et al. (1986)

8. Did you rate any of the items above (question 7) a 4 or a 5?

☐ a. Yes. If yes, **write the letters of the problem(s) that most concern you and answer questions 9-14 in regard to those problems:** _____

☐ b. No. If no, **skip to the next page** ► ► ► ► ► ► ► ►

9. How long ago did you notice this/these problem(s)? _____ months ago

10. How does the child compare to classmates on this/these problem(s)? **Circle your answer.**

better than many (1) about the same as most classmates (2) a little worse than most (3) much worse than most (4) the worst in the class (5)

11. Is the problem(s) bad enough to block the child's progress at school? **Circle your answer.**

not at all (1) very little (2) to some extent (3) to a great extent (4) to a very great extent (5)

12. Across how many different classroom activities or settings (e.g. show and tell, quiet time, reading, group activity, play, snack, field trips, nap) does this/these problem(s) occur. **Check only one.**

☐ a. limited to a single class activity, person, situation or setting	☐ c. occurs in all settings and activities at school
☐ b. limited to 2-3 class activities, persons, situations or settings	☐ d. occurs anywhere and everywhere (at home, school and in community)

13. Is this problem serious enough to refer the child to a doctor, psychologist, or learning specialist? **Circle your answer.**

no, not serious (1) somewhat serious (2) yes, pretty serious (3) yes, extremely serious (4) do not know enough to judge (dk)

14. To the best of your knowledge has this child been referred to or received services for the problems? **Check one.**

☐ a. services not necessary	☐ d. yes, referred but not receiving services
☐ b. child may benefit from, but has not been referred for services	☐ e. yes, has received or is receiving services
☐ c. yes, referred	☐ f. I do not know

Special Services/Classes

15. Has this child ever been referred for evaluation for an Individualized Education Plan (IEP)? ☐ yes ☐ no

16. Does this child have an Individualized Education Plan (IEP) to receive special services for a disability? ☐ yes ☐ no

IF YES on question 16:

17. When did this child first receive this IEP _____ / _____
Month Year

18. What type of disability is described on this child's IEP? **Check all that apply.**

☐ a. speech	☐ d. social/emotional
☐ b. physical/sensory	☐ e. other: <i>Specify:</i> _____
☐ c. cognitive/language	_____

IF NO on question 16 (child does not have an IEP):

19. By the end of the year do you think you will recommend this child be evaluated for an Individualized Education Plan (IEP)? ☐ yes ☐ no

20. Do you think you will recommend this child be evaluated for an IEP when s/he begins 2nd grade? ☐ yes ☐ no

Academic Rating Scale

The scales on the next pages gauge the academic skills of young children. They are meant to cover the broad range of skills that children in early elementary school might show. Each question includes examples that are meant to help you think of the range of situations in which the child may demonstrate similar skills and behaviors. **The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.** Use the following scale to rate this child compared to other children of the same age level.

Not yet:	Child <u>has not yet</u> demonstrated skill, knowledge, or behavior.
Beginning:	Child is <u>just beginning</u> to demonstrate skill, knowledge, or behavior but does so very inconsistently.
In Progress:	Child demonstrates skill, knowledge, or behavior <u>with some regularity</u> but varies in level of competence.
Intermediate:	Child demonstrates skill, knowledge, or behavior <u>with increasing regularity and average competence</u> , but is not completely proficient.
Proficient:	Child demonstrates skill, knowledge, or behavior <u>competently and consistently</u> .
N/A:	Not applicable: Skill, knowledge, or behavior has <u>not been introduced</u> in classroom setting.

Note: For children with Limited English Proficiency, please answer the questions based on your knowledge of this child's skills. If the child does not yet demonstrate skills in English but does demonstrate them in his/her native language, please answer the questions with the child's native language in mind.

21. Will you be thinking about this child's skills in English or another language?

☐ a. English ☐ b. Spanish ☐ c. Other language _____
please specify

Language and Literacy

22. **Rate the student's achievement in comparison to other students of the same grade level.** The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
a. Contributes relevant information to classroom discussions - for example, during a class discussion, can express an idea or a personal opinion on a topic and the reasons behind the opinion.	1	2	3	4	5	N/A
b. Understands and interprets a story or other text read to him/her – for example, by writing a sequel to a story, or dramatizing part of a story, or posing a question about why a particular story event occurred as it did.	1	2	3	4	5	N/A
c. Reads words with regular vowel sounds - for example, reads “coat,” “junk,” “lent,” “chimp,” “halt,” or “bite”.	1	2	3	4	5	N/A
d. Reads words with irregular vowel sounds - for example, reads “through,” “point,” “enough,” or “shower.”	1	2	3	4	5	N/A
e. Reads first grade books independently with comprehension - for example, reads most words correctly and answers questions about what was read, makes predictions while reading, and retells story after reading.	1	2	3	4	5	N/A
f. Reads first grade books fluently – for example, easily reads words in meaningful phrases rather than reading word by word.	1	2	3	4	5	N/A
g. Composes a story with a clear beginning, middle, and end.	1	2	3	4	5	N/A
h. Demonstrates an understanding of some of the conventions of print – for example, appropriately using question marks, exclamation points, and quotation marks.	1	2	3	4	5	N/A
i. Uses the computer for a variety of purposes – for example, by writing a page for a class book, or looking up information on a topic of interest, or solving math problems, or recording scientific observation.	1	2	3	4	5	N/A

Source: U. S. Department of Education, National Center for Education Statistics, Early Childhood Longitudinal Study - Kindergarten Class of 1998-99 (2000).

Mathematical Thinking

23. **Rate the student's achievement in comparison to other students of the same grade level.** The examples do not exhaust all the ways that a child may demonstrate what s/he knows or can do.

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
a. Demonstrates an understanding of place value - for example, by explaining that fourteen is ten plus four, or using two stacks of ten and five single cubes to represent the number 25.	1	2	3	4	5	N/A
b. Models, reads, writes, and compares whole numbers - for example, recognizing that 30 is the same quantity if it is 30 rabbits or 30 tallies or 15 + 15 red dots, or describing that the number 25 is smaller than the number 41.	1	2	3	4	5	N/A
c. Counts change with two different types of coins - for example, two quarters and a nickel, or three dimes and two pennies.	1	2	3	4	5	N/A

This child:	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable
d. Surveys, collects, and organizes data into simple graphs - for example, making tally marks to represent the number of children who want to play jump rope at recess, or making a picture, bar, line, or circle graph to show the different kinds of fruit children bring to school and the quantity of each type.	1	2	3	4	5	N/A
e. Makes reasonable estimates of quantities - for example, looking at a group of objects and deciding if it is more than 10, about 50, or less than 100.	1	2	3	4	5	N/A
f. Measures to the nearest whole number using common instruments - for example, rulers, or tape measures, or thermometers, or scales.	1	2	3	4	5	N/A
g. Uses a variety of strategies to solve math problems – for example, using manipulative materials, using trial and error, making an organized list or table, drawing a diagram, looking for a pattern, acting out a problem or talking with others.	1	2	3	4	5	N/A

Source: U. S. Department of Education, National Center for Education Statistics, Early Childhood Longitudinal Study - Kindergarten Class of 1998-99 (2000).

Home-School Relationships

24. How would you describe your relationship and interactions with this child's parents:

Very satisfying,
it is easy for me to
work with them
1

Somewhat
satisfying,
it's okay
2

Somewhat unsatisfying,
could definitely
be improved
3

Very unsatisfying,
it is difficult for me
to work with them
4

25. How would you describe the emotional tone of the relationship with this child's parents:

Very warm
and friendly
1

Somewhat
warm and friendly
2

Somewhat cold
and unfriendly
3

Very cold
and unfriendly
4

26. How would you describe the degree of trust between you and this child's parents:

A great
deal of trust
between us
1

A little
trust,
it's okay
2

A little
suspicion and
mistrust
3

Much suspicion,
no trust
between us
4

27. How would you describe the clarity of communication between you and this child's parents:

Very clear,
it is easy for us to
talk together
1

Somewhat
clear,
it's okay
2

Somewhat confused,
difficult to understand
one another
3

Very confused,
frequent
misunderstandings
4

28. How would you describe the degree of agreement between you and this child's parents:

We agree on
just about every issue
related to child
1

We agree more
often than not
on most issues
2

We sometimes disagree
and have conflict
between us
3

We always disagree
and are in conflict
with one another
4

29. How much do you feel appreciated by this child's parents:

A great deal,
always feel
appreciated
1

Often,
seem appreciative
and express it
2

Rarely
have expressed
appreciation
3

Not at all,
never express
thanks for work
4

30. How would you describe the degree of support and cooperation between you and this child's parents:

A great deal
of cooperation and
support between us
1

A fair amount of
cooperation
and support
2

We have some
cooperation
between us
3

We never
support or cooperate
with one another
4

Student-Teacher Relationships

31. Please reflect on the degree to which each of the following statements currently applies to your relationship with this student. **Circle the appropriate number for each item.**

	Definitely does not apply	Not really	Neutral, not sure	Applies somewhat	Definitely applies
a. I share an affectionate, warm relationship with this child.	1	2	3	4	5
b. This child and I always seem to be struggling with each other.	1	2	3	4	5
c. If upset, this child will seek comfort from me.	1	2	3	4	5
d. This child is uncomfortable with physical affection or touch from me.	1	2	3	4	5
e. This child values his/her relationship with me.	1	2	3	4	5
f. When I praise this child, he/she beams with pride.	1	2	3	4	5
g. This child spontaneously shares information about himself/herself.	1	2	3	4	5
h. This child easily becomes angry at me.	1	2	3	4	5
i. It is easy to be in tune with what this student is feeling.	1	2	3	4	5
j. This child remains angry or is resistant after being disciplined.	1	2	3	4	5
k. Dealing with this child drains my energy.	1	2	3	4	5
l. When this child arrives in a bad mood, I know we're in for a long and difficult day.	1	2	3	4	5
m. This child's feelings toward me can be unpredictable or can change suddenly.	1	2	3	4	5
n. This child is sneaky or manipulative with me.	1	2	3	4	5
o. This child openly shares his/her feelings and experiences with me.	1	2	3	4	5

Family Involvement

32. Please answer the following questions about this child's parent(s)' or guardian(s)' involvement with the school. Questions refer to the child's primary caregiver(s). If both parents are involved, then answer the questions concerning both parents.

In the past year, how often (circle one):	Never	Once or twice a year	Almost every month	Almost every week	More than once per week
a. Has this child's parent called you or written a note to you?	1	2	3	4	5
b. Have you called or written a note to this child's parent?	1	2	3	4	5
c. Has this child's parent stopped by to talk to you? (e.g., at drop off or pick up)	1	2	3	4	5
d. Have you made a home visit?	1	2	3	4	5
e. Has this child's parent been invited to a group function exclusively for parents? (e.g., parent lunch, parent education program, PTA meeting)	1	2	3	4	5
f. Has this child's parent attended a group function exclusively for parents? (e.g., parent lunch, parent education program, PTA meeting)	1	2	3	4	5
g. Has this child's parent been invited to visit school for a special event? (e.g., field trip, party)	1	2	3	4	5
h. Has this child's parent attended a special event? (e.g., field trip, party)	1	2	3	4	5
i. Has this child's parent been invited to parent-teacher conferences?	1	2	3	4	5
j. Has this child's parent attended parent-teacher conferences?	1	2	3	4	5
k. Has this child's parent sent materials to classroom?	1	2	3	4	5
l. Has this child's parent volunteered at school/center?	1	2	3	4	5

33. What grade do you expect this child to be in next year? **Check one.**

☐ 1st grade ☐ 2nd grade ☐ Other **Specify:** _____

34. Where will this child attend school next year?

Next year's school, city, and state

35. Today's date: ____/____/2004
Month Day Year

Thank you for your time!

**NCEDL MULTI-STATE STUDY OF PRE-KINDERGARTEN
FAMILY QUESTIONNAIRE**

Please complete these questions about your preschool child who brought this home. This form should be completed by the adult who takes the most care of and knows the child the best.

1. What is your relationship to this preschooler? **Please check the one best answer**
☐ a. mother ☐ b. father ☐ c. grandmother ☐ d. foster parent ☐ e. other: *Specify:* _____

2. How did you first learn about the pre-kindergarten or preschool program this child attends?
Please check the one best answer.

- ☐ a. Contacted directly by the program
☐ b. From friends, neighbors, relatives, or coworkers
☐ c. Attended by older child
☐ d. Newspaper, advertisements, or yellow pages
☐ e. Materials sent by program
☐ f. Social service caseworker
☐ g. Church, synagogue or other place of worship

3. In which arrangements did this child spend time **last year**? **Check all that apply and indicate hours per week**

	How many hours per week?
☐ a. The same preschool setting s/he attends now	<i>If Yes →</i>
☐ b. Head Start	<i>If Yes →</i>
☐ c. Preschool at a <u>public school</u> (not Head Start)	<i>If Yes →</i>
☐ d. Preschool <u>not</u> at a public school (not Head Start)	<i>If Yes →</i>
☐ e. Child care center (not Head Start, not in a public school)	<i>If Yes →</i>
☐ f. Care by a relative (for example, grandmother)	<i>If Yes →</i>
☐ g. Babysitter or nanny (not a relative)	<i>If Yes →</i>
☐ h. Family daycare (not in child's own home)	<i>If Yes →</i>
☐ i. At home with parent; no child care or preschool	

4. What is your preschooler's date of birth? ____/____/19____
Month Day Year

5. Is your preschooler a: ☐ a. girl ☐ b. boy

6. How would you rate this child's health in general? **Check only one.**
☐ a. poor ☐ b. fair ☐ c. good ☐ d. very good ☐ e. excellent

7. Does your preschooler have a disability or condition that makes him/her eligible for special services (an IEP) at school?
☐ yes ☐ no

8. Language your preschooler learned to speak first. **Please check only one.**
☐ a. English ☐ b. Spanish ☐ c. Other language _____

please specify
over →

10. Your preschooler's ethnicity. ***Please check all that apply.***

13. Who lives in your home? **Check all that apply.**

14. What is the highest level of education of this child's mother/female guardian living in this household?
Please check one.

15. Annual total family income from all sources. ***Please check one.***

16. Today's date: ____ / ____ / 2001
Month Day Year

ONCEDL Estudio Multi-Estatal de Pre-Kindergarten
Cuestionario para la Familia

Favor de completar estas preguntas sobre su niño o niña pre-escolar quien trajo este cuestionario a casa. Este formulario debe ser completado por el adulto que cuida más al niño y quien lo conoce mejor.

1. ¿Cuál es su relación con este niño pre-escolar? **Favor de marcar sólo una respuesta como la mejor.**
☐ a. madre ☐ b. padre ☐ c. abuela ☐ d. madre o padre de crianza ☐ e. otro: **Especifique:** _____

2. ¿Cómo primero supo del programa de pre-kindergarten o pre-escuela a que asiste este niño?
Favor de marcar sólo una respuesta como la mejor.

- ☐ a. Contacto directo por parte del programa
☐ b. De amistades, vecinos, parientes, o compañeros del trabajo
☐ c. Un niño mayor asistió al programa
☐ d. El diario, anuncios, o la guía telefónica
☐ e. Por medio de materiales que mandó el programa
☐ f. Por un trabajador Social
☐ g. La Iglesia, sinagoga u otro sitio religioso

3. ¿En cuales de las siguientes situaciones se quedaba este niño **el año pasado**? **Marque todos los aplicables e indique cuántas horas por semana**

	¿Cuántas horas por semana?
☐ a. El mismo pre-kinder a que asiste actualmente	Si es que sí →
☐ b. En un Head Start	Si es que sí →
☐ c. Un pre-kinder en la <u>escuela pública</u> (no un Head Start)	Si es que sí →
☐ d. Un pre-kinder <u>no</u> en la escuela pública (no un Head Start)	Si es que sí →
☐ e. Una guardería (no un Head Start, ni en la escuela pública)	Si es que sí →
☐ f. Cuidado por un pariente (por ejemplo, la abuela)	Si es que sí →
☐ g. Cuidado por una niñera (que no sea pariente)	Si es que sí →
☐ h. Una guardería en casa (no en la propia casa del niño)	Si es que sí →
☐ i. En casa con la madre o el padre; nada de cuidado aparte ni pre-kinder	

4. ¿Cuál es la fecha de nacimiento de su niño pre-escolar? ____/____/19____
 Mes Día Año

5. ¿Es su niño/a pre-escolar un/a: ☐ niña ☐ niño

6. ¿Cómo calificaría la salud de este niño por lo general? **Marque solamente uno.**
☐ a. mal ☐ b. pasable ☐ c. buena ☐ d. muy buena ☐ e. excelente

7. ¿Tiene su niño pre-escolar una deshabilidad o condición que le hace elegible para servicios especiales (un "IEP") en la escuela?
☐ sí ☐ no

8. El idioma que su niño pre-escolar aprendió a hablar primero. **Favor de marcar sólo uno.**
☐ a. inglés ☐ b. español ☐ c. otro idioma _____
favor de especificar

vea al otro lado →

9. El/los idioma(s) que su niño pre-escolar habla ahora en casa. **Favor de marcar todos los aplicables:**

☐ a. inglés

☐ b. español

☐ c. otro idioma

favor de especificar

10. Los orígenes étnicos de su niño pre-escolar. **Favor de marcar todos los aplicables.**

☐ a. Negro/Afro-Americano	☐ i. Chino
☐ b. Nativo-Americano/Indígena	☐ j. Filipino
☐ c. Blanco/Caucásico	☐ k. Japonés
☐ d. Isleño del Pacífico	☐ l. Coreano
☐ e. México-Americano, Chicano	☐ m. Vietnamés
☐ f. Puertorriqueño	☐ n. Indio (de la India)
☐ g. Cubano	☐ o. Otro Asiático
☐ h. Otro Hispano/Español/Latino	☐ p. Otro Especifique: _____

11. ¿Cuántas personas viven en su casa?..... _____

12. ¿Cuántas de las personas en su casa tienen **menos de 18 años**? _____

13. ¿Quiénes viven en su casa? **Marque todos los aplicables.**

☐ a. La mamá del pre-escolar	☐ e. El papá del pre-escolar
☐ b. La madrastra del pre-escolar	☐ f. El padrastro del pre-escolar
☐ c. La abuela del pre-escolar	☐ g. El abuelo del pre-escolar
☐ d. Otra mujer adulta	☐ h. Otro hombre adulto

14. ¿Cuál es el nivel de educación más alto de la madre/guardiana femenina de este niño que vive en esta casa? **Favor de marcar uno.**

☐ a. El octavo grado o menos	☐ g. Título de bachiller
☐ b. Una parte de la secundaria, sin graduarse	☐ h. Título de maestro
☐ c. Diploma de la secundaria o equivalente	☐ i. Título de doctorado (ej., M.D., J.D., Ph.D.)
☐ d. Algo de universidad, sin título	☐ j. Otro Especifique: _____
☐ e. Diploma de la secundaria o equivalente, más un certificado o entrenamiento técnico	_____
☐ f. AA, AS, título de dos años	☐ k. No hay madre/guardiana femenina en la casa

15. Ingreso anual familiar de toda fuente. **Favor de marcar uno.**

☐ a. \$5,000 o menos	☐ g. \$30,001 – \$35,000	☐ m. \$60,001 – \$65,000
☐ b. \$5,001 – \$10,000	☐ h. \$35,001 – \$40,000	☐ n. \$65,001 – \$70,000
☐ c. \$10,001 – \$15,000	☐ i. \$40,001 – \$45,000	☐ o. \$70,001 – \$75,000
☐ d. \$15,001 – \$20,000	☐ j. \$45,001 – \$50,000	☐ p. \$75,001 – \$80,000
☐ e. \$20,001 – \$25,000	☐ k. \$50,001 – \$55,000	☐ q. \$80,001 – \$85,000
☐ f. \$25,001 – \$30,000	☐ l. \$55,001 – \$60,000	☐ r. \$85,001 o más

Multi-State Study of Pre-Kindergarten

Kindergarten Phase

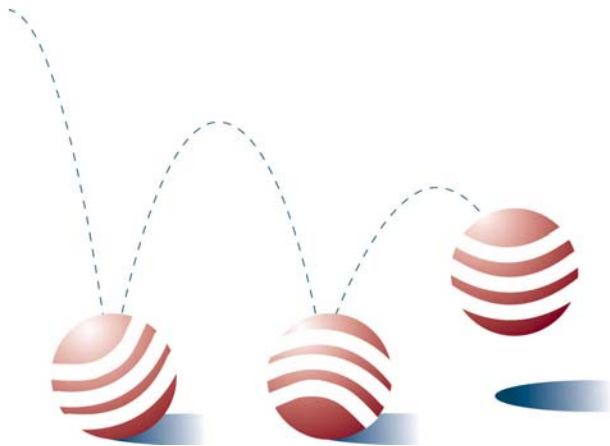

**Family Questionnaire
Spring of 2003**

To thank you for your participation, we will send you a \$10 gift certificate to Wal Mart when we receive your questionnaire.

*A project of
University of North Carolina at Chapel Hill
University of Virginia
University of California at Los Angeles*

*Funded by
U.S. Department of Education*

*If you have questions,
please call toll free: (866) 828-0269 or
e-mail: diane_early@unc.edu*

When completing this questionnaire, think about the child whose name appears on the front cover. The form should be completed by the adult who takes the most care of and knows the child best.

1. What is your relationship to this child? *Please check the one best answer.*

☐ a. mother ☐ b. father ☐ c. grandmother ☐ d. foster parent ☐ e. other: *Specify.* _____

Preparation to Enter Kindergarten

2. Is your child in kindergarten? ☐ Yes ☐ No *IF NO, skip to question 4*

3. When your child entered kindergarten, did you or a family member participate in...

Activity	Participated in activity? <i>Check one for each activity.</i>		
a. kindergarten registration	☐ Yes	☐ No	☐ Not offered
b. parent orientation to kindergarten	☐ Yes	☐ No	☐ Not offered
c. a tour of the school for parents	☐ Yes	☐ No	☐ Not offered
d. a visit by your child to the kindergarten classroom before starting school	☐ Yes	☐ No	☐ Not offered
e. a meeting with your child's teacher before school started	☐ Yes	☐ No	☐ Not offered

Relationship with Child's School

4. How often do you talk with your child's teacher either on the phone or in person? *Circle one.*

Never A few times At least once At least once Daily
(1) a year (2) a month (3) a week (4) (5)

5. How would you describe the degree of trust between you and this child's teacher? *Circle one.*

A great A little A little Much suspicion, Don't
deal of trust trust, suspicion and no trust know
between us (1) it's okay (2) mistrust (3) between us (4) (D)

6. How is the clarity of communication between you and your child's teacher? *Circle one.*

Very clear- Somewhat Somewhat confused - Very confused - Don't
it's easy for clear - it's difficult you often know
you to talk it's okay to understand misunderstand (D)
together (1) (2) each other (3) each other (4)

7. How would you describe the degree of agreement between you and this child's teacher?
Circle one.

We agree on We agree more We sometimes We always Don't
just about every often than disagree and disagree and are know
issue related not on most have conflict in conflict with (D)
to child (1) issues (2) between us (3) one another (4)

8. How would you describe your level of satisfaction with the interactions between you and your child's teacher? **Circle one.**

Very dissatisfied (1) Somewhat dissatisfied (2) Neither satisfied nor dissatisfied (3) Somewhat satisfied (4) Very satisfied (5) Don't know (D)

Home Life

9. In the past week how often did you..	Never	Once or twice	3 to 6 times	Every day
a) read a book with your child?	1	2	3	4
b) help your child practice letters and sounds?	1	2	3	4
c) work with your child to measure something?	1	2	3	4
d) explain to your child what a word meant?	1	2	3	4
e) show your child how to add and subtract?	1	2	3	4
f) read and respond to materials sent home from school?	1	2	3	4
g) talk with your child about school?	1	2	3	4
h) volunteer at or visit your child's school?	1	2	3	4
i) talk to your child about how he/she was feeling?	1	2	3	4
j) encourage your child to ask questions?	1	2	3	4
k) talk with your child about religious beliefs?	1	2	3	4

10. Who makes decisions about...	I decide alone, no discussion with child	I decide after discussing with child	Decide together after we discuss it	Child decides after discussing with me	Child decides alone, no discussion w/me	Does not apply
a) what clothes your child wears?	1	2	3	4	5	N
b) what time your child goes to bed at night?	1	2	3	4	5	N
c) what food your child eats?	1	2	3	4	5	N
d) which TV shows, videos or movies your child watches?	1	2	3	4	5	N

Adapted from Steinberg, et al., 1989

11. About how much time per day do you talk with your child? _____ hours and _____ minutes

12. How many minutes a day does your child usually spend reading a book at home? _____ minutes

13. How many minutes a day does your child usually spend doing homework (other than reading a book)? _____ minutes

Concerns About Your Child

14. Please rate this child on the following items according to how well they describe your child.
Circle one number for each statement.

	Not a Problem	Mild	Moderate	Serious	Very Serious Problem
a. Moody, irritable	1	2	3	4	5
b. Withdrawn	1	2	3	4	5
c. Angry, unable to control temper	1	2	3	4	5
d. Underachieving (not working to ability)	1	2	3	4	5
e. Fidgety, difficulty sitting still	1	2	3	4	5
f. Shy, timid	1	2	3	4	5
g. Delayed speech or language	1	2	3	4	5
h. Disturbs others while they are working	1	2	3	4	5
i. Anxious, worried	1	2	3	4	5
j. Poor concentration, limited attention span	1	2	3	4	5
k. Constantly seeks attention	1	2	3	4	5
l. Nervous, frightened, tense	1	2	3	4	5
m. Difficulty following directions	1	2	3	4	5
n. Overly aggressive to peers (fights)	1	2	3	4	5
o. Does not express feelings	1	2	3	4	5
p. Poorly motivated to achieve	1	2	3	4	5
q. Defiant, obstinate, stubborn	1	2	3	4	5
r. Unhappy, sad	1	2	3	4	5
s. Learning academic subjects	1	2	3	4	5
t. Too few friends	1	2	3	4	5

Health and School

15. Does your child have a serious or chronic health problem?

☐ No

☐ Yes, *IF YES: Describe* _____

16. How is your own health? *Circle one.*

Poor (1)

Fair (2)

Good (3)

Very Good (4)

Excellent (5)

17. How much does your child like school this year? *Circle one.*

Not at all (1)

A little (2)

A lot (3)

A whole lot (4)

18. How important to you is it that your child be able to add and subtract numbers by the end of this school year? **Circle one.**

Not at all (1) A little (2) A lot (3) A whole lot (4)

19. How many times has this child changed schools during the 2002-2003 school year?

(write '0' if the child has been in the same school all year) _____ school changes

Your Child's Strengths

20. Please rate the following items according to how well they describe your child's behavior.

Circle one number for each statement.

	Not at All	A Little	Moderately Well	Well	Very Well
a) Accepts things not going his/her way	1	2	3	4	5
b) Defends own views under pressure from other children	1	2	3	4	5
c) Completes work	1	2	3	4	5
d) Has many friends	1	2	3	4	5
e) Ignores teasing	1	2	3	4	5
f) Comfortable as a leader	1	2	3	4	5
g) Well organized	1	2	3	4	5
h) Is friendly towards peers	1	2	3	4	5
i) Accepts imposed limits	1	2	3	4	5
j) Functions well even with distractions	1	2	3	4	5
k) Makes friends easily	1	2	3	4	5
l) Copes well with failure	1	2	3	4	5
m) Expresses ideas willingly	1	2	3	4	5
n) Works well without adult support	1	2	3	4	5
o) Tolerates frustration	1	2	3	4	5
p) Questions rules that seem unfair/unclear	1	2	3	4	5
q) A self starter	1	2	3	4	5
r) Well liked by other children or classmates	1	2	3	4	5

Cuando complete este cuestionario, piense en el niño / niña cuyo nombre aparece en la hoja delantera. El adulto que más cuida y mejor conoce al niño / niña debe ser quién complete este formulario.

1. ¿Cuál es su parentesco al niño / niña? **Favor de marcar la respuesta más adecuada.**

☐ a. madre ☐ b. padre ☐ c. abuela ☐ d. padre/madre de crianza ☐ e. otro: **Especifique:** _____

Preparación para Entrar en Kindergarten

2. ¿Asiste su niño / niña a kindergarten? ☐ Sí ☐ No **SI NO, pase a pregunta #4**

3. Cuando su niño / niña entró en kindergarten, ¿participó Ud. o un miembro de la familia en... ?

Actividad	¿Participó en la actividad? Marque uno para cada actividad.		
a. la matrícula para kindergarten	☐ Sí	☐ No	☐ No había
b. orientación a kindergarten para los padres	☐ Sí	☐ No	☐ No había
c. una recorrida de la escuela para los padres	☐ Sí	☐ No	☐ No había
d. una visita para su niño / niña al salón de kindergarten antes de comenzar el año escolar	☐ Sí	☐ No	☐ No había
e. una reunión con la maestra de su niño / niña antes de comenzar el año escolar	☐ Sí	☐ No	☐ No había

Relación con la Escuela del Niño / Niña

4. ¿Qué tan a menudo habla Ud. con la maestra de su niño / niña, sea por teléfono o en persona?

Encierre uno con círculo.

Nunca (1) Algunas veces al año (2) Por lo menos una vez al mes (3) Por lo menos una a la semana (4) A diario (5)

5. ¿Cómo caracterizara Ud. el nivel de confianza entre Ud. y la maestra de su niño / niña?

Encierre uno con círculo.

Mucha confianza Entre nosotros /as (1) Un poco de confianza, está bien (2) Un poco de desconfianza (3) Mucha desconfianza, nada de confianza Entre nosotros /as (4) No sé (D)

6. ¿Qué tan clara es la comunicación entre Ud. y la maestra de su niño / niña?

Encierre uno con círculo.

Muy claro - hablar juntos es fácil para Uds. (1) Es más o menos claro está bien (2) Es un poco confuso - es difícil entenderse (3) Muy confuso - a menudo se entienden mal (4) No sé (D)

7. ¿Cómo describiría Ud. el nivel de acuerdo entre Ud. y la maestra de su niño / niña?

Encierre uno con círculo.

Estamos de acuerdo en casi todo lo que tiene que ver con el niño / niña (1) Estamos de acuerdo más que no en la mayoría de las cosas (2) A veces estamos en desacuerdo y tenemos conflictos (3) Siempre estamos en desacuerdo y siempre tenemos conflictos (4) No sé (D)

8. ¿Qué tan satisfecho se siente con las interacciones entre Ud. y la maestra de su niño / niña?

Encierre uno con círculo.

Muy No muy Ni satisfecho Algo Muy No sé
descontento (1) satisfecho (2) ni descontento (3) satisfecho (4) satisfecho (5) (D)

La Vida en Casa

9. Durante la semana pasada ¿cuántas veces hizo Ud. lo siguiente?...	Nunca	Una o Dos Veces	3 a 6 Veces	Cada Día
a) leer un libro con su niño / niña	1	2	3	4
b) ayudar a su niño / niña a practicar las letras o sonidos	1	2	3	4
c) trabajar con su niño / niña para medir algo	1	2	3	4
d) explicarle a su niño / niña el significado de alguna palabra	1	2	3	4
e) enseñarle a su niño / niña cómo sumar o restar	1	2	3	4
f) leer y responder a materiales que se los mandó la escuela	1	2	3	4
g) hablar con su niño / niña de la escuela	1	2	3	4
h) visitar o ser voluntario/a en la escuela de su niño / niña	1	2	3	4
i) hablar con su niño / niña de cómo él / ella se estaba sintiendo	1	2	3	4
j) alentar a su niño / niña a hacer preguntas	1	2	3	4
k) hablar con su niño / niña sobre las creencias religiosas	1	2	3	4

10. ¿Quién hace las decisiones sobre...	Yo hago la decisión sin platicar con el niño / niña	Yo hago la decisión después de platicar con el niño / niña	Decidimos juntos después de platicarlo	El niño / niña decide después de platicar conmigo	El niño / niña decide sin platicarlo conmigo	No corresponde
a) ...qué ropa que viste su niño / niña?	1	2	3	4	5	N
b) ...a qué horas se acuesta su niño / niña en la noche?	1	2	3	4	5	N
c) ...qué comida come su niño / niña?	1	2	3	4	5	N
d) ...cuáles programas de TV, videos o películas mira su niño / niña?	1	2	3	4	5	N

Adaptado de Steinberg, et al., 1989

11. ¿Aproximadamente cuánto tiempo platica Ud. con su niño / niña en un día?

_____ horas y _____ minutos

12. ¿Cuántos minutos al día pasa leyendo un libro su niño / niña, en casa? _____ minutos

13. ¿Cuántos minutos al día pasa su niño / niña en hacer la tarea (aparte del tiempo leyendo un libro)?

_____ minutos

Preocupaciones Referente a su Niño / Niña

14. Favor de evaluar este niño / niña según las cualidades siguientes a manera de que tan bien describen a su niño / niña. ***Encierre un número con círculo para cada frase.***

	No es Problema	Un Poco	Más o Menos	Serio	Problema Muy Serio
a. Malhumorado, irritable	1	2	3	4	5
b. Reservado, aislado	1	2	3	4	5
c. Enojado, incapaz de controlar el coraje	1	2	3	4	5
d. Rinde menos, en lo académico, de lo posible	1	2	3	4	5
e. Inquieto, dificultad en quedarse sentado y tranquilo	1	2	3	4	5
f. Tímido	1	2	3	4	5
g. Demora en el desarrollo de la habla o el lenguaje	1	2	3	4	5
h. Estorba a los demás cuando están trabajando	1	2	3	4	5
i. Ansioso, preocupado	1	2	3	4	5
j. Poca capacidad de concentración, atención limitada	1	2	3	4	5
k. Busca la atención de otra gente constantemente	1	2	3	4	5
l. Nervioso, miedoso, tieso	1	2	3	4	5
m. Dificultad en seguir instrucciones	1	2	3	4	5
n. Demasiado agresivo con los compañeros (pelea)	1	2	3	4	5
o. No expresa sus sentimientos	1	2	3	4	5
p. Poca motivación hacia el buen rendimiento	1	2	3	4	5
q. Contrario, necio, obstinado	1	2	3	4	5
r. Infeliz, triste	1	2	3	4	5
s. Aprendiendo temas académicos	1	2	3	4	5
t. Muy pocos amigos	1	2	3	4	5

La Salud y Escuela

15. ¿Su niño / niña tiene un problema serio o crónico de la salud?

☐ No

☐ Sí, ***SI ES QUE SÍ: Describe*** _____

16. ¿Cómo está de salud Ud.? ***Encierre uno con círculo.***

Mal (1)

Más o Menos (2)

Bien (3)

Muy Bien (4)

Excelente (5)

17. ¿Qué tanto le gusta la escuela a su niño / niña este año? ***Encierre uno con círculo.***

Nada (1)

Un poco (2)

Mucho (3)

Muchísimo (4)

18. ¿Qué tan importante se le hace que su niño / niña pueda sumar y restar números al fin de este año escolar? **Encierre uno con círculo.**

Nada (1) Un poco (2) Muy (3) Extremadamente (4)

19. ¿Cuántas veces ha cambiado de escuela este niño / niña durante el año escolar 2002-2003?

(escriba '0' si el niño / niña ha asistido a la misma escuela todo el año)

_____ cambios de escuela

Las Virtudes de su Niño / Niña

20. Favor de calificar las frases siguientes según lo bien que describen el comportamiento de su niño / niña. **Encierre un número con círculo para cada frase.**

	De Ninguna Manera	Un Poco	Más o Menos Bien	Bien	Muy Bien
a) Acepta cuando las cosas no van de la manera que le gustaría	1	2	3	4	5
b) Defiende sus propias perspectivas ante la presión de otros niños	1	2	3	4	5
c) Completa su trabajo	1	2	3	4	5
d) Tiene muchos amigos	1	2	3	4	5
e) Lo ignora cuando se le hace burla	1	2	3	4	5
f) Cómodo con el papel de líder	1	2	3	4	5
g) Bien organizado	1	2	3	4	5
h) Amigable con los compañeros	1	2	3	4	5
i) Acepta los límites que se le imponen	1	2	3	4	5
j) Trabaja bien aún con distracciones	1	2	3	4	5
k) Hace amistades fácilmente	1	2	3	4	5
l) Sabe salir adelante ante un fallo	1	2	3	4	5
m) Expresa sus ideas con voluntad	1	2	3	4	5
n) Trabaja bien sin el apoyo de un adulto	1	2	3	4	5
o) Tolera la frustración	1	2	3	4	5
p) Cuestiona reglas que le parecen injustas / no claras	1	2	3	4	5
q) Se sabe motivar solo	1	2	3	4	5
r) Le cae bien a los otros niños / compañeros de clase	1	2	3	4	5

Additional Notes for Clarification for the **ECERS-R**
USED FOR PRE-K YEAR

<u>Item</u>	<u>Note</u>
General Notes for ECERS-R	In calculating whether materials or activities are available for a <i>substantial portion of the day</i>, be sure to ask the teacher questions that give you a reasonable estimate of what happens during the times not observed. Calculate substantial part of the day based on what you observed, plus what the teacher says is usually done during the rest of the time. For a full-day program (8 hours or longer), credit for <i>substantial portion of the day</i> can be given if the program is "off" by 10 minutes or less when calculating a third of the time the program is open. In North Carolina, for Head Start programs with wrap around child care programs that are under one license, use the total day as a basis for calculating the "substantial portion".. In all items involving any type of interaction, "staff" refers to those adults that are in the classroom and who work with the children daily (or almost daily), for a substantial part of the day. This can include volunteers, if they are in the classroom for the required amount of time. Adults who are in the classroom for short periods of the day, or who are not a regular daily part of the classroom, do not count in evaluating whether the requirements of the item are met. For example, if a therapist, parent, or a director of a program comes into the classroom and interacts with children, for short or irregular periods, these interactions do not count in scoring the item. Terms such as "many" or "variety" are used throughout the scale. We have provided numbers to guide decision making for many of these terms. However, the actual number required will depend on number of children enrolled, and the ages and abilities of those children. In cases where there are small groups of children, the numbers provided are likely to be reasonable. However, in classrooms with 14 or more children, more materials may be needed.
1. Indoor space	5.1 To assess whether indoor space is "ample", consider the various activity areas as well as routine care areas. For example, look to see if the block or housekeeping areas allow plenty of free movement for children to play, as well as for storage and use of the materials and equipment needed in the area. Do not give credit for ample space if 2 activity areas are crowded, even if there is ample space for routines. 5.3 To give credit for this indicator, the classroom and the bathroom (including toilet stalls) must be accessible to individuals with disabilities. Doorways must be 32 inches wide. The door handles must be operable with limited use of hands. The entrance door threshold should be 1/2" high or less and, if over 1/4", must be beveled to make it easier to roll over. However, access to the various play areas in the room is considered under item 4, "Room arrangement", and not in this item. Adaptations to toilets (Ex., bars to help with stability) are considered in Item 2, indicators 3.3 & 5.3. If there are two or more bathrooms for the classroom, only one of them must be accessible. Accessibility to the building itself, and to the floor where the classroom is located, is also considered under this indicator.
2. Furniture	Remember to consider furnishings for play, and not just routine care furnishings, when scoring all indicators in this item. 3.2 Sturdiness is a property of the furniture itself (i.e., will not break, fall over or collapse when used). If sturdy furniture is placed so that it can be easily knocked over, this is a problem with safety, not the sturdiness of the furniture. 5.1 Children's feet should be able to touch the floor (not necessarily flat on the floor) while seated (but children should not have to perch on edge of chair to touch floor. Children also need to be able to rest their elbows on the table and fit their knees comfortably under the table . rate here also if chairs and/or tables are too small for the children. Check child-sized several times during observation, including when all children are seated together, such as at lunch.) If 75% of children are able to use child-sized tables and chairs, give credit for this indicator. This indicator only addresses tables and chairs for children. If cubbies or other furnishings present problems due to size, consider this under 7.1. 5.2 Don't be overly perfectionistic when scoring this indicator. If there is only a very minor problem that does not create a likely safety hazard, then give credit for this indicator. For example, if a chair or table is slightly wobbly, but will not collapse or cause falls, or if a vinyl covered couch is slightly worn, but foam is not exposed, then do not count off for these small things, unless there are a substantial number of small problems.

3. Furnishings for relaxation and comfort	5.1 & 5.2	If there are 2 or more cozy areas, each area does not need to meet the requirements of these indicators. However, there must always be one area that is <i>not</i> used for active physical play. A combination of all areas can be used to judge whether a cozy area can be used for a substantial portion of the day.
	5.2	The cozy area can be used for short periods as a group space (e.g., for dancing or circle time) but it should be protected from active play for most of the day. It should be away from active play equipment and have (through placement or a barrier) protection from active children. It should not be located where there is a lot of traffic. Staff should be diligent to ensure that active children do not interfere with a child in the cozy area by jumping on or running into the child who is relaxing.
	5.3	Include soft toys.
4. Room arrangement	1.2	Do not score 1 unless area is very difficult to supervise. Take ages of children into consideration when deciding on a score.
	5.2	Look for a separation in physical space, actual distance between active or noisy centers and the more quiet centers. A barrier, such as open shelves, does not sufficiently cut down on noise.
	7.2	To get credit for this indicator, <i>almost</i> all materials in all centers must be organized for independent use. Labels are not required in all areas. Other examples that apply are: shelves not overcrowded, see-through or labeled containers used to store toys, materials such as puzzles and games easy to take off shelves, sets of materials in bins when needed, containers with tops easily opened by children.
5. Space for privacy	3.2	All spaces used for privacy must be easily supervised by staff.
	5.1	Staff must enforce the protection rule, if needed, in order to be given credit for this indicator.
	5.2	This indicator applies only to the space "set aside" for privacy in 5.1. If credit is not given for 5.1, then credit can not be given for 5.2.
6. Child related display	1.2	Materials must be meaningful to the children to be considered appropriate.
	3.1	Consider only the display in the room(s) where children spend the majority of the time.
	5.1	The first part of this indicator requires that a relationship exist between what is displayed and the activities that the current group of children is experiencing. It also requires that the children themselves be represented in the display. So, for instance, if the group is talking about the season of the year, a science project they are doing, or an upcoming field trip, these things should be represented in the display. The intent here is for the teacher to use the display for children as a teaching tool that changes as topics of interest change, and that adds more information to the children's experiences. Ask if any of the display relates to topics of interest covered within the last month. Also look to see if there are photos of the children in the group on display, or self-portraits, or a height-chart with names. Photos of the children are not required, but the display should relate to the children in the group (e.g., stories dictated by children, charts done with children's input).
	5.2	If 50/50, or too close to tell, give credit for most of the display done by children.
	7.2	Three-dimensional work must have height, width and depth. The children must be able to build up and out as they make "junk", styrofoam or wood sculptures, or use clay or play-dough (but not as in using cookie cutters with play-dough). Gluing things to a flat surface (as in gluing material scraps or styrofoam "peanuts" to a flat piece of paper or cardboard) is not counted as 3-D.
		All spaces regularly used for gross motor activities should be considered in scoring this item. As indicated in the original note printed in the ECERS-R, safety of gross motor equipment is included in this item.
	3.2	A space can be considered generally safe even if it can not be easily supervised. The ability to supervise space is not considered in this item. Note that the requirements for verifying the resilience of materials not covered in the chart on the Playground Information Sheet (such as poured or installed foam or rubber surfaces) is as follows: the child care provider must provide written proof of meeting ASTM 1292 requirements for the material used under equipment.
7. Space for gross motor	5.1	Classroom space can count as "some indoor space", but only if the space is reasonably large and open (through moving furniture, if necessary) or hallways can be used. In some areas, where the climate is never extreme and a covered outdoor area can be used year-round, this can also count as some indoor space. Consider all spaces used at any time for gross motor play including hallways, covered patios, parking lots, etc.
	5.3	To score this indicator, observe to see that the various activities in the gross motor space do not interfere with each other (for example, that children are not in great danger of tripping over toys as they run across the space, that children coming down a slide will not run into anything, or that wheel toys do not usually go through areas of other types of play and "run people down".)

8. Gross motor equipment	3.1	Programs in session for more than 4 hours/day must have at least 1 hour of access to gross motor equipment daily.
	3.3	In a mixed-aged group, appropriate equipment must be available for the different abilities represented. Consider especially the appropriateness of the stationary equipment such as climbers, since they are permanent installations and always accessible.
	5.1	Consider both portable and stationary equipment.
	5.2	To meet the requirement for a “variety of skills”, there should be 7-9 different skills that are obviously developed through the equipment children can use. Generally 1 piece of equipment will not provide this variety, but in the case of a very complex climber the indicator might be true. Other examples of skills, besides those listed in the example, might include pulling/pushing, hanging by arms, swinging, jumping, hopping, turning a jump rope, operating a hula hoop, tossing things into containers, catching, throwing, kicking, etc. Observe to see how many skills the equipment encourages. List them. Consider both portable and stationary equipment.
	7.2	Consider ages of children and what would challenge them to determine whether equipment stimulates skills on different levels.
9. Greeting/ departing	5.1	Observe greeting very carefully to see if each child is actually greeted, and that the greeting is personal and positive (e.g. caregiver makes eye contact and smiles, uses child's real name or nickname, says something to child or asks something).
10. Meals/ snacks	1.2, 3.2	For NC assessors, the intent of this indicator is to determine whether the correct components of a meal or snack are being served to the children. No analysis of the nutritional value of foods served is necessary. Use the Food Guide to determine whether the components are present. Personal dietary preferences of the assessor (e.g., whole grain vs. white breads; fresh vs. canned vegetables, high vs. low sugar or fat content, etc.) are not to be used in determining the quality of the foods served.
	1.3	In the case where snack time is flexible and children come and go throughout a period of time, the same sanitary conditions are required (i.e., table sanitized between children using same places, children's hands washed, etc.)
11. Nap/rest	3.2	“Not crowded” means the cots/mats are at least 18 inches apart, unless separated by a solid barrier.
	7.2	Credit can be given when children can be happily occupied by reading a book or playing quietly while on their cots.
12. Toileting/ diapering	1.1 & 3.1	If the same sink is used by either children or adults for both diapering/toileting and food-related routines (including toothbrushing) or to wash toys/other classroom equipment, it must be sanitized by spraying sink and faucets with a bleach solution after diapering/toileting. If the facility permits sinks to be designated for specific purposes, then this should be done (for example, sinks near toilets should be used for toileting handwashing, while sinks in classroom are used for food-related purposes). If children use toilet, wash hands and then immediately sit down for meal/snack, contamination of children's hands at toileting sink must be minimized, for example by having children turn off water with paper towel or having adult turn off faucets. However, children do not have to wash their hands twice—once at the toilet sink, and once at the food sink.
	3.3	75% of children's hands washed and 75% of adults hands washed
	3.5	Adequate supervision means that teachers check to be sure that toilet sanitary conditions are maintained (ex. toilets flushed, toilet paper/towels and soap provided) and ensure that children complete sanitary procedures properly (ex., wipe properly, wash hands).
	7.1	To be considered child-sized, toilets and sinks must be usable, with no adaptations (e.g., steps), by at least 75% of children in group.

13. Health practices	1.1	The stringent requirement in the ITERS, that all sand areas be covered when not in use, is not required in the ECERS-R. Since older children are less likely to eat the sand and its contaminants than younger children, covered sand areas/boxes are not required, but there should be no signs of animal contamination. Since this indicator does not handle sanitation required for diapering and toileting, the examples related to diapers and diapering/toileting in this indicator should be omitted.
	3.1	Be sure to read the note in the book on this indicator. This item does not consider hand-washing related to toileting or meals..
	3.2	Examples for this indicator include: - tissues available and used when necessary - same washcloth/towel not used for more than one child - children wash hands if soiled after outdoor play, messy activities - soap available and used - toothbrushes stored to avoid contamination
	7.2	If the "same sink" is used for both toothbrushing and toileting, without sanitizing, consider this under item 12, Toileting/diapering.
14. Safety practices	1.1	Bleach and water solution, used to sanitize surfaces, does not have to be locked, but must be stored out of reach of young children. It can not be sprayed where it can be breathed in by children, for example, while children are seated around the table. Any electrical outlets or wires present where children are allowed to play must be safe (e.g. outlets covered, cords secure).
	1.3	If this is scored Yes, then it is likely that items 29 and 30 (Supervision items) will also receive scores of 1. Note that to score this indicator "Yes", supervision must be inadequate both indoors <i>and</i> outdoors.
15. Books and pictures	5.1	Note that all the books do not have to be in the book area. They may be located in various areas of the room. Be sure to look for them. A "wide selection" means at least 20 books, but more might be required if there is a large group of children. <i>Approximately</i> 3-4 of each type (games count as a representation of abilities) but this rule is flexible and there might be more or less of any category. However each type must be represented.
	5.4	Violence or other frightening content in books is not considered "appropriate" for children in the group. No credit should be given for this indicator if this type of content is present in materials that are considered in this item.
	5.5	Informal reading must be observed at least once to get credit for this indicator.
16. Encourage children to communicate	3.1	Activities used by staff to encourage children to communicate require that staff take action to draw communication from a child. During free play, for example, the teacher might ask the child to talk about what he/she is doing or making. During circle time, finger plays, songs, reciting nursery rhymes, or helping to tell a story would count towards meeting this indicator.
17. Using language to develop reasoning skills		For this item, as in all items involving any type of interaction, "staff" refers to those adults that are in the classroom and who work with the children daily (or almost daily), for a substantial part of the day. This can include volunteers, if they are in the classroom for the required amount of time. Adults who are in the classroom for short periods of the day, or who are not a regular daily part of the classroom, do not count in evaluating whether the requirements of the item are met. For example, if a therapist, parent, or a director of a program comes into the classroom and interacts with children, for short or irregular periods, these interactions do not count in scoring the item.
	5.1	At least one instance must be observed.
	5.2	At least two instances must be observed.
18. Informal use of language	1.1	Change the word "primarily" to "only".
19. Fine motor	5.1	"Many" means at least 3 of each type.
20. Art	5.1	"Many" requires that some materials be accessible from at least 4 of the categories for a substantial portion of the day, and drawing materials is required as 1 of the 4.

	5.2	Observe to see whether children have access to the art materials and if they actually use them in their own creative way. You may also look at the art work displayed in the room. If you see many teacher directed projects displayed, and little individual work being done by the children during the observation, do not give credit for this indicator. If you are not sure, ask the teacher how often projects like those in the display are done. If projects that meet the requirements of 3.2 are used no more than once or twice a week, and you observe many instances of children using art materials in their own, creative way, you may give credit for this indicator, even if much of the work displayed is of the "project" variety. Additional questions such as, "How do you choose what to put on the bulletin board?" may also be helpful.
21. Music/ movement	5.1	To give credit for "many", there must be enough musical instruments for at least half of the children to use at once <i>plus</i> some music to listen to, such as a tape player with tapes or music on a computer program. Dance props must be accompanied by something that makes music. For a tape player to be accessible, older children should be able to use the tapes independently, but younger children may require help from the teacher. The <i>many</i> music materials must be <i>accessible</i> for at least 30 minutes daily to give credit for this indicator.
22. Blocks		Usually the block area will be in the classroom being observed. However, in a center where there is a block area that is outside the classroom (such as in a multi-purpose room or outdoors), that is accessible to the children on a regular basis, this should be considered when scoring this item. Interlocking blocks (whether large or small, indoors or outdoors) are not considered in this item.
	5.1	Add the word "space" to the indicator, so that it now reads, "Enough space, blocks and accessories..." This indicator requires enough blocks for 3 children to build sizable structures independently.
	5.3	The block area may include other types of small blocks rated under fine motor, Item 19, in addition to blocks, and still be given credit for being a special block area. Credit cannot be given if other materials, such as other fine motor toys, art materials, pretend play materials, carpentry tools, etc. are included with the blocks. However, if there are a few hardhats in the block area that do not take up space needed for block play or interfere with block construction, and the major materials in the area are blocks and accessories, credit can be given.
	5.4	If two or more block areas are considered in calculating accessibility for a substantial part of the day, all block areas must meet requirements of 5.1-5.3 to be counted. The other block area may be outdoors or in another indoor space.
23. Sand/water		Wood chips can be considered a substitute for sand if the material can be used in the same way as sand — that is, easily poured or dug in — and if children would not get splinters when using the material.
	3.2	Correct this indicator to read: Some sand/water toys accessible.
24. Dramatic play	5.1	To give credit for this indicator, there must be many general dramatic play materials, including dress-up clothes for men and women. Many dress-up clothes are not required. The printed note in the scale is meant to provide examples and should not be taken as requirements. Hats, purses and shoes count as clothing.
	5.2	Consider materials both indoors and outdoors when calculating accessibility for a substantial portion of the day.
	5.3	Consider small toys that children can pretend with, both indoors and outdoors, when scoring this indicator (e.g., small dolls, trucks, animals, etc)
	5.4	Organized storage means that materials of the same type (e.g., dolls, dress-ups, cooking props, food props, etc.) are generally stored together (e.g., in containers or in furniture). Storage does not have to be perfectly neat.
	7.2	Consider dolls as props for this indicator.
25. Nature/ science		The term <i>collections of natural objects</i> requires that there are groups of similar objects, that can be classified together. For example, look for a collection of seashells, fall seeds, leaves, pine cones. Sufficient numbers of the objects in each collection must be present to allow children to explore similarities and/or differences. Since the collections are of natural things, plastic collections (e.g., insects, zoo animals) are not considered here, but these materials might be counted as science/nature toys. Collections must be accessible to the children if they are to count towards meeting the 5.2 indicator requiring a substantial portion of the day.
	5.1	"Many" means <i>approximately</i> 3-5 of each type. However, this can vary, as long as each type is represented. In some cases you might give credit for more than 3-5 of one type and less than 3-5 of another. This will also depend on the ages and number of children in the group.
	5.4	Must observe one example or see clear evidence (i.e., pictures, drawings).

26.Math/ number	3.1	Look around the room carefully to find math materials because they might not be organized into a center.
	5.1	"Many" means <i>approximately</i> 3-5 of each type. However, this can vary, as long as most types are represented. In some cases you might give credit for more than 3-5 of one type and less than 3-5 of another. This will also depend on the ages and number of children in the group.
	5.4	The intent of this indicator is for adults to link math and numbers to practical life events in the children's daily schedule. Therefore, look for use of numbers during meals or getting ready for meals (such as setting the table), transition times, using a timer to take turns, counting who is absent, arriving/leaving, etc. Do not count play activities such as number games or computer games in determining the score for this indicator. "Number talk" or number experiences as part of practical life events should be observed <i>more than once</i> during the observation to give credit for this indicator.
27. Use of TV, etc.	1.1 & 3.1	To judge whether materials are non-violent and culturally sensitive, we need to consider the content of the materials. Unfortunately, many children's videos or TV programs contain violence and are therefore inappropriate even though they have been created for the children's market. This may include some natural wildlife productions and cartoons.
	3.3	The intent of this indicator is to ensure that children participate in play in which they can actively be creative, imaginative, and have hands-on experiences with real materials rather than spending inordinate amounts of time watching TV or playing computer games. The amount of time given in the example is a general indication of a required time limitation and can vary by 10-20 minutes. .
28. Promoting accept. of diversity	5.2	Examples include different kinds of dolls, puppets and block/dramatic play people.
29. Supervision of gross motor activities		To score this item, consider: <i>ALL</i> teachers supervising gross motor activities; <i>ALL</i> children of similar age/abilities as those in group you are observing. Notice adult/child ratios and whether adults are supervising the most hazardous areas/activities adequately.
	1.1	The <i>example</i> in this indicator, of children being left unattended even for a short period of the time, means that <i>no</i> adult is present to supervise children.
32. Staff-child interactions	5.3	Sympathetic response means that staff notice and validate a child's feelings, even if the child is showing emotions that are often considered unacceptable, such as anger or impatience. The feelings should be accepted although inappropriate behaviors, such as hitting or throwing things, should not be allowed. A sympathetic response should be provided in most, but not necessarily all, cases. If children are able to solve minor problems themselves, then teacher response is not needed. The observer needs to get an overall impression of the response of the staff. If minor problems persist and are ignored or if staff responds in an unsympathetic manner, give no credit for this indicator.
34. Schedule	3.2	Schedule must be posted in the room to get credit. Outside the door is not sufficient since schedules must be accessible to substitutes and new staff.
	5.4	"Long period of waiting" means waiting without any activity for three minutes or more, (e.g., running around aimlessly, whole group sitting at tables waiting for lunch, waiting in line to go out or to use the bathroom).
35. Free play	3.2	Ensuring that health and safety requirements are met occurs in "Toileting/diapering", "Meals/snacks", and "Health practices"; safety requirements are assessed in "Space for gross motor play" and "Safety practices". This indicator, as part of the "Free play" item, is to ensure that children are supervised to minimize major hazards to their health and safety (e.g., children are supervised so that they do not play with matches or swallow poisons, etc.). Do not score <i>No</i> unless supervision during free play is extremely lax.
36. Group time	7.2	To give credit for this indicator, the assessor must observe to get a general impression of what the children experience. One staff might be stronger in educational interaction than another, but if the stronger teacher is strong enough, credit can be given.

37. Provisions
for children with
disabilities

Note that this item can not be scored unless there is a child in the group with an identified and diagnosed disability, with a completed assessment. If the diagnosis and assessment have not been completed on the child, score this item *N/A*. The teacher need not point out the child or tell the observer about the particulars of the disability for this item to be scored. As you question the teacher about how the identified child's special needs are handled, you do not need to know which child is being discussed. Do not ask the teacher to give you any information that a child's parents might consider private. Assume that parents want their privacy protected and simply ask the questions needed to score.

Additional Notes for Clarification for the **ECERS-R**
Notes used for pre-k plus the new notes for kindergarten
(Use in a new copy of the ECERS-R)

General		In calculating whether materials or activities are available for a <i>substantial portion of the day</i> , be sure to ask the teacher questions that give you a reasonable estimate of what happens during the times not observed. Calculate substantial part of the day based on what you observed, plus what the teacher says is usually done during the rest of the time.
		For a full-day program credit for <i>substantial portion of the day</i> can be given if the program is "off" by 10 minutes or less when calculating a third of the time the program is open.
		For kindergarten, "staff" refers to adults you observe who work with the children in our class at least weekly (special rules apply for item 37). Consider this when rating interaction items. There is no need to try to discover anything about "special" teachers who do not work with the class on the day you are there.
		Terms such as "many" or "variety" are used throughout the scale. We have provided numbers to guide decision making for many of these terms. However, the actual number required will depend on number of children enrolled, and the ages and abilities of those children. In cases where there are small groups of children, the numbers provided are likely to be reasonable. However, in classrooms with 14 or more children, more materials may be needed.
1. Indoor space	5.1	To assess whether indoor space is "ample", consider the various activity areas as well as routine care areas. For example, look to see if the block or housekeeping areas allow plenty of free movement for children to play, as well as for storage and use of the materials and equipment needed in the area. Do not give credit for ample space if 2 activity areas are crowded, even if there is ample space for routines.
	5.3	To give credit for this indicator, the classroom and the bathroom (including toilet stalls) must be accessible to individuals with disabilities. Doorways must be 32 inches wide. The door handles must be operable with limited use of hands. The entrance door threshold should be 1/2" high or less and, if over 1/4", must be beveled to make it easier to roll over. However, access to the various play areas in the room is considered under item 4, "Room arrangement", and not in this item. Adaptations to toilets (Ex., bars to help with stability) are considered in Item 2, indicators 3.3 & 5.3. If there are two or more bathrooms for the classroom, only one of them must be accessible. Accessibility to the building itself, and to the floor where the classroom is located, is also considered under this indicator.
2. Furniture		Remember to consider furnishings for play/learning, and not just routine care furnishings, when scoring all indicators in this item. Desks are acceptable. Consider whether they are child-sized and whether they can be used by children with disabilities.
	3.2	Sturdiness is a property of the furniture itself (i.e., will not break, fall over or collapse when used). If sturdy furniture is placed so that it can be easily knocked over, this is a problem with safety, not the sturdiness of the furniture.
	5.1	If children eat in a cafeteria, consider the size of the tables and chairs they use there when scoring this indicator. If the lunchroom furniture is too large for them, but the furniture in their classroom(s) is fine for almost all children, you can score this indicator "yes." Children's feet should be able to touch the floor (not necessarily flat on the floor) while seated (but children should not have to perch on edge of chair to touch floor). Children also need to be able to rest their elbows on the table and fit their knees comfortably under the table. Rate here also if chairs and/or tables are too small for the children. Check several times during observation, including when all children are seated together, such as at lunch. If 75% of children are able to use child-sized tables and chairs, give credit for this indicator. This indicator only addresses tables and chairs for children. If cubbies or other furnishings present problems due to size, consider this under 7.1.
	5.2	Don't be overly perfectionistic when scoring this indicator. If there is only a very minor problem that does not create a likely safety hazard, then give credit for this indicator (for example, if a chair or table is slightly wobbly, but will not collapse or cause falls, or if a vinyl covered couch is slightly worn, but foam is not exposed).
3. Furnishings for relaxation and comfort	5.1 & 5.2	If there are 2 or more cozy areas, each area does not need to meet the requirements of these indicators. However, there must always be one area that is <i>not</i> used for active physical play. A combination of all areas can be used to judge whether a cozy area can be used for a substantial portion of the day.
	5.2	The cozy area can be used for short periods as a group space (e.g., for dancing or circle time) but it should be protected from active play for most of the day. It should be away from active play equipment and have (through placement or a barrier) protection from active children. It should not be located where there is a lot of traffic. Staff should be diligent to ensure that active children do not interfere with a child in the cozy area by jumping on or running into the child who is relaxing.
	5.3	Include soft toys.

4. Room argt.	1.2, 3.2	Visual supervision of all play/learning areas is included here. Do not score 1 unless area is very difficult to supervise. Take ages of children into consideration.
	5.2	Look for a separation in physical space, actual distance between active or noisy centers and the more quiet centers. A barrier, such as open shelves, does not sufficiently cut down on noise.
	7.2	To get credit for this indicator, <i>almost</i> all materials in all centers must be organized for independent use. Labels are not required in all areas. Other examples that apply are: shelves not overcrowded, see-through or labeled containers used to store toys, materials such as puzzles and games easy to take off shelves, sets of materials in bins when needed, containers with tops easily opened by children.
5. Space for privacy	3.2	All spaces used for privacy must be easily supervised by staff.
	5.1	Staff must enforce the protection rule, if needed, in order to be given credit for this indicator.
	5.2	This indicator applies only to the space "set aside" for privacy in 5.1. If credit is not given for 5.1, then credit can not be given for 5.2.
6. Child related display	1.2	Materials must be meaningful to the children to be considered appropriate.
	3.1	Consider only the display in the room(s) where children spend the majority of the time. Display in halls should not be counted.
	5.1	Children's work products can be counted. "Relates to current activities" means that a relationship exists between what is displayed and the activities that the children have been experiencing. If the group is talking about the season of the year, have done a science project, or have gone on a field trip, these things could be represented in the display. Ask about topics covered within the last month. "Relates to children in group" means that the children themselves are represented in the display. Look to see if there are photos of the children in the group on display, or self-portraits, stories dictated by children, charts done with children's input, or a height-chart with names. Photos of the children are not required.
	5.2	If 50/50, or too close to tell, give credit for most of the display done by children.
	7.1	Creative academic work such as children's own stories, sentences, or ideas can be counted.
	7.2	Three-dimensional work must have height, width and depth. The children must be able to build up and out as they make "junk", styrofoam or wood sculptures, or use clay or play-dough (but not as in using cookie cutters with play-dough). Gluing things to a flat surface (as in gluing material scraps or styrofoam "peanuts" to a flat piece of paper or cardboard) is not counted as 3-D.
		In kindergarten, all spaces used at least once per week for gross motor activities should be considered in scoring this item. As indicated in the original note printed in the ECERS-R, safety of gross motor equipment is included in this item.
7. Space for gross motor	1.2	An unfenced area for kindergartners is still very dangerous. There should either be a fence around the playground(s) OR around the entire school property.
	3.2	Refer to playground safety guidelines provided. Poured or installed foam or rubber surfaces used under equipment can be considered safe unless they look deteriorated or damaged. A space can be considered generally safe even if it can not be easily supervised (consider this in scoring item 29).
	5.1	Classroom space can count as "some indoor space," but only if the space is reasonably large and open (through moving furniture, if necessary) or hallways can be used. In some areas, where the climate is never extreme and a covered outdoor area can be used year-round, this can also count as some indoor space. Consider all spaces used at any time for gross motor play including hallways, covered patios, parking lots, etc.
	5.3	Observe to see that the various activities in the gross motor space do not interfere with each other: children are not in great danger of tripping over toys as they run across the space, that children coming down a slide will not run into anything, or that wheel toys do not usually go through areas of other types of play and "run people down."

8. Gross motor equipment	3.1	Kindergartens in session for more than 4 hours/day and less than 6.5 hours must have at least 45 minutes of access to gross motor equipment daily. If the program is in session for 6.5 hours/day or more, there must be at least one hour of access.
	3.3	In a mixed-aged group, appropriate equipment must be available for the different abilities represented. Consider especially the appropriateness of the stationary equipment such as climbers, since they are permanent installations and always accessible.
	5.1	Consider both portable and stationary equipment.
	5.2	To meet the requirement for a "variety of skills", there should be 7-9 different skills that are obviously developed through the equipment children can use. Generally 1 piece of equipment will not provide this variety, but a very complex climber might be able to. Other examples of skills, besides those listed in the example, include pulling/pushing, hanging by arms, swinging, jumping, hopping, turning a jump rope, operating a hula hoop, tossing things into containers, catching, throwing, kicking, etc. Observe to see how many skills the equipment encourages. List them. Consider both portable and stationary equipment.
	7.2	Consider ages of children and what would challenge them to determine whether equipment stimulates skills on different levels.
9. Greeting/ departing	3.1, 5.1	Make an effort to see the children arrive even if they convene in a cafeteria or gymnasium. It does not need to be the study-class' teacher who greets the children, but children should be greeted either when they arrive at school or when they enter their classroom.
	3.3	Use a strict interpretation. Give credit if parents would be allowed to do so, even if it is not the customary practice (children ride buses, parents are permitted to drop children off). You may need to ask a question.
	5.1	Observe greeting very carefully to see if each child is actually greeted, and that the greeting is personal and positive (e.g. caregiver makes eye contact and smiles, uses child's real name or nickname, says something to child or asks something).
10. Meals/ snacks	1.2, 3.2	The intent of this indicator is to determine whether the correct components of a meal or snack are being served to the children. No analysis of the nutritional value of foods served is necessary. Use the Food Guide to determine whether the components are present. Personal dietary preferences of the assessor are not to be used in determining the quality of the foods served.
	1.3, 3.3	If children eat in a school cafeteria, look for indications that the table is sanitized between use by different children. If our children go to lunch and there are crumbs and spills on their table from the previous group's use, score 1.3 "yes." If snack time is flexible and children come and go throughout a period of time, the same sanitary conditions are required (i.e., table sanitized between children using same places, children's hands washed, etc.)
	7.1	An additional example might be, "Children carry their own trays."
11. Nap/rest	1.1, 3.1	A shorter rest period is acceptable in kindergarten. Programs of more than four hours must provide at least 20 minutes of rest time.
	1.2, 3.2	"Not crowded" means the cots/mats are at least 18 inches apart, unless separated by a solid barrier. If children are made to rest on the floor or on carpet squares, score 1.2 "yes."
	7.2	Credit can be given when children can be happily occupied by reading a book or playing quietly while on their cots.

12. Toileting/ diapering (The first note can be placed in the space between the indicators and printed notes.)	1.1 & 3.1	One strategy for maintaining sanitary conditions is to designate sinks for specific purposes (for example, sinks near toilets used only for toileting handwashing, and sinks in classroom used for food-related purposes). If the same sink is used by either children or adults for both toileting and meal handwashing (or toothbrushing) or to wash toys/other classroom equipment, it must be sanitized by spraying sink and faucets with a bleach solution after diapering/toileting. If children use toilet, wash hands and then immediately sit down for meal/snack, contamination of children's hands at toileting sink must be minimized, for example by having children turn off water with paper towel or having adult turn off faucets. However, children do not have to wash their hands twice—once at the toilet sink, and once at the food sink.
	1.4	Kindergarten children might be sent by themselves to a bathroom in the hallway. This is not necessarily inadequate supervision. Consider how this is being handled -- does the teacher know the child has left the room? Does the child seem to know where to go? Are staff vigilant for her return? In other words, is this working? If the child must go out of the building in which her classroom is contained, is there a fence around the school property?
	3.3	75% of children's hands washed and 75% of adults hands washed
	3.5	Adequate supervision means that teachers check to be sure that toilet sanitary conditions are maintained (ex. toilets flushed, toilet paper/towels and soap provided) and ensure that children complete sanitary procedures properly (ex., wipe properly, wash hands).
	7.1	To be considered child-sized, toilets and sinks must be usable, with no adaptations (e.g., steps), by at least 75% of children in group.
13. Health practices	1.1	Sand areas are not required to be covered when not in use, but there should be no signs of animal contamination. Since this indicator does not handle sanitation required for diapering and toileting, the examples related to diapers and diapering/toileting in this indicator should be omitted.
	3.1	Be sure to read the note in the book on this indicator. This item does not consider hand-washing related to toileting or meals.
	3.2	Examples for this indicator include: - tissues available and used when necessary - same washcloth/towel not used for more than one child - children wash hands if soiled after outdoor play, messy activities - soap available and used - toothbrushes stored to avoid contamination
	7.2	If the "same sink" is used for both toothbrushing and toileting, without sanitizing, consider this under item 12, Toileting/diapering.
14. Safety practices	1.1	Bleach and water solution does not have to be locked away, but must be stored out of reach of young children. It can not be sprayed where it can be breathed in by children, for example, while children are seated around the table. Any electrical outlets or wires present where children are allowed to play must be safe (e.g. outlets covered, cords secure).
	1.3	If this is scored "yes" then it is likely that items 29 and 30 will also receive scores of 1. To score this indicator "Yes", supervision must be inadequate both indoors <i>and</i> outdoors.
15. Books and pictures	5.1	If early reader books are present, other types of books must be present also. You do not have to see early reader books accessible in order to score 'yes.' Note that all the books do not have to be in the book area. They may be located in various areas of the room. Be sure to look for them. A "wide selection" means at least 20 books, but more might be required if there is a large group of children. <i>Approximately</i> 3-4 of each type (glasses count as a representation of abilities) but this rule is flexible and there might be more or less of any category. However each type must be represented.
	5.4	Violence or other frightening content in books is not considered "appropriate" for children in the group. No credit should be given for this indicator if this type of content is present in materials that are considered in this item. Early reader books are appropriate for kindergartners when included with picture books and stories the teachers can read. If only early reader books are accessible, score 'no.' You do not have to see early reader books accessible in order to score 'yes.'
	5.5	Informal reading must be observed at least once to get credit for this indicator.
16. Enc. Children to comm.		In kindergarten, consider writing as a communication activity, as long as the activity focuses on helping children grasp that thoughts can be expressed through writing. Do not include activities that focus on the mechanics of writing, such as tracing letters or copying off the board. Do consider activities such as writing in journals, even if children can't write recognizable letters yet.
	1.1, 3.1	Activities to encourage children to communicate require that staff take action to draw communication from a child. During free play, for example, the teacher might ask the child to talk about what he/she is doing or making. During circle time, finger plays, songs, reciting nursery rhymes, or helping to tell a story would count towards meeting this indicator.

17. Using language to develop reasoning skills	5.1	At least one instance must be observed.
	5.2	At least two instances must be observed.
18. Informal use of lang.	1.1	Change the word “primarily” to “only.”
19. Fine motor	5.1	“Many” means at least 3 of each type. In kindergarten the category “manipulatives” is optional. An abacus is an additional example of manipulatives.
20. Art	5.1	“Many” means that some materials be accessible from at least 4 of the categories for a substantial portion of the day. Drawing materials are required.
	5.2	See whether children have access to the art materials and if they actually use them in their own creative way. Art displayed in the room can provide clues. A lot of individual art on display is evidence for a score of “yes.” However, even if many teacher-directed projects are displayed, you might still score this indicator “yes.” In such cases, if you observe that children have many opportunities of using art materials in their own way, you may give credit for this indicator. Questions such as, “How do you choose what to put on the bulletin board?” may also be helpful.
21. Music/ movement	3.2	Singing the ABC song counts for this indicator.
	5.1	To give credit for “many”, there must be enough musical instruments for at least half of the children to use at once <i>plus</i> some music to listen to, such as a tape player with tapes or music on a computer program. Dance props must be accompanied by something that makes music. For a tape player to be accessible, older children should be able to use the tapes independently, but younger children may require help from the teacher.
	7.2	A music class taught by the school music teacher would count for this indicator.
22. Blocks		Usually the block area will be in the classroom being observed. However, in a center where there is a block area that is outside the classroom (such as in a multi-purpose room or outdoors), that is accessible to the children on a regular basis, this should be considered when scoring this item. Interlocking blocks (whether large or small, indoors or outdoors) are not considered in this item.
	5.1	Add the word “ <i>space</i> ” to the indicator, so that it now reads, “Enough space, blocks and accessories...” This indicator requires enough blocks for 3 children to build sizable structures independently.
	5.3	The block area may include other types of small blocks rated under fine motor, Item 19, in addition to blocks, and still be given credit for being a special block area. Credit cannot be given if other materials, such as other fine motor toys, art materials, pretend play materials, carpentry tools, etc. are included with the blocks. However, if there are a few hardhats in the block area that do not take up space needed for block play or interfere with block construction, and the major materials in the area are blocks and accessories, credit can be given.
	5.4	If two or more block areas are considered in calculating accessibility for a substantial part of the day, all block areas must meet requirements of 5.1-5.3 to be counted. The other block area may be outdoors or in another indoor space.
23. Sand/water		Wood chips can be considered a substitute for sand if the material can be used in the same way as sand — that is, easily poured or dug in — and if children would not get splinters when using the material.
	3.2	Correct this indicator to read: Some sand/water toys accessible.

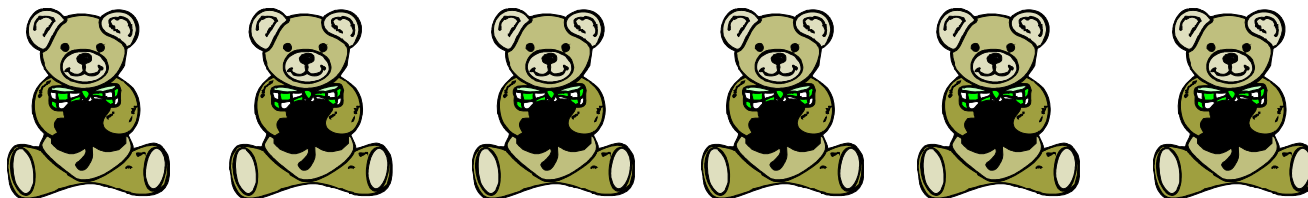

24. Dramatic play	5.1	To give credit for this indicator, there must be many general dramatic play materials, including dress-up clothes for men and women. Many dress-up clothes are not required. The printed note in the scale is meant to provide examples and should not be taken as requirements. Hats, purses and shoes count as clothing.
		Consider materials both indoors and outdoors when calculating accessibility for a substantial portion of the day.
	5.2	Consider small toys that children can pretend with, both indoors and outdoors, when scoring this indicator (e.g., small dolls, trucks, animals, etc)
	5.3	Organized storage means that materials of the same type (e.g., dolls, dress-ups, cooking props, food props, etc.) are generally stored together (e.g., in containers or in furniture).
	5.4	Storage does not have to be perfectly neat.
25. Nature/science	7.2	Consider dolls as props for this indicator.
	*	The term <i>collections of natural objects</i> means that there are groups of similar objects that can be classified together. For example, seashells, seeds, leaves, pine cones. Sufficient numbers of the objects in each collection must be present to allow children to explore similarities and differences. Collections of plastic animals are not considered here, but these materials can be counted as science/nature toys.
	5.1	"Many" means <i>approximately</i> 3-5 of each type. However, this can vary, as long as each type is represented. In some cases you might give credit for more than 3-5 of one type and less than 3-5 of another. This will also depend on the ages and number of children in the group.
26. Math/number	5.4	Must observe one example or see clear evidence (i.e., pictures, drawings).
	3.1	Look around the room carefully to find math materials because they might not be organized into a center.
	5.1	"Many" means <i>approximately</i> 3-5 of each type. However, this can vary, as long as most types are represented. In some cases you might give credit for more than 3-5 of one type and less than 3-5 of another. This will also depend on the ages and number of children in the group.
	5.4	The intent of this indicator is for adults to link math and numbers to practical life events in the children's day. Look for use of numbers during meals or getting ready for meals (such as setting the table), transition times, using a timer to take turns, counting who is absent, arriving/leaving, etc. Do not count play activities such as number games or computer games in determining the score for this indicator. "Number talk" or number experiences as part of practical life events should be observed <i>more than once</i> during the observation to give credit for this indicator.
27. Use of TV, etc. (The first two notes can be pasted in the space between the indicators and the printed notes)	7.1	Math instruction provided as part of the curriculum will count towards this indicator.
	1.1, 3.1	Unfortunately, many children's videos or TV programs contain violence and are therefore inappropriate even though they have been created for the children's market. This may include some natural wildlife productions and cartoons.
	1.2, 3.2	For kindergarten, delete the word "computer."
	3.3	The intent here is to ensure that children participate in play in which they can actively be creative, imaginative, and have hands-on experiences with real materials rather than spending inordinate amounts of time watching TV or playing computer games. The amount of time given in the example is a general indication of a time limit and can vary by 10-20 minutes. In kindergarten computer turns can be as long as 45 minutes if the child is engaged.
	5.2	It is fine if there is some required computer time for kindergartners. This indicator can be scored yes as long as there is also sometimes the opportunity to choose computer work from a range of optional activities.
28. Promoting accept. of diversity	1.3	Examples include prejudice shown against particular groups (ethnic, racial, etc.) even if members of that group are not represented in the room.
	3.2	People portrayed in traditional dress should be portrayed realistically (photographed, or portrayed in context). If people are portrayed in traditional dress, similar people should also be portrayed in modern dress somewhere in the classroom.
	5.2	Examples include different kinds of dolls, puppets and block/dramatic play people.

29. Supervision of gross motor activities		To score this item, consider <i>ALL</i> teachers supervising gross motor activities. Notice adult/child ratios and whether adults are supervising the most hazardous areas/activities adequately. Consider physical education classes and recess periods supervised by other teachers as well as playground times when our teacher is present.
	1.1	The <i>example</i> in this indicator, of children being left unattended even for a short period of the time, means that <i>no</i> adult is present to supervise children.
30. General Supervision		Kindergarten children might be sent by themselves to a bathroom or on an errand for the teacher. The teacher might also step out of the room for a moment, leaving the children alone. This is not necessarily inadequate supervision. Consider how this is being handled -- when the teacher sends Linda to the principal's office with paperwork, is someone expecting her? Does she seem to know where to go? Are staff vigilant for her return? In other words, is this working? If the child must go out of the building in which her classroom is contained, is there a fence around the school property?
32. Staff-child interactions	5.3	Sympathetic response means that staff notice and validate a child's feelings, even if the child is showing emotions that are often considered unacceptable, such as anger or impatience. The feelings should be accepted although inappropriate behaviors, such as hitting or throwing things, should not be allowed. A sympathetic response should be provided in most, but not necessarily all, cases. If children are able to solve minor problems themselves, then teacher response is not needed. The observer needs to get an overall impression of the response of the staff. If minor problems persist and are ignored or if staff responds in an unsympathetic manner, give no credit for this indicator.
33. Interactions among children	3.1	Additional examples might be, "Children are allowed to work together to complete assignments or come up with an answer," or "Teacher asks children to tell their neighbor how they came up with a solution."
34. Schedule	* , 5.2, 5.3	Read "...play activities" as, "...play/learning activities."
	3.2	Schedule must be posted in the room to get credit. Outside the door is not sufficient since substitutes and new staff can't refer to it there.
	5.4	"Long period of waiting" means waiting without any activity for three minutes or more, (e.g., running around aimlessly, whole group sitting at tables waiting for lunch, waiting in line to go out or to use the bathroom).
35. Free play		Free play can include both open-ended activities (blocks, dramatic play, etc.) and activities with specific rules or outcomes (games or story-writing). A time when no open-ended play activities are available but a number of academic tasks have been set for the kids and they can choose which one to do first would not be considered under this item.
	3.2	Ensuring that health and safety requirements are met occurs in "Toileting/diapering", "Meals/snacks", and "Health practices"; safety requirements are assessed in "Space for gross motor play" and "Safety practices". This indicator, as part of the "Free play" item, is to ensure that children are supervised to minimize major hazards to their health and safety (e.g., children are supervised so that they do not play with matches or swallow poisons, etc.). Do not score <i>No</i> unless supervision during free play is extremely lax.
36. Group time	3.1	Read as, "Some play/learning activities done in small groups or individually."
	5.2	Read as, "Many play/learning activities done..."
	7.2	To give credit for this indicator, the assessor must observe to get a general impression of what the children experience. One staff might be stronger in educational interaction than another, but if the stronger teacher is strong enough, credit can be given.
37. Provisions for children with disabilities		Note that this item can not be scored unless there is a child in the group with an identified and diagnosed disability, with a completed assessment. If the diagnosis and assessment have not been completed on the child, score this item <i>N/A</i> . The teacher need not point out the child or tell the observer about the particulars of the disability for this item to be scored. As you question the teacher about how the identified child's special needs are handled, you do not need to know which child is being discussed. Do not ask the teacher to give you any information that a child's parents might consider private. Assume that parents want their privacy protected and simply ask the questions needed to score.
	1.1, 3.1	If the class is a "special ed" class, score 1.1 "no" and 3.1 "yes." When you observe a "regular ed" class, "staff" means the staff who work daily in that room, so even if children with special needs work with a special ed teacher, the regular teacher should still have information from assessments.

Counting

1. **Purpose:** This quick activity measures children's abilities to count in one-to-one correspondence.
2. **Description:** Children are asked to count and point, clearly understanding one-to-one correspondence, using a picture of 20 teddy bears (2 rows of 7 bears, one row of 6 bears). If they successfully complete the first sheet, they will be asked to continue counting with another set of 20 more teddy bears.
3. **Scoring**
 - Write the highest number that the child was able to count in correct sequence with one-to-one correspondence.
 - If the child could not/would not count, check the line “Child could not count”
4. **Some Administration Tips**
 - Do not count aloud yourself beyond 3.
 - Child must count and point, clearly understanding one-to-one correspondence.

Counting

SAY:

Count for me.

Highest number child counted in correct sequence	_____
OR	
Child could not do	_____ (check)

PRESENT THE FIRST SHEET OF TWENTY BEARS. SAY:

Help me count these teddy bears. Let's point to the bears.

POINT TO FIRST BEAR.

One . . . STOP BRIEFLY TO LET CHILD PICK UP WITH 2. GO ON.

Two . . .

PROMPTS:

Count with me.

Point with me.

Three . . .

DO NOT PROMPT, POINT OR COUNT ALOUD YOURSELF BEYOND 3. CHILD MUST COUNT AND POINT, CLEARLY UNDERSTANDING ONE-TO-ONE CORRESPONDENCE.

IF THE CHILD COUNTS CORRECTLY UP TO 20, PRESENT THE SECOND SHEET OF BEARS ADJACENT TO THE FIRST SHEET, AND SAY, "**Keep going.**"

IF THE CHILD DOESN'T CONTINUE, STOP HERE.

IF THE CHILD BEGINS AGAIN WITH "1" PROMPT BY SAYING:

TWENTY ONE... STOP BRIEFLY TO LET CHILD PICK UP WITH 22. GO ON.

TWENTY TWO...

TWENTY THREE...

DO NOT PROMPT, POINT, OR CONTINUE BEYOND 23. CHILD MUST COUNT AND POINT, CONTINUING THE ONE-TO-ONE CORRESPONDENCE.

Highest number child counted in correct sequence with one-to-one correspondence	_____
OR	
Child could not do	_____ (check)

- O -	
El niño no pudo contar	_____ (marque)

SUMMARY SHEET

Color Bears

1. **Purpose:** This quick activity measures children's ability to identify 10 basic colors.
2. **Description:** The child must point to each of the 10 color bears and name the color of the bear.
3. **Scoring**
 - Circle a "1" for every color the child correctly **named**.
 - Circle a "0" for any color the child **did not name**.
 - Circle a "0" for any color the child named **incorrectly**.
4. **Some Administration Tips**
 - If a child changes his/her answer, score according to the final answer.
 - It may be useful to tell the child, "Please don't go too fast" before beginning. You'll need to watch carefully and circle all the colors the child correctly names. This task may be difficult if the child names them very quickly.

The *Color Bears* is from the Head Start Family and Child Experiences Survey (FACES) Spring 1998 assessment and used with the permission of Nicholas Zill and Gary Resnick of Westat.

This form created by National Center for Early Development and Learning (2001), based on the work of the Fall 2000 NC School Readiness Assessment, Frank Porter Graham Child Development Center, UNC-CH.

Color Names*

SHOW THE CHILD THE PAGE OF COLORED BEARS.

Here are some colored bears. Do you know any of these colors?

IF CHILD ANSWERS "YES," SAY:

Point to all the colored bears that you know and tell me what color they are. Show me which bear you're pointing to.

CIRCLE 1 POINT IN "NAMED" COLUMN FOR EACH COLOR CHILD CORRECTLY NAMES.

ASSIGN 0s FOR ALL REMAINING COLORS THAT CHILD CANNOT NAME.

COLOR	NAMED	NOT NAMED
RED	1	0
GREEN	1	0
WHITE	1	0
BLUE	1	0
BROWN	1	0
YELLOW	1	0
ORANGE	1	0
BLACK	1	0
PINK	1	0
PURPLE	1	0

usado con el permiso de Nicholas Zill y Gary Resnick, Westat.

Identifying letters and numbers

1. **Description:** There are two different activities. The first activity requires the child to name as many letters as he/she can on three 8 ½ x 11 sheets of mixed capital and lowercase letters. The next activity asks the child to identify numbers 1-10, printed in random order on an 8 ½ by 11 sheet.
2. **Scoring**
 - Circle a "1" for every letter or number the child correctly **named**.
 - Circle a "0" for any letter or number the child **did not name**.
 - Circle a "0" for any letter the child **named incorrectly**.
3. **Some Administration Tips**
 - If a child names a letter or number incorrectly, score it as (0).
 - If a child changes his/her answer, score according to the final answer.
 - It may be useful to tell the child, "Please don't go too fast" before beginning. You'll need to watch carefully and score all the letters and numbers the child correctly names. This task may be difficult if the child names them very quickly.

Multi-State Study**

PRE-KINDERGARTEN

Teacher Involvement Scale-Pre Academic Scale

SNAPSHOT CODEBOOK

Below you will find a definition for each section and category on the child observation codesheet. Examples appear where applicable.

DISENGAGED: SELECT ZERO OR ONE CODE

If this section is coded, you may not code any other section EXCEPT for Activity Setting. If there is any kind of engagement or interaction that can be coded, it will supercede this code. If an adult speaks to the child while they are distracted, then the code is for adult interaction NOT for disengaged.

DISTRACTED: Code if the child is:

not doing what the rest of the group is doing and is not focused on the assigned activity. The child may be aimlessly wandering or “spaced out.” Code also if the child is placed in “time-out” **if** the child is facing a wall or is “spacing out” while in time-out.

ACTIVITY SETTING: SELECT ONLY ONE CODE (**EXCEPT** WHEN DOUBLE-CODED WITH **OUTSIDE TIME**)

This set of codes captures the **ACTIVITY** that the teacher has prepared for the children **OR** for the **TARGET CHILD** if the activity is different from the rest of the group.

ROUTINE: Code when a child is engaged in:

toileting, standing in line, clean-up time, wait time between activities, waiting for materials to be passed out.

MEALS-SNACKS: Code when child is engaged in:

eating lunch, breakfast or snacks, or is enjoying food that the class cooked during a cooking project.

WHOLE GROUP TIME: Code when a child is engaged with:

the whole group in a **teacher-initiated** activity. Activities can include stories, songs, calendar instruction, discussions, book reading, demonstrations. **The child's focus is on the teacher.** This may include structured PE activities on the yard and be double-coded with outside time.

FREE CHOICE/CENTER: Code when a child is engaged in:

free choice activities. During this time **children are able to select** what and where they would like to play or learn. Activities can include individual art projects, blocks, pretend area, puzzles, reading, puppets, computers, science areas, etc. The key here is that **children have chosen** their activities. It does not matter if the activity they have chosen is individual or in a small group. It does not matter if the activity is with or without the teacher.

INDIVIDUAL TIME: Code when the child has:

been assigned to work individually with teachers, on worksheets, independent projects, computer work etc. This is coded when this is the activity setting for the whole class or for a small group in which the target child is involved.

SMALL GROUP TIME: Code when child is engaged in:

small group activities that are teacher organized. Teacher organized means that the teacher decides what children are to be doing and assigns which children participate, even if the teacher is not participating in the group. These can include group art projects, writing stories, collective building, cooking projects, small group instruction, science experiments, structured PE activities, etc.

OUTSIDE TIME: Code when a child is:

OUTSIDE, regardless of what s/he is doing. **This will always be double-coded with another ACTIVITY SETTING.**

CHILD ENGAGEMENT: SELECT ZERO, ONE, OR MORE CODES

This section captures children's engagement in **learning activities**. This includes children's work with letters, words, numbers, counting, shapes, and science concepts. It also includes their use of books, pencils, markers, paper, magnifying glasses, measuring cups, graphs etc. The target child can be passively or actively engaged. Educational television such as Reading Rainbow and Sesame Street can be coded for appropriate content, such as counting, pre-reading, or letter sound learning.

READ TO: Code when a child is:
being read to by an adult.

PRE-READ/READ: Code when a child is:
reading on her/his own or with peers, listening to a book on tape while looking at a book, involved in a sequencing activity, recognition of whole words. Essentially this is a WHOLE LANGUAGE engagement for children.

Note: Consider the content of the books as this may be double-coded with social studies or science.

LETTER/SOUND LEARNING: Code when a child is:
practicing alliterations or rhymes that help her/him recognize sounds, talking about sound-letter relationships, identifying letters, sounding out words, syllabification of words through clapping games. Essentially this is about PHONEMIC awareness. Code also if the child is taking a spelling test or is reading spelling words to their classmates. Code if the child is practicing their vowel sounds.

ORAL LANGUAGE DEVELOPMENT: Code when a child is:
engaging with teachers: talking about stories, acting out stories, doing a play, using flannel board stories, telling stories of their own (narratives that have meaning), answering and asking questions, making comments or adding to the story. This includes show and tell time when the child is a listener as well as a speaker. It also includes times when the target child is asked to lead the class in an activity, excuse children for lunch, call the roll etc. This is within the context of purposeful teaching and learning, not to be confused with informal conversation with peers. This also includes teacher support of conflict resolution using language.

WRITING: Code when a child is:
writing, pretending to write, using a computer keyboard, or calculator, doing alphabet letter or number puzzles, writing his/her name, incorporating writing into play, such as writing grocery lists or taking orders. Also code for tracing or using alphabet stamps. Includes recording observations in science experiments, journaling, writing stories.
Note: This category encompasses writing of both numbers and letters. This will often be double-coded with Fine Motor.

MATH: Code when a child is:

rote counting, counting with 1:1 correspondence, skip counting, identifying written numerals, matching numbers to pictures, making graphs, playing counting games (e.g.; dice, dominoes, Candyland, Chutes and Ladders), keeping track of how many days until a special event, counting marbles in a jar, playing concentration with numbers. Code when children are working on math work sheets and are, for example, using counters or fingers as strategies to figure out the answers. Also code when child is identifying shapes, talking about the properties of shapes (how many sides), finding shapes in the room, identifying same and different, comparing (big/little, biggest), sorting (by color, size, shape), discerning patterns (red blue red blue, or green rectangle, blue triangle), measuring for cooking, or figuring out inches/feet.

SCIENCE: Code when a child is:

identifying and exploring natural phenomena in their environment (bugs, leaves, weather), using science equipment (mirrors, magnets, magnifying glasses), **working with sand or water** (note: just being in the sand does not mean that s/he is working with it). Includes reading books that identify or talk about animals, body parts, life-cycle of the butterfly, birth, class pets (in which case this should be double-coded with PRE-READING). The child may be planting seeds, gathering rocks. The child may hypothesize, guess, estimate. She/he may be engaged in **trial and error** or experimentation, such as figuring out **how to use** features on a computer or how to solve a problem (such as how to open a box or fix something that is broken). Includes exploration of the senses: smell, touch, taste, sound, vision.

SOCIAL STUDIES: Code when a child is:

talking, reading, or engaged in activities about their world (their neighborhood, their school, the farm, the community workers). May include block structures or drawings of the post office, the market, the harbor. May include fantasy play, dress-up, or role playing of family members, police officers, firefighters, doctors. May include discussions of cultural diversity, skin color, different family practices (what different families eat, what holidays they celebrate, family configurations). May include discussions or books about stereotypes, prejudice, and bias based on ethnicity, gender, age, or physical challenges. All religious studies are included in this category.

AESTHETICS: Code when a child is:

engaged in art or music activities. Children may be painting, illustrating stories, sharing art work, making original drawings, using pastels or watercolors, modeling with clay, making collages, making jewelry. Children may be listening to music (double-code with other activity if teacher purposefully has music playing during other activities), using musical instruments, dancing, or taking parts in a play. This can include practicing for program presentations. This includes coloring or copying from a model (in which case double-code with DIDACTIC).

GROSS MOTOR: Code when a child is:

involved in gross motor activities such as running, skipping, jumping, swinging, riding bikes, or playing games such as basketball, catch, run and chase, or bean bag throw. This also includes dancing and musical chairs, which should be double-coded with AESTHETICS. This does not include physical contact that could result in injury. This can take place both inside and outside.

FINE MOTOR: Code when a child is:

stringing beads, building with Legos, cutting, using crayons and markers or paint brushes. This also includes completing puzzles. This will often be double-coded with another activity.

ADULT INTERACTION: SELECT ZERO OR ONE CODE

Code only when there is one-on-one teacher-child interaction (can be physical or verbal)

This section reflects the level of complexity of the teacher's 1:1 interaction with the **target child**. These categories are listed from least to most complex. Choose only the code that reflects the highest level of interaction reached in that interval, regardless of duration. The interactions may be positive or negative. The valence will not be captured here but will be picked up in the CLASS and Ladd.

ROUTINE: Code if the teacher:

interacts with target child during routine caregiving (opens a milk container, passes out materials) but does not verbally interact with the child.

MINIMAL: Code if the teacher:

responds to target child's direct requests for help or gives verbal directives with no reply encouraged. Teacher verbally responds with **a few words** ("okay," "that's right," "good," "stop that!," "sit down!," "yes she is").

SIMPLE: Code if the teacher:

answers target child's verbal bids but does not elaborate or if the teacher asks child simple questions. Teacher responds to child with short sentences ("Yes, you need to glue that piece," "You're doing such a good job!," "I'm tired of your noise," "Where did you get that?"). Teacher may be providing simple instructions on how to begin an activity. Teacher may use gestures such as a big smile, thumbs up or a frown, glare, or eye-rolling.

ELABORATED: Code if the teacher:

engages in physical contact (high fives, hugs or holds child, yanks or grabs child, responds to a child who goes to him/her for affection or physical contact), engages in reciprocal conversation that validates a child's feelings or demonstrates teacher interest in what the child is saying. The teacher asks questions, gives the child a chance to express her/his interests or ideas, plays interactively with the child, or expands play or engagement in activities by playing with the child or by suggesting additional materials or new ideas for a game or learning activity.

TEACHER-CHILD ENGAGEMENT: SELECT ZERO, ONE, OR MORE CODES

This section complements the “Adult Interaction” section and provides more detail about the specific ways in which teachers interact with **students in the classroom**.

Note: Use the following four codes if target child is individually engaged with the teacher or if she/he is a participant in the group with which the teacher is working.

ENCOURAGES: Code if the teacher:

- is reading to children or engaging children to read, enjoy or listen to books, practice writing, or engage in play with literacy themes.
- **praises** children’s work and/or their ability to resolve conflicts,
- **motivates through personal engagement. This means that the teacher is playing or working with the child in the child’s activity. They are not simply providing instruction or information, but are actually engaged in the same activity.**
- is **affectionate** with the child (e.g., holds or cuddles child, puts an arm around the child **while** motivating or providing information or ideas).

The mere presence of a teacher is not enough to warrant coding.

SCAFFOLDS: **The defining characteristic is if the teacher shows an awareness of an individual child’s needs and responds in a manner that supports and expands the child’s learning.**

Code if the teacher

- is utilizing the curiosity or interest of the child
- using **child’s initiations as an opportunity to add to his/her learning.**
- asks open-ended questions,
- provides prompts or cues
- helps child expand on his answers and thoughts
- works to link classroom activities to child’s life and experiences.
 - asking the child questions or posing problems that have multiple solutions, including conflict resolution.

DIDACTIC: Code if the teacher is:

- lecturing-providing instructions or giving information without interaction with the children. There is no reciprocity. The teacher talks, the children listen.
- Modeling or demonstrating. The teacher is showing the children how to do something and there is just one way to do it.
- asking children questions or posing problems that have ONE CORRECT ANSWER. Teacher tries to lead the children to the correct answer. She is looking for precise words or precise numbers to answer the question or solve the problem.
- engaging children in rote activities such as counting or saying the days of the week. This code includes worksheets, directed art, coloring pages, and spelling lists.
- **giving rules of conduct or lecturing about behavior or social expectations.**

SECOND LANGUAGE: Code if the teacher is:

speaking in a language other than English or if she is moving back and forth between English and another language. This will be double-coded with other Teacher-Child Engagement codes.

**Ritchie, Howes, Kraft-Sayre, & Weiser
Multi-State Study**

KINDERGARTEN

Teacher Involvement Scale-Pre Academic Scale

SNAPSHOT CODEBOOK

Below you will find a definition for each section and category on the child observation codesheet. Examples appear where applicable.

DISENGAGED: SELECT ZERO OR ONE CODE

If this section is coded, you may not code any other section EXCEPT for Activity Setting. If there is any kind of engagement or interaction that can be coded, it will supercede this code. If an adult speaks to the child while they are distracted, then the code is for adult interaction NOT for disengaged.

DISTRACTED: Code if the child is:

not doing what the rest of the group is doing and is not focused on the assigned activity. The child may be aimlessly wandering or “spaced out.” Code also if the child is placed in “time-out” **if** the child is facing a wall or is “spacing out” while in time-out.

ACTIVITY SETTING: SELECT ONLY ONE CODE (**EXCEPT** WHEN DOUBLE-CODED WITH COMPUTER)

This set of codes captures the **ACTIVITY** that the teacher has prepared for the children **OR** for the **TARGET CHILD** if the activity is different from the rest of the group.

ROUTINE: Code when a child is engaged in:

toileting, standing in line, clean-up time, wait time between activities, waiting for materials to be passed out.

MEALS-SNACKS: Code when child is engaged in:

eating lunch, breakfast or snacks, or is enjoying food that the class cooked during a cooking project.

WHOLE GROUP TIME: Code when a child is engaged with:

the whole group in a **teacher-initiated** activity. Activities can include stories, songs, calendar instruction, discussions, book reading, demonstrations. **The child's focus is on the teacher.** This may include structured PE activities on the playground.

FREE CHOICE/CENTER: Code when a child is engaged in:

free choice activities. During this time **children are able to select** what and where they would like to play or learn. Activities can include individual art projects, blocks, pretend area, puzzles, reading, puppets, computers, science areas, etc. The key here is that **children have chosen** their activities. It does not matter if the activity they have chosen is individual or in a small group. It does not matter if the activity is with or without the teacher. *(Does not include recess)*

INDIVIDUAL TIME: Code when the child has:

been assigned to work individually with teachers, on worksheets, independent projects, computer work etc. This is coded when this is the activity setting for the whole class or for a small group in which the target child is involved.

SMALL GROUP TIME: Code when child is engaged in:

small group activities that are teacher organized. Teacher organized means that the teacher decides what children are to be doing and assigns which children participate, even if the teacher is not participating in the group. These can include group art projects, writing stories, collective building, cooking projects, small group instruction, science experiments, structured PE activities, etc.

RECESS: Code when a child is:

on an identified break from classroom work that is unstructured time, either inside or outside (e.g. on the playground, in a multi-purpose room). This is **not** double-coded with any other activity setting.

COMPUTER: Code when a child is:

engaged in an activity at the computer. The content of the software will be captured in the child engagement code. **Will be double-coded with another activity setting.**

CHILD ENGAGEMENT: SELECT ZERO, ONE, OR MORE CODES

This section captures children's engagement in **learning activities**. This includes children's work with letters, words, numbers, counting, shapes, and science concepts. It also includes their use of books, pencils, markers, paper, magnifying glasses, measuring cups, graphs etc. The target child can be **passively or actively engaged**. Educational television such as Reading Rainbow and Sesame Street can be coded for appropriate content, such as counting, pre-reading, or letter sound learning.

READ TO: Code when a child is:

being read to by an adult. Code this category when a teacher is engaged in reading the story itself or engaged in talking about the author, showing the cover, asking questions about the story.

PRE-READ/READ: Code when a child is:

reading on her/his own or with peers, listening to a book on tape while looking at a book, involved in a sequencing activity, recognition of whole words. Essentially this is a WHOLE LANGUAGE engagement for children.

Note: Consider the content of the books as this may be double-coded with social studies or science.

LETTER/SOUND LEARNING: Code when a child is:

practicing alliterations or rhymes that help her/him recognize sounds, talking about sound-letter relationships, identifying letters, sounding out words, syllabification of words through clapping games. Essentially this is about PHONEMIC awareness. Code also if the child is taking a spelling test or is reading spelling words to their classmates. Code if the child is practicing their vowel sounds.

ORAL LANGUAGE DEVELOPMENT-Code when a child is:

involved in an activity or an interaction where a **teacher is taking action to draw communication from the children and build expressive language**. The teacher may be:

- asking children questions, asking them to practice word pronunciation, learn or practice vocabulary. *Typically questions are open-ended, not eliciting yes/no answers*
- exchanging information with children to help them expand on their thoughts,
- is involved in verbal social interaction with the children, asking them about their lives or their activities.

Note: Oral Language Development is not merely giving instructions, nor is it coded when children are merely reciting or repeating words after the teacher

WRITING: Code when a child is:

writing, pretending to write, using a computer keyboard, or calculator, doing alphabet letter or number puzzles, writing his/her name, incorporating writing into play, such as writing grocery lists or taking orders. Also code for tracing or using alphabet stamps. Includes recording observations in science experiments, journaling, writing stories.

Note: This category encompasses writing of both numbers and letters. This will often be double-coded with Fine Motor.

COPYING: Code when a child is:

copying letters, numbers, words, pictures from an example on a blackboard, book, worksheet or other materials. Children may be copying the date from the board onto their papers, they may be practicing letter or number formation by copying one example multiple times. They may be copying words on a worksheet or practicing writing their names from an example. It must include **the replication** of examples. This is a rote activity, it does not include synthesizing information.

MATH: Code when a child is:

rote counting, counting with 1:1 correspondence, skip counting, identifying written numerals matching numbers to pictures, making graphs, playing counting games (e.g.: dice, dominoes, Candyland, Chutes and Ladders), keeping track of how many days until a special event, counting marbles in a jar, playing Concentration or Memory with numbers. Code when children are working on math worksheets and for example using counters or fingers as strategies. Also code when child is identifying shapes, talking about the properties of shapes (e.g. how many sides), finding shapes in the room, identifying same and different, *quantitative* comparing (e.g.: big/little, biggest), sorting (by color, size, shape), discerning patterns (red, blue, red, blue), measuring for cooking or size. **Please code anything that has to do with the CALENDAR, even if it does not expressly refer to numbers, it is still a concept of TIME.**

SCIENCE: Code when a child is:

identifying and exploring natural phenomena in their environment (bugs, leaves, weather), using science equipment (mirrors, magnets, magnifying glasses), **working with sand or water** (note: just being in the sand does not mean that s/he is working with it). Includes reading books that identify or talk about animals, body parts, life-cycle of the butterfly, birth, *foods and nutrition*, class pets (in which case this should be double-coded with PRE-READING). The child may be planting seeds, gathering rocks. The child may hypothesize, guess, estimate. She/he may be engaged in **trial and error** or experimentation, such as figuring out **how to use** features on a computer or how to solve a problem (such as how to open a box or fix something that is broken). Includes exploration of the senses: smell, touch, taste, sound, vision.

SOCIAL STUDIES: Code when a child is:

talking, reading, or engaged in activities about their world (their neighborhood, their school, the farm, the community workers). May include block structures or drawings of the post office, the market, the harbor. May include fantasy play, dress-up, or role playing of family members, police officers, firefighters, doctors. May include discussions of cultural diversity, skin color, different family practices (what different families eat, what holidays they celebrate, family configurations). May include discussions or books about stereotypes, prejudice, and bias based on ethnicity, gender, age, or physical challenges. All religious studies are included in this category. *Pledge of Allegiance should be coded here*

AESTHETICS: Code when a child is:

engaged in art or music activities. Children may be painting, illustrating stories, sharing art work, making original drawings, using pastels or watercolors, modeling with clay, making collages, making jewelry. Children may be listening to music (double-code with other activity if teacher purposefully has music playing during other activities), using musical instruments, dancing, or taking parts in a play. This can include practicing for program presentations. This includes coloring or copying from a model (in which case also code DIDACTIC if the teacher has given these instructions).

GROSS MOTOR: Code when a child is:

involved in gross motor activities such as running, skipping, jumping, swinging, riding bikes, or playing games such as basketball, catch, run and chase, or bean bag throw. This also includes dancing and musical chairs, which should be double-coded with AESTHETICS. *Gross Motor involves movement of the whole body.* This does not include physical contact that could result in injury. This can take place both inside and outside.

FINE MOTOR: Code when a child is:

stringing beads, building with Legos, cutting, using crayons and markers or paint brushes, *pencils or pens..* This also includes completing puzzles. This will often be double-coded with another activity. *Code use of pincer grasp. (This does not include computer keyboards or use of the mouse)*

ADULT INTERACTION: SELECT ZERO OR ONE CODE

Code only when there is one-on-one teacher-child interaction (can be physical or verbal)

This section reflects the level of complexity of the teacher's 1:1 interaction with the **target child**. These categories are listed from least to most complex. Choose only the code that reflects the highest level of interaction reached in that interval, regardless of duration. The interactions may be positive or negative. The valence will not be captured here but will be picked up in the CLASS and Ladd.

ROUTINE: Code if the teacher:

interacts with target child during routine caregiving (opens a milk container, passes out materials) but does not verbally interact with the child.

MINIMAL: Code if the teacher:

responds to target child's direct requests for help or gives verbal directives with no reply encouraged. Teacher verbally responds with **a few words** ("okay," "that's right," "good," "stop that!," "sit down!," "yes she is").

SIMPLE: Code if the teacher:

answers target child's verbal bids but does not elaborate or if the teacher asks child simple questions. Teacher responds to child with short sentences ("Yes, you need to glue that piece," "You're doing such a good job!," "I'm tired of your noise," "Where did you get that?"). Teacher may be providing simple instructions on how to begin an activity. Teacher may use gestures such as a big smile, thumbs up or a frown, glare, or eye-rolling.

ELABORATED: Code if the teacher:

engages in physical contact (high fives, hugs or holds child, yanks or grabs child, responds to a child who goes to him/her for affection or physical contact *not an incidental pat or nudge*), engages in reciprocal conversation that validates a child's feelings or demonstrates teacher interest in what the child is saying. The teacher asks questions, gives the child a chance to express her/his interests or ideas, plays interactively with the child, or expands play or engagement in activities by playing with the child or by suggesting additional materials or new ideas for a game or learning activity. **When children initiate a physical interaction with a teacher but there is no response from the teacher, do not code Elaborated**

TEACHER-CHILD ENGAGEMENT: SELECT ZERO, ONE, OR MORE CODES

This section complements the “Adult Interaction” section and provides more detail about the specific ways in which teachers interact with **students in the classroom**.

Note: Use the following four codes if target child is individually engaged with the teacher or if she/he is a participant in the group with which the teacher is working.

ENCOURAGES: Code if the teacher:

- is reading to children or engaging children to read, enjoy or listen to books, practice writing, or engage in play *or work* with literacy themes. (*When letter sound is the only child engagement, do not code ENCOURAGES for literacy themes*)
- **verbally praises or validates** children’s work and/or their ability to resolve conflicts, *Includes thanking children for answers or participation.*
- **motivates through personal engagement. This means that the teacher is playing or working with the child in the child’s activity. They are not simply providing instruction or information, but are actually engaged in the same activity or are motivating through puppets, props or fantasy play.**
- is **affectionate** with the child (e.g., holds or cuddles child, puts an arm around the child **while** motivating or providing information or ideas).

The mere presence of a teacher is not enough to warrant coding.

SCAFFOLDS: **The defining characteristic is if the teacher shows an awareness of an individual child’s needs and responds in a manner that supports and expands the child’s learning.**

Code if the teacher

- is utilizing the curiosity or interest of the child
- uses **child’s initiations as an opportunity to add to his/her learning.**
- asks open-ended questions,
- provides prompts or cues
- helps child expand on his answers and thoughts
- works to link classroom activities to child’s life and experiences.
- asks the child questions or posing problems that have multiple solutions, including conflict resolution.

DIDACTIC: Code if the teacher is:

- lecturing-providing instructions or giving information without interaction with the children. There is no reciprocity. The teacher talks, the children listen.
- Modeling or demonstrating. The teacher is showing the children how to do something and there is just one way to do it.
- asking children questions or posing problems that have ONE CORRECT ANSWER. **This should not be taken literally. Context is an important consideration. There are many rhetorical questions that are not part of this definition. “One correct answer” has to do with an academic question such as “how many ducks are in the picture?” or a rule, such as “How do we sit when the music teacher comes in the room?”** Teacher tries to lead the children to the correct answer. She is looking for precise words or precise numbers to answer the question or solve the problem.
- engaging children in rote activities such as counting or saying the days of the week. This code includes worksheets, directed art, coloring pages, *flash cards* and spelling lists.
- **giving rules of conduct or lecturing about behavior or social expectations.**

SECOND LANGUAGE: Code if the **teacher** is:

speaking in a language other than English or if she is moving back and forth between English and another language. This will be double-coded with other Teacher-Child Engagement codes.

Additional Snapshot Kindergarten Info

As we've been training in Kindergarten classes, some new things are arising that we wanted to call your attention to in order to keep the coding consistent and clarify any potential confusion. Here are some of the issues we are coming across:

Playing Concentration: This seems to be seen fairly often in K classrooms. Although in the codebook under "**Math**" specifically says "**...Concentration with numbers...**", we would like you to code this game as **Math** anytime you see it happening. It is a matching game and therefore, by definition is part of distinguishing patterns and sorting.

Individual vs. Small Group time: There has been some new confusion re: these two and the distinction we would like for you to make is: if children are **not** allowed to have interaction with their peers while completing worksheets or working on any project, whether or not they are sitting together at a table, in a circle, etc. then we will consider this "**Individual Time**". This will be the case **even if** they are all working on the same thing.

If peer interaction is permitted while they are working on their projects **and** they've been assigned the work by a teacher, this will be coded as "**Small Group time**".

Writing vs. Aesthetics: In Kindergarten, children are doing a lot of "circling". For example, they are working in a workbook and are asked to "circle the correct letter or number". **Any time children make a mark with a writing or drawing instrument, it is coded as either writing or aesthetics** (and of course "fine motor"). Making a circle around the answer is considered "**Writing**".

Copying: The simplest way we have found to be clear about when a child is copying and when they are producing something from memory is this: **if they look up at the model of what they are reproducing during the 20 second interval, it is considered copying. If they don't look at it at all, we can assume they know how to do it and they are not copying.**

Social Studies: Just a note about Social Studies...we are seeing a tendency to overcode Social Studies. We wanted to liken it to the distinction we made early on re: Science. Just because an animal appears does not make it Science. There needs to be some focus on the properties, etc. for us to consider that a child is spending his/ her time in a Science activity. This goes for Social Studies as well. If there is a picture of a school in a book a teacher is reading but s/he is reading about the letters of the alphabet, **DO NOT CODE SOCIAL STUDIES**. Please try and make the distinction between incidental pictures of things in the childrens' world and a real focus on these things to determine whether they are actually engaged in Social Studies.

If you have further questions; **please** don't hesitate to call or email Sharon or myself.
